To His Excellency

The Right Honourable Edward Schreyer,
C.C., C.M.M., C.D.,
Governor General and
Commander-in-Chief of Canada.

MAY IT PLEASE YOUR EXCELLENCY

The undersigned has the honour to present to Your Excellency the Public Accounts of Canada for the year ended March 31, 1983.

All of which is respectfully submitted.

Marc Lalonde,
Minister of Finance.

OTTAWA, OCTOBER 14, 1983

To The Honourable Marc Lalonde,
Minister of Finance.

In accordance with the provisions of Section 55(1) of the Financial Administration Act, Revised Statutes of Canada, 1970, c. F. 10, I have the honour to transmit herewith the Public Accounts of Canada for the year ended March 31, 1983, to be laid by you before the House of Commons.

Respectfully submitted,

Charles Lapointe,
Receiver General for Canada.

OTTAWA, OCTOBER 14, 1983

To The Honourable Charles Lapointe,
Receiver General for Canada.

Sir:

I have the honour to submit the Public Accounts of Canada for the year ended March 31, 1983.

Under Section 55(1) of the Financial Administration Act, Revised Statutes of Canada, 1970, c. F. 10, the Public Accounts for each fiscal year shall be prepared by the Receiver General and shall be laid before the House of Commons by the Minister of Finance on or before the thirty-first day of December next following the end of that year, or if Parliament is not then sitting, within any of the first fifteen days next thereafter that Parliament is sitting.

This annual report is presented in three volumes:

Volume I—A survey of the transactions for the year including summary statements; the financial statements of Canada on which the Auditor General has expressed an opinion, namely, the statements of transactions, of revenue and expenditure on a gross and net basis, of the assets and liabilities of Canada and of the use of appropriations together with related notes; the observations by the Auditor General on the financial statements of Canada; analyses of outlays and appropriations; analyses of budgetary revenue and expenditure, and of asset and liability accounts, together with those statements required by the Financial Administration Act to be published in the Public Accounts, and various other schedules and statements.

Volume II—Details of the financial operations of the Government, segregated by department.

Volume III—The financial statements of Crown corporations and the auditors' reports thereon.

The audited financial statements, contained in Volume I, are for the year ended March 31, 1983. They are, however, dated September 15, to allow for the closing and audit of accounts.

Respectfully submitted,

Pierre P. Sicard,
Deputy Receiver General for Canada.

INTRODUCTION TO THE PUBLIC ACCOUNTS

Nature of the Public Accounts

The Public Accounts is the report of the Government of Canada prepared each fiscal year by the Receiver General as required by Section 55 of the Financial Administration Act.

The report covers the fiscal year of the Government, which ends on March 31, and is prepared from data contained in the accounts of Canada and from more detailed records maintained in departments and agencies. The accounts of Canada is the centralized record of the Government's financial transactions maintained by the Receiver General in which the transactions of all departments and agencies are summarized. Each department is responsible for agreeing its accounts to the control accounts of the Receiver General, and maintains detailed records of the transactions in those accounts.

The report covers the financial transactions of the Government during the year. In certain cases, parliamentary authority to undertake transactions was provided by legislation approved in earlier years. The report also includes the financial statements of those Crown corporations and other bodies whose accounts are maintained separately from the accounts of Canada. The financial year of a number of these corporations and other bodies is the calendar year rather than the fiscal year of the Government.

Format of the Public Accounts

The Public Accounts is produced in three volumes.

Volume I

Volume I presents a summary and analysis of the financial transactions of the Government. The content of the sections of Volume I can be summarized as follows:

SECTION 1: summary statements of the financial transactions of the Government of Canada on both a Public Accounts and an Extended National Accounts basis;

SECTION 2: audited financial statements of the Government of Canada, prepared in accordance with Section 55 of the Financial Administration Act;

SECTION 3: observations by the Auditor General on the financial statements;

SECTION 4: review of envelopes and outlays, and Estimates and appropriations;

SECTION 5: review of budgetary revenue;

SECTION 6: review of budgetary expenditure;

SECTION 7: analysis of loans, investments and advances;

SECTION 8: analysis of specified purpose accounts;

SECTION 9: analysis of other liabilities;

SECTION 10: analysis of foreign exchange accounts;

SECTION 11: analysis of unmatured debt;

SECTION 12: analysis of other accounts reported on the Statement of Assets and Liabilities;

SECTION 13: supplementary information required by the Financial Administration Act; and,

SECTION 14: other miscellaneous information.

Volume II

Volume II presents the financial operations of the Government, segregated by department. It contains financial operations of individual departments and their associated agencies, and additional information and analysis.

(a) DEPARTMENTAL FINANCIAL OPERATIONS

In a fashion similar to the Estimates, Volume II uses a uniform set of statements to present each department's financial operations. In most respects, the level of detail is the same as in the Estimates, and provides the following information:

(i) Use of Appropriations

This is the principal departmental statement. It is a summary of the use of the authority given by Parliament in appropriation acts and other statutes. It displays, by program:

—the wording of the relevant appropriations or statutes;

—the amount authorized under each appropriation or statute;

—the total use made during the year of the authorized amounts;

—unexpended balances (amounts lapsed and carried forward) or amounts overexpended; and,

—total use for the previous year.

(ii) Total Cost of Programs—Budgetary

This table shows the total calculated cost for each program, by adding to budgetary expenditure, the values of services provided by other departments, and of accommodation provided by the reporting department and by the Department of Public Works, and by deducting non-tax receipts credited to revenue.

The total calculated program cost is also reflected in the Estimates and in the Public Accounts in the "Programs by Activity" table.

(iii) Programs by Activity—Budgetary

This is a comparison of budgetary appropriations with actual expenditures and the imputed costs and revenues referred to in (ii). The table displays total program expenditures by activity and type of vote, and total cost of programs by type of vote. It is related to the "Program by Activities" table displayed in the Estimates.

(iv) Grants and Contributions

This table displays details of amounts appropriated for grants and contributions, by class of recipients and by program, and the payments.

(v) Budgetary Expenditure by Program and Standard Object

This table presents expenditure by standard object and relates to the "Objects of Expenditure" table shown in the Estimates.

(vi) Revenue

Each department displays summary and detailed statements of revenue collected as part of its operations.

(vii) Revolving Funds

The commercial orientation of a revolving fund is reflected in the balance sheet and statement of operations, or income and expenditure, presented each year. A revolving fund's minimum goal is the recovery of cost, and most commercial accounting conventions are used to measure cost.

(viii) Other Organizations

To further the objectives of the Government and of departments, various boards, agencies, commissions and accounts have been created by appropriation acts and other legislation. Financial statements for these organizations and accounts are also shown.

(b) ADDITIONAL INFORMATION AND ANALYSIS

Further details are provided, in Volume II, to supplement the statements already presented. This supplementary information includes:

- —accounts receivable and deletions (Section 31);
- —professional and special services (Section 32);
- —construction and acquisition of land, buildings, machinery and equipment (Section 33);
- —payments of damage claims, ex gratia payments, Federal Court awards and nugatory payments (Section 34);
- —selected miscellaneous payments and federal-provincial shared-cost programs by province (Section 35);
- —grants and contributions (Section 36); and,
- —miscellaneous statements by department (Section 37).

Volume III

Volume III contains the financial statements of those Crown corporations which are permitted by legislation to keep their own accounts. These are Schedules C and D (agency and proprietary) corporations, as well as the Bank of Canada and The Canadian Wheat Board which, although not designated as Crown corporations, act as agents of Her Majesty. It also contains the financial statements of wholly-owned subsidiaries of Crown corporations whenever their accounts are not consolidated with those of the parent corporation. The activities of Schedule B (departmental) corporations are reported by the responsible departments in Volume II, either under departmental budgetary expenditure or in separate reports.

INTRODUCTION

In this section, the financial transactions of the Government of Canada are set out in summary form, with comparative figures for the previous four years. The financial transactions are first presented according to the accounting policies explained in Note 1 to the audited financial statements in Section 2 of this volume, and are referred to as the Public Accounts presentation; the second presentation is on the National Income and Expenditure Accounts basis, extended to encompass other financial transactions affecting the Consolidated Revenue Fund. This second form of presentation is referred to as the Extended National Accounts presentation.

This section is intended to provide an overview of the Government's financial operations, both on the Public Accounts basis and on the Extended National Accounts basis. The Public Accounts presentation reflects the accounting procedures and conventions which have been adopted in providing Parliament with an accounting of the source and use of financial resources. The National Accounts transactions section of the Extended National Accounts presentation is designed primarily to facilitate economic analysis of the federal Government sector on a basis consistent with that used in measuring income and expenditure flows in the economy. The remaining sections show the relation between the traditional budget balance on the National Accounts basis and the Government's overall financial requirements, debt transactions and cash position.

Public Accounts Presentation

The "Summary Statement of Transactions" table provides aggregate data on the major categories of transactions under four main headings: budgetary, non-budgetary, foreign exchange and unmatured debt. The resulting cash position at the end of each year is also shown.

The form of presentation is consistent with the tables presented in the Budget Speech, the presentation in the Department of Finance's Economic Review and the Statement of Financial Operations published each month in the Canada Gazette, and is compatible with other sections of the Public Accounts.

For purposes of comparability, budgetary revenue and expenditure in this section treat Canada Post as a Crown corporation for all years. This new corporation was proclaimed on October 16, 1981.

It should be noted that figures for budgetary and non-budgetary items in the Public Accounts presentation of this section, for 1978-79 to 1980-81, have not been adjusted to take account of some minor changes in departmental responsibilities and classification of accounts which may have occurred. Most components are comparable from one year to the next; however, the statements have been adjusted to reflect only those changes which have a significant impact on year-to-year comparisons. Contracting-out payments, which were formerly part of fiscal transfers in the Department of Finance, have been recorded as part of the Canada Assistance Plan throughout the period in line with current practice; similarly, payments related to guaranteed loans have been recorded as part of education support over the entire period.

Non-budgetary transactions have been redefined to include subscriptions and notes payable to international organizations other than the International Monetary Fund. These transactions had previously been recorded as foreign exchange transactions.

Extended National Accounts Presentation

The presentation of the Government's financial transactions on an Extended National Accounts basis in the Public Accounts was first introduced for the year ended March 31, 1977. As in the Public Accounts presentation, the transactions are categorized under four main headings: the traditional National Income and Expenditure Accounts which are referred to herein as National Accounts transactions, loans and other transactions, foreign exchange and unmatured debt transactions. The resulting cash position at the end of each year is also shown. It may be noted that starting with the line entitled "Financial requirements (excluding foreign exchange)", the Extended National Accounts presentation is identical to the Public Accounts presentation.

The total for loans and other transactions will differ from the non-budgetary transactions in the Public Accounts presentation due, in part, to differences in coverage. Loans to certain agencies such as Atomic Energy of Canada Limited, as well as advances to certain special funds, are excluded in arriving at the total of loans and other transactions on the Extended National Accounts presentation, as transactions of these agencies and special funds are included in the National Accounts transactions. Similarly, the receipts and disbursements of Government pension and social security accounts, such as the Unemployment Insurance Account, are included in the National Accounts. As a result, they are not included in the loans and other transactions adjustment. In determining the surplus or deficit on a National Accounts basis, certain revenue items, such as corporate income tax, are reflected on an accrual, as opposed to a cash basis. The loans and other transactions category includes the adjusting entry required to convert from the accrual basis of revenue and expenditure to a cash basis.

SUMMARY STATEMENT OF TRANSACTIONS—PUBLIC ACCOUNTS PRESENTATION

Total financial requirements, excluding foreign exchange transactions, amounted to $23,256 million for the year ended March 31, 1983. The budgetary deficit of $24,653 million was partially offset by a source of $1,397 million for non-budgetary transactions. Foreign exchange transactions increased requirements $1,177 million. Total financial requirements were $24,433 million in 1982-83. These transactions, together with the $22,392 million increase in unmatured debt, resulted in a $2,041 million decrease in the cash balance bringing the March 31, 1983 cash balance to $4,579 million.

The audited financial statements, presented in Section 2 of this volume, reflect the change in the level of the provision for the valuation of assets in the particular years in which the provision was adjusted. The adjustment of the provision does not affect financial requirements since it is internal to the Government.

In order to provide an historical series on a consistent accounting basis, the provision for the valuation of assets has been reallocated to the years to which the provision applied. Table 1.1.2 presents the financial transactions on a reallocated basis as described below. With respect to the Government's share of unemployment insurance costs, the net requirements of revolving funds, the undisbursed balances of appropriations to special accounts and the unamortized portion of bond flotation costs, the amounts have been recorded as expenditures of the departments to which they relate in the year the provision applied. That portion of the general provision which relates to loans, investments and advances has also been reallocated to the years to which it applies, but has not been identified with any particular department. The allocation of this provision by fiscal years is shown in Table 1.3. Table 1.1.2 differs from Table 1.1.1 as no reallocation has been made in Table 1.1.1 of the provision for valuation to earlier years.

I. Budgetary Transactions

A. Revenue

Total budgetary revenue increased $1,055 million or 2% to a level of $55,123 million in 1982-83. Tax revenue was up $1,352 million and was partly offset by a $297 million decrease in non-tax revenue. With respect to tax revenue, increases were recorded in personal income tax, the petroleum and gas revenue tax and incremental oil revenue tax, the natural gas and gas liquids tax, the excise taxes and duties other than sales tax and customs import duties and the taxes on insurance companies. The slow growth in these taxes—except for the petroleum and gas revenue tax and incremental oil revenue tax, and the natural gas and gas liquids tax—and the declines in other tax revenue reflect the recession that prevailed during the year.

Personal income tax revenue increased $2,284 million or 9.5% compared to 21.2% in 1981-82. The growth in 1982-83 revenue was curtailed by the slow growth in 1982 wages, salaries and supplementary labour income at about 7.4% compared to 15.4% in 1981. In addition, the 1982 indexation factor of 12.2% reduced revenue collections, and 1982 child tax credit payments were well above the 1981 level.

Corporate income tax collections were $7,139 million in 1982-83 or $979 million below the 1981-82 level of $8,118 million. This reflects an estimated drop of 36.1% in 1982 corporate profits.

On the energy side, however, 1982-83 revenue collections were higher, at $4,024 million compared to $3,290 million in 1981-82.

Revenues from sales tax and customs import duties were down 4.7% and 17.7% respectively from the 1981-82 levels, due to the effects of the recession.

Non-tax revenue declined to $5,816 million in 1982-83 by $297 million, partially reflecting a return to lower interest rates from the high levels experienced in 1981-82. In addition, 1981-82 non-tax revenue included a special entry of $300 million to reflect the transfer of uranium stockpiles to Eldorado Nuclear Limited.

B. Expenditure

Budgetary expenditure in 1982-83 increased 17.9% to $79,776 million, compared to increases of 16.5% in 1981-82 and 15.2% in 1980-81.

Payments of $1,809 million under the Petroleum Incentives Program partially reflect the payment of 1981-82 liabilities in 1982-83, as the legislation enabling the payments to be made did not receive Parliamentary approval until after the start of the fiscal year 1982-83.

Public debt charges rose $1,803 million, or 11.9%, to $16,971 million in 1982-83 reflecting a larger increase in unmatured debt outstanding during the year. Interest rates, however, were lower than in 1981-82 and this resulted in a decline in the growth rate of the public debt charges from 41.9% in 1981-82.

The government's contribution to the Unemployment Insurance Account increased 105.2%, or $1,101 million to $2,148 million due to the high level of unemployment during the 1982 economic recession.

Old age security payments, including guaranteed income supplements and spouses' allowances, rose in 1982-83 to $9,643 million or 12.3% above the level in 1981-82 of $8,585 million. This accounts for 8.7% of the increase in total expenditure.

National Defence expenditures rose $964 million, or 16%, to $6,992 million in 1982-83. This reflects the government's North Atlantic Treaty Organization (NATO) commitment to increase defence expenditures by 3% in real terms per annum.

Fiscal transfers to other levels of government increased 18.6% to $5,378 million in 1982-83 compared to the increase of 19.7% in 1981-82 over 1980-81. A special population recovery payment of $226 million was made to certain provinces authorized by Part II of "An Act to amend the Federal-Provincial Fiscal Arrangements and Established Programs Financing Act, 1977 and to provide for payments to certain provinces". The payments were made to provinces which qualified for equalization in the 1982-83 fiscal year and which, otherwise, would have been subject to recoveries under the equalization program for the 1980-81 and 1981-82 fiscal years, as a result of the June 1981 census of population. The public utilities income tax transfer increased $53 million to $142 million.

Other departments and programs where notable increases occurred over 1981-82 were: Transport, $616 million or 26.9%; Canada Assistance Plan, including contracting-out payments, $534 million or 23.2%; Public Works, $477 million or 21.8%; Industry, Trade and Commerce, $395 million or 48.6%; and, Communications, excluding the Canadian Broadcasting Corporation, $362 million or 77.2%.

A notable decrease in budgetary expenditure occurred in the Canada Post Corporation operating deficit payment which dropped $382 million or 56.8% in 1982-83 to $290 million from $672 million in 1981-82. Expenditures reported under Energy, Mines and Resources for the petroleum compensation payments are reported net of compensation charges. In 1982-83, these payments decreased $461 million or 108.2%, to provide a net revenue of $35 million. Contributions to the provinces for hospital insurance, medical care, and extended health care services decreased 5.2% from 1981-82 to $4,060 million. This decrease occurred because of the elimination of the compensation in lieu of the previous revenue guarantee under the Established Programs Financing arrangements and recoveries in respect of prior years. In addition, expenditures made by the Department of Regional Economic Expansion fell $116 million, or 17.5%, to $545 million in 1982-83, partly as the result of a reorganization which has shifted the responsibility of the subsidiary agreements to other departments.

II. Non-budgetary Transactions

A. Loans, Investments and Advances

In 1982-83, requirements for loans, investments and advances were $21 million or $1,218 million below the 1981-82 level.

Loans, investments and advances to Crown corporations and agencies—Lending institutions declined $311 million. This reflects a 1982-83 net repayment of $60 million by the Canada Deposit Insurance Corporation compared to a $200 million requirement in 1981-82. Requirements for Canada Mortgage and Housing Corporation were $169 million lower in 1982-83, but there were higher requirements for the Export Development Corporation and the Farm Credit Corporation.

Loans, investments and advances to other Crown corporations and agencies rose $308 million in 1982-83 reflecting principally a $328 million additional requirement for Petro-Canada. With respect to loans, investments and advances other than to Crown corporations and agencies, requirements for international organizations were $47 million higher in 1982-83 and loans, investments and advances to provincial and territorial governments were $69 million above the 1981-82 level.

B. Specified Purpose Accounts

The requirement for the specified purpose accounts was $220 million in 1982-83, as compared to a source of $4,345 million in 1981-82. The shift of $4,565 million reflects a $3,289 million requirement in 1982-83 from the Unemployment Insurance Account compared to a 1981-82 requirement of only $15 million. Benefit payments in 1982-83 were $9,677 million compared with $5,318 million in 1981-82. The increase of $4,359 million in benefit payments was only partly covered by increases of $152 million in employer-employee contributions and $1,101 million in the government contribution. There were also substantial movements in the deposit and trust accounts which fell from a source of $1,129 million in 1981-82 to a requirement of $223 million for a swing of $1,352 million. This reflects the payments from the oil export charges sharing account which reduced the balance in the account by $445 million and the Canada Deposit Insurance Corporation account ($200 million); as equivalent amounts were deposited in the accounts in 1981-82, these two items alone account for a swing of $1,290 million between 1981-82 and 1982-83. In addition, there was an increase of $469 million in net superannuation account receipts, from $3,014 million in 1981-82 to $3,483 million in 1982-83.

C. Other Transactions

Other transactions provided a net source of $1,638 million in 1982-83 compared to $2,169 million in 1981-82. The decline of $531 million is mainly attributable to a $318 million reduced source of funds from interest and matured debt and additional requirements of $381 million in cash in transit and accounts payable, partly offset by a $179 million additional source from outstanding cheques and warrants.

III. Foreign Exchange Transactions

Foreign exchange transactions include the operations of the Exchange Fund Account, the objective of which is to assist in maintaining orderly conditions in the exchange markets and to effect payments by various departments for the purchase of goods and services. Also included in foreign exchange transactions are subscriptions and notes payable to the International Monetary Fund, together with Special Drawing Rights. Total foreign exchange transactions produced a requirement for Canadian dollars of $1,177 million in 1982-83 compared to $347 million in 1981-82.

IV. Unmatured Debt Transactions

Marketable bonds payable in Canadian currency increased in 1982-83 by $4,875 million and Canada savings bonds by $7,663 million; net sales of Treasury bills amounted to $9,750 million. In total, net unmatured debt payable in Canadian currency increased by $22,392 million in 1982-83 compared to an increase of $9,367 million in 1981-82.

V. Cash Balance at End of Year

Financial requirements, including foreign exchange transactions, amounted to $24,433 million. This was partly offset by an increase of $22,392 million in unmatured debt transactions. The excess of the increase in financial requirements over unmatured debt resulted in a decrease in the cash balance at March 31, 1983 to $4,579 million, or $2,041 million below the March 31, 1982 level of $6,620 million.

SUMMARY STATEMENT OF TRANSACTIONS—EXTENDED NATIONAL ACCOUNTS PRESENTATION

The National Income and Expenditure Accounts were developed as a basis for economic analysis of income and expenditure flows in the economy. The concepts and definitions applied to the Government sector are consistent with those applied to other sectors and follow international practices developed under the aegis of the United Nations. The economic nature of a transaction is the determining factor in its classification within the National Accounts framework. The Extended National Accounts present, in addition to the traditional National Accounts revenue, expenditure and balance shown here under the heading "National Accounts transactions", the items which account for the difference between the National Accounts budget balance and total financial requirements on a Public Accounts basis.

In 1982-83, National Accounts transactions resulted in a deficit of $22,786 million. Loans and other transactions represented a net requirement of $470 million. Foreign exchange transactions increased requirements $1,177 million and unmatured debt transactions provided a source of $22,392 million. As previously noted, foreign exchange and unmatured debt transactions are identical to those reported in the Public Accounts presentation.

I. National Accounts Transactions

A. Revenue

On a National Accounts basis, total revenue increased $325 million or 0.5% in 1982-83. This compares with an increase of $1,055 million or 2% on a Public Accounts basis. The difference in growth rates relates to conceptual differences in treatment between the National Accounts and the Public Accounts.

These conceptual differences are mainly as follows:

(*a*) There are differences in the treatment of energy taxes. In the National Accounts, the petroleum compensation charge and the Canadian Ownership charge collections are included in revenue while these items are excluded from revenue in the Public Accounts. In 1982-83, these items amounted to $2,852 million and $880 million or respectively 34.1% below and 0.9% above the 1981-82 levels. Recording of the petroleum compensation charge revenue is on an accrual basis in the National Accounts.

(*b*) Direct taxes on persons in the National Accounts also include employer-employee contributions to unemployment insurance and government pension funds. These items, which are excluded from Public Accounts budgetary revenue, amounted to $6,612 million in 1982-83; this was 1.6% above the 1981-82 level of $6,511 million.

(*c*) Investment income on a National Accounts basis does not include profits from gold sales, which are included in the Public Accounts. However, in addition to other "return on investments" categories of the Public Accounts, the National Accounts investment income includes interest on superannuation accounts and imputed banking services and is reduced by the amount of deficits of government business enterprises. Interest on superannuation accounts, imputed banking services and government business enterprise deficits amounted to $2,881 million, $75 million and $1,116 million in 1982-83, compared to $2,343 million, $79 million and $1,441 million in 1981-82. For these three categories together, the growth was $209 million in 1982-83 or 5.4%.

(*d*) In the National Accounts, corporate revenue is recorded on a liability basis rather than on the Public Accounts collection basis. In 1982-83, corporate liabilities fell $726 million or 8.3% compared to a decline of $979 million or 12.1% for collections on a Public Accounts basis.

(*e*) In addition, the National Accounts include capital consumption allowances which are excluded from the Public Accounts. In 1982-83, capital consumption allowances amounted to $1,080 million or 13.8% above the 1981-82 level of $949 million.

With respect to the broad categories, direct taxes from persons on a National Accounts basis increased in 1982-83 by $2,654 million or 8.7%. As already indicated, corporate liabilities were down $726 million or 8.3%. Indirect taxes were down $2,582 million or 13.4% reflecting the decline in petroleum compensation revenue. Investment income rose $886 million or 15.4%, reflecting higher interest earned on public-held funds.

B. Expenditure

Federal government expenditure on a National Accounts basis was $89,499 million in 1982-83, an increase of $13,737 million or 18.1% over 1981-82. This compares with growth rates of 20.4% in 1981-82 and 15.2% in 1980-81.

Transfer payments to persons increased $6,361 million or 32.2% and accounted for 46.3% of the total federal expenditure increase in 1982-83. This compares with rates of increase of 15.6% and 14.6% for 1981-82 and 1980-81 respectively. The largest increase in this category occurred in unemployment insurance benefits which grew $4,345 million or 81.6% in 1982-83 reflecting the unemployment situation in that year. In addition, old age security benefits grew $1,044 million, or 12.3% to $9,545 million in 1982-83. Family and youth allowances increased $211 million, or 10.5% in 1982-83. Following increases of 18% in 1980-81 and 13.7% in 1981-82, government pensions for 1982-83 increased 13.5% to $1,470 million. Other transfers to persons increased $586 million, or 22.2% to $3,221 million.

Capital assistance increased $2,253 million or 258.7% and accounts for 16.4% of the total increase in budgetary expenditure. This high growth was due to large Petroleum Incentives Program payments which were paid retroactively for 1981-82 as well as for 1982-83 after the enabling legislation had received Parliamentary approval during the 1982-83 fiscal year.

Total current goods and services grew 11.3% to $18,995 million. This component accounts for 14% of the total increase in expenditure. The increases were 18.1% in 1981-82 and 11.9% in 1980-81. Defence goods and services expenditures increased $1,215 million, or 20.9%, in 1982-83, while non-defence goods and services expenditures increased $712 million, or 6.3%, to a level of $11,960 million. Wages, salaries and supplementary labour income increased $1,138 million, or 13.3%, to $9,666 million while military pay and allowances increased $256 million, or 13%, to $2,228 million in 1982-83. Other current goods and services increased $402 million, or 7.2%, to $6,021 million in 1982-83 compared to a growth rate of 15.2% in 1981-82.

Interest on the public debt rose $1,911 million or 12.9% in 1982-83 reflecting high interest rates at the beginning of that year in conjunction with an increase in outstanding debt. This increase in public debt interest compares to increases of 40.9% in 1981-82 and 26% in 1980-81. Interest on the public debt accounted for 13.9% of the total increase in expenditure in 1982-83.

Transfer payments to other levels of government increased to $16,123 million, or 10.9% in 1982-83 compared with growth rates of 12.9% in 1981-82 and 5.9% in 1980-81. While federal contributions to the provinces for hospital insurance, medical care and post-secondary education decreased 7.9% in 1982-83 to $4,780 million, payments under the taxation agreements increased $830 million, or 18.5%, to $5,323 million. Payments under the Canada Assistance Plan including contracting-out payments rose $632 million, or 28%, to $2,890 million in 1982-83.

Both gross capital formation and current transfers to non-residents increased $126 million in 1982-83, by 9.4%, to $1,463 million and 13.4% to $1,068 million respectively. Subsidies decreased $551 million, or 8.6% to $5,823 million compared to increases of 11.9% in 1981-82 and 46.3% in 1980-81. This is explained by the substantial decline of $2,033 million in 1982-83 oil import compensation payments to $1,425 million, that offset the $755 million increase in synthetic oil subsidies of 98.2% to $1,524 million.

II. Loans and Other Transactions

A. Loans, Investments and Advances

Loans, investments and advances, on an Extended National Accounts basis, provided a source of $151 million in 1982-83 or a swing of $1,329 million from the 1981-82 requirement of $1,178 million. As with the Public Accounts, the decline in loans, investments and advances reflects the substantial increase in 1982-83 in the allowance for valuation. Loans, investments and advances to lending institutions were $219 million in 1982-83 compared to $578 million in 1981-82.

B. Accrual Accounts

This category reflects mainly the difference between the cash recording on the Public Accounts basis and the accrual recording of the National Accounts. The category also records several items such as cash in transit, accounts payable and accrued interest; these items are generally of a capital nature and are not included in the National Accounts revenue and expenditure categories. These accrual accounts amounted to $79 million in 1982-83 compared to $1,105 million in 1981-82.

C. Other Transactions

Other transactions amounted to a requirement of $700 million in 1982-83 compared to a source of $1,116 million in 1981-82. This category includes the provincial tax collection agreements account and other deposit and trust accounts that are not included in the National Accounts revenue and expenditure categories.

PREFACE TO THE AUDITED FINANCIAL STATEMENTS OF THE GOVERNMENT OF CANADA

The accounting policies adopted by the Government and summarized in Note 1 to the financial statements, are the result of continuing developments over the years, and form the basis for the preparation of the financial statements, designed primarily to provide an accounting of the financial resources appropriated by Parliament. The fundamental requirement to report compliance with legislative authority results in the presentation of financial information in a manner significantly different from that found in the private sector. The accrual basis of accounting used in the private sector best reflects the costs incurred to earn revenues; the policies followed by the Government, under which revenue is on the cash basis and expenditure (use of appropriations) is generally on the accrual basis, best accommodate reporting to Parliament.

The four financial statements in this section, together with the accompanying notes, are presented for audit in compliance with Section 55 of the Financial Administration Act. These statements form the basis of the Government's accounting for the management of the financial authorities granted by Parliament. Other sections in this volume, together with Volumes II and III of the Public Accounts, are designed to provide information supporting the financial statements.

The first financial statement is the Statement of Transactions, which summarizes all transactions of the Government, as defined in Note 1 (ii), and shows how the financial requirements were met, and the effect of all transactions on the cash balance. The financial transactions are classified into four main categories: budgetary, non-budgetary, foreign exchange, and unmatured debt.

The first category, budgetary transactions, consists of all the transactions which enter into the calculation of the annual deficit or surplus of the Government, that is the receipts from tax and non-tax revenue together with the expenditures authorized by Parliament. Revenue is recognized only when received and does not include amounts due but not collected. Budgetary expenditure, however, is recorded generally on the accrual basis. Expenditure includes charges for work performed, goods received, services rendered, transfer payments made, amortization of the actuarial deficiencies of the three main superannuation accounts, a provision for estimated losses on realization of recorded assets, and accruals for interest on unmatured debt. Fixed assets, which include land, buildings, works and equipment, are not capitalized but are charged to budgetary expenditure at the time of acquisition or construction. Budgetary expenditure does not include amounts payable or accrued at the year end, for items to be paid from statutory authorities on which Parliament has not imposed annual ceilings, employee termination benefits, unpaid annual vacation entitlements, and the indexing of pensions.

The second category, non-budgetary transactions, consists of loans, investments and advances made by the Government, the Government's liability to outside parties from its role of administrator of certain public moneys received or collected for special purposes, and other liabilities recorded as a result of the budgetary accruals mentioned above. These transactions account for the change in the financial claims due to or financial obligations owing by the Government, in accordance with the accounting policies referred to in Note 1 to the financial statements.

The third category, foreign exchange transactions, reflects transactions with the Exchange Fund Account, the principal objective of which is to aid in the control and protection of the external value of the Canadian dollar, together with an accounting of the net position of the Government with respect to the International Monetary Fund. Foreign exchange transactions also include unmatured debt payable in foreign currencies.

The fourth category, unmatured debt transactions, represents the extent to which financial requirements have been met through the increase in unmatured debt, that is the net changes in the amounts owing for such debt instruments as marketable bonds, Canada savings bonds and Treasury bills. Unmatured debt transactions exclude unmatured debt payable in foreign currencies.

The second statement is the Statement of Revenue and Expenditure. This statement gives a more detailed accounting of the budgetary transactions summarized in the Statement of Transactions. The annual deficit or surplus represents the difference between the expenditures and the revenues of the year, in accordance with the accounting policies previously summarized.

The third statement is the Statement of Assets and Liabilities. Since this statement is based on the Government's accounting policies, it does not parallel the conventional balance sheet presented in the private sector. More particularly, fixed assets having been accounted for as expenditures, are recorded at the nominal value of $1, and revenues not yet received, such as uncollected taxes, are not recorded as assets. The effect of inflation on the economic value of the Government's reported assets and liabilities has not been reflected. It is generally recognized that inflation tends to reduce the value of financial assets and liabilities while at the same time increasing the recorded value of fixed assets. Thus it should be noted that the difference between the net recorded assets and liabilities is simply the aggregate of annual budgetary deficits and surpluses determined in accordance with the accounting policies of the Government; in no way does this difference reflect the Government's net worth.

The fourth statement is the Statement of Use of Appropriations, which summarizes, by department, the use, during the year, of parliamentary appropriations for budgetary expenditure, and loans, investments and advances.

These four financial statements, when read in conjunction with the notes thereto, present fairly, in the opinion of the Government, the revenue, expenditure, assets and liabilities of the Government of Canada. Fair presentation is achieved through the consistent application of the significant accounting policies, which are summarized in Note 1 to the financial statements.

Notes to the Financial Statements of the Government of Canada

1. Significant Accounting Policies

The accounting policies of the Government of Canada are based on concepts embodied in the Constitution Acts (formerly the British North America Acts), and in the Financial Administration Act and other legislation.

i. *Basic concepts*

The two basic concepts on which the Government's accounting system is based are found in the Constitution Acts (formerly the British North America Acts): first, the concept of the Consolidated Revenue Fund, which emanates from the requirement that all duties and revenues received, other than those reserved to the provinces, "shall form One Consolidated Revenue Fund"; second, the concept that the balance of the Fund, after certain prior charges, "shall be appropriated by the Parliament of Canada".

Parliament provides authority to make payments out of the Consolidated Revenue Fund in annual appropriation acts and other statutes (referred to as statutory appropriations). Spending authority granted in appropriation acts is for stated purposes and maximum amounts. Unless provided for in vote wording, unused spending authority granted in appropriation acts lapses at the end of the year for which granted. Spending authority provided by statutory appropriations is for specified purposes and for such amounts and such time as the acts prescribe. Spending authority provided by statutory appropriations generally does not lapse at the end of the year in which granted.

ii. *Government of Canada as an accounting entity*

For purposes of maintaining the accounts of Canada and preparing the Public Accounts as required by the Financial Administration Act, the Government of Canada is defined as all the departments named in Schedule A of the Act; any division or branch of the Public Service, including a commission appointed under the Inquiries Act, designated by the Governor in Council as a department for purposes of the Financial Administration Act; the staffs of the Senate, the House of Commons, and the Library of Parliament; and, any corporation named in Schedule B of the Financial Administration Act.

In accordance with the above definition, the corporations named in Schedules C and D of the Financial Administration Act are excluded from the Government of Canada as an accounting entity; therefore, their financial statements are not consolidated with those of the Government. The financial statements of these Crown corporations are presented in Volume III of the Public Accounts.

In addition, certain accounts and funds have financial statements which are not combined with those of the Government, but appear separately in Volumes I and II. These accounts and funds include the Exchange Fund Account, the Canada Pension Plan Account, the Unemployment Insurance Account and other similar accounts.

iii. *Classification of financial transactions*

The financial transactions of the Government as recorded in the accounts of Canada and reflected in the Public Accounts are classified into budgetary, non-budgetary, foreign exchange and unmatured debt transactions.

In general terms, budgetary transactions enter into the calculation of the annual deficit or surplus and are disclosed on the Government's Statement of Revenue and Expenditure. All other transactions lead to the acquisition or disposal of financial claims or to the creation or discharge of financial obligations, and are disclosed on a net basis on the Statement of Assets and Liabilities.

For purposes of accounting and reporting, the Public Accounts uses the classification in force at the end of the year to which the report refers, and presents figures for the previous year adjusted where necessary to provide consistency.

iv. *Budgetary revenue*

Budgetary revenue consists of all tax and non-tax receipts which affect the deficit or surplus of the Government, and includes revenue internal to the Government.

The Government generally reports revenue in the year in which it is received, with refunds of revenue allocated to the year in which they are actually paid.

Revenue is reported after deducting refunds paid, and excludes amounts receivable, taxes collected on behalf of provinces and territories, and amounts credited to the Canada Pension Plan, the Unemployment Insurance Account, the superannuation accounts, other specified purpose accounts and other liability accounts.

In the Statement of Revenue and Expenditure, revenue is reported both gross and net. The difference between the two is revenue credited to appropriations.

v. *Budgetary expenditure*

Budgetary expenditure consists of all charges to budgetary appropriations which affect the deficit or surplus of the Government. Such charges include those for work performed, goods received, services rendered, and transfer payments made, during the year, and, expenditure internal to the Government.

Expenditure excludes amounts charged to the Canada Pension Plan, the superannuation accounts, the Unemployment Insurance Account except for benefits to fishermen, other specified purpose accounts and other liability accounts.

In the Statement of Revenue and Expenditure, expenditure is reported both gross and net. The difference between the two is revenue credited to appropriations.

000037

vi. *Assets*

Assets are defined as the financial claims acquired by the Government of Canada on outside organizations and individuals as a result of events and transactions prior to the accounting date.

However, as a result of the Government's accounting policies described above, and in accordance with the provisions of the Financial Administration Act and other legislation, certain financial claims are not reported on the Statement of Assets and Liabilities. The most important of these are accounts receivable for tax and non-tax revenue.

vii. *Liabilities*

Liabilities are defined as financial obligations to outside organizations and individuals as a result of events and transactions prior to the accounting date.

However, as a result of the Government's accounting policies described above, and in accordance with the provisions of the Financial Administration Act and other legislation, certain financial obligations are not reported on the Statement of Assets and Liabilities. These include amounts for: items to be paid from statutory authorities on which Parliament has not imposed annual ceilings; unused annual vacation and benefits payable upon termination of employment; and, actuarial liabilities arising from the indexing to the cost of living of superannuate pensions and annuities.

viii. *Fixed assets*

The fixed assets of the Government, which include land, buildings, works and equipment, are charged to budgetary expenditure at the time of acquisition or construction. Their existence, however, is acknowledged on the Statement of Assets and Liabilities by reporting them at the nominal value of $1.

ix. *Accumulated deficit*

The accumulated deficit consists of the annual deficits and surpluses since Confederation, together with the write-off of certain amounts charged directly to this account.

x. *Valuation of assets and liabilities*

ASSETS

Assets are recorded at cost and are subject to annual valuation to reflect reductions from the recorded value to the estimated realizable value.

LIABILITIES

Liabilities are recorded in the amounts ultimately payable except for liabilities for the superannuation accounts of the Canadian Forces, the Public Service and the Royal Canadian Mounted Police, and the Government Annuities Account, which are valued on the actuarial basis.

The Canada Pension Plan Account and the Supplementary Retirement Benefits Account are not maintained on the actuarial basis. The Canada Pension Plan Act limits payments from the Consolidated Revenue Fund to the balance in the Canada Pension Plan Account.

xi. *Translation of foreign currency transactions*

Foreign currency transactions are translated and recorded in Canadian currency equivalents at the exchange rates prevailing at the transaction dates.

Assets and liabilities resulting from foreign currency transactions are, in turn, reported at year-end closing rates of exchange; net gains are credited to revenue, while net losses are charged to expenditure.

2. Change in Financial Statement Presentation

A new category, Energy taxes, has been included under Tax revenue—Excise taxes and duties in the Statement of Revenue and Expenditure. This new category presents amounts received by the Government under the authority of all acts and regulations pertaining to the administration of the energy program.

3. Contingent Liabilities of the Government of Canada

A contingent liability is a potential liability which may become an actual liability when one or more future events occur or fail to occur. The contingent liabilities of the Government consist of explicit guarantees by the Government, and potential losses arising from pending and threatened litigation relating to claims and assessments in respect of breach of contract, damages to persons and property, and like items.

The contingent liabilities of the Government as at March 31, 1983 amounted to $6,894 million and are summarized in the following table:

	(in millions of dollars)	
	1983	1982
i) Explicit guarantees by the Government:		
Obligations of entities that are not agents—		
Borrowings by Crown corporations	170	178
Borrowings by other than Crown corporations	1,744	1,457
Insurance programs of the Government	535	332
Other explicit guarantees	2,129	1,789
ii) Pending and threatened litigation	2,316	2,136
	6,894	5,892

Details can be found in Section 12 of this volume.

4. Financial Information Regarding Agent Crown Corporations

All assets and liabilities of agent Crown corporations are assets and liabilities of the Government, because of the agency relationship. However, in accordance with the accounting policies of the Government, the accounts of agent Crown corporations are not consolidated with those of the Government, and only the financial transactions between the Government and agent Crown corporations, are recorded in the accounts of Canada.

Although borrowings by agent Crown corporations from lenders other than the Government are considered direct liabilities of the Government, such borrowings are not included in the accounts of Canada since they are intended to be, and in practice are, repaid directly by the corporations.

000038

The following table summarizes financial information regarding agent Crown corporations as at March 31, 1983. For corporations with financial year ends other than March 31, unaudited financial information is included in this table.

	(in millions of dollars)

TOTAL EQUITY	24,399	23,402
Contingent liabilities	768	384

Details can be found in Section 7 of this volume.

5. Insurance Programs

Certain agent Crown corporations operate insurance programs. In the event that such corporations did not have sufficient funds to meet their obligations, the Government would provide the required financing through appropriations, either budgetary or non-budgetary.

The following table summarizes information regarding such insurance programs. The information has not been audited since the corporations have financial year ends other than March 31, 1983.

	(in millions of dollars)			
Programs	Insurance in force	Net claims*	5 year average of net claims	Amount of fund or provision

* Refers to the difference between claims and amounts received from sales of related assets and other recoveries.

(1) The Corporation's valuation of this fund as at March 31, 1983 disclosed an actuarial deficiency estimated at approximately $270 million. This valuation is based on assumed future trends.

(2) Less than $500,000.

6. International Development Assistance—Loans and Subscriptions

i. *Loans to developing countries*

Included in loans to National governments of $4,048 million ($3,775 million in 1982) are loans to developing countries in the amount of $2,698 million ($2,431 million in 1982). These loans are part of Canada's international development assistance program and are either interest-free or bear interest at rates that were more favourable than those prevailing in Canada at the time the assistance was provided. The balances outstanding at March 31, grouped by term, are:

Term	Grace period before repayment commences	Interest rate	(in millions of dollars) 1983	1982
20 years	5 years	5%	35	35
25 years	5 years	6%	1	1
30 years	7 years	3%	178	178
30 years	7 years	*	9	8
35 years	5 years	*	4	4
40 years	10 years	*	1	1
50 years	10 years	*	2,470	2,204
			2,698	2,431

* Interest-free.

During the year, loan interest and commitment/service charges of $4 million ($5 million in 1982) was received from developing countries. Details can be found in Sections 7 and 14 of this volume and in Section 8 of Volume II.

000039

ii. *Subscriptions and loans to international organizations*

Included in loans, investments and advances—International organizations of $2,917 million ($2,585 million in 1982) are subscriptions to the capital of the International Development Association and loans to other international financial institutions of $2,453 million ($2,175 million in 1982). These subscriptions and loans are also part of Canada's development assistance program. These institutions make loans to developing countries on terms similar to the loan assistance set out in sub-section i. Subscriptions to international organizations do not provide a return on investment. They are repayable on termination of the organization or on Canada's withdrawal therefrom. Details can be found in Sections 7 and 14 of this volume.

7. Transactions Internal to the Government

Total revenue and total expenditure include transactions which are internal to the Government. These amounts are as follows:

	(in millions of dollars)	
	1983	1982
Credited to appropriations	1,548	1,324
Credited to revenue	139	110
	1,687	1,434

000040

OPINION OF THE AUDITOR GENERAL ON THE FINANCIAL STATEMENTS OF THE GOVERNMENT OF CANADA

I have examined the following financial statements of the Government of Canada for the year ended March 31, 1983:

—Statement of Transactions;
—Statement of Revenue and Expenditure;
—Statement of Assets and Liabilities; and
—Statement of Use of Appropriations.

My examination was made in accordance with generally accepted auditing standards and included such inquiries, tests and other procedures as I considered necessary to enable me to report as required by Section 6 of the Auditor General Act.

In my opinion, except as described in Reservation 1, these financial statements present information in accordance with the stated accounting policies of the Government of Canada as set out in Note 1 to the financial statements on a basis consistent with that of the preceding year. However, in my opinion, because of Reservations 2, 3 and 4, these stated accounting policies are inappropriate for a fair presentation of the assets and liabilities and revenues and expenditures of the Government of Canada.

Reservation 1: Failure To Comply With Stated Accounting Policy

During the year, $674 million of oil export charges collected in the current and prior years ($229 million and $445 million respectively) have been paid to certain oil-producing provinces. Amounts collected have been excluded from revenue and payments made have been excluded from expenditure, in contravention of the accounting policies stated in Notes 1(iv) and (v) to the financial statements. These stated policies provide that revenue shall consist of all tax and non-tax receipts, and expenditure shall consist of all charges to budgetary appropriations, which affect the deficit or surplus of the Government. As a consequence, revenue for the year from oil export charges is understated by $229 million ($445 million in 1982) and expenditure of the Department of Energy, Mines and Resources for the year is understated by $674 million. Although there is no effect on the accumulated deficit at year end, the deficit for the year is understated by $445 million (1982 deficit overstated by $445 million).

Reservation 2: Fragmented Reporting Of Government Activities

Although the financial statements are entitled "The Financial Statements of the Government of Canada", certain activities of government are excluded, as described in Note 1(ii). As a result, the financial statements do not provide a comprehensive and complete summary of the Government's assets, liabilities, revenues and expenditures. In my view, the accounting entity as defined in Note 1(ii) is inadequate in the following two respects.

(i) Significant departmental activities are reported in separate financial statements or accounts that are not combined in the Government's financial statements. These separate financial statements or accounts are presented in the other sections of Public Accounts Volume I indicated below.

- Unemployment Insurance Account (Section 8)
- Canadian Ownership Account (Section 8)
- Exchange Fund Account (Section 10)
- Canada Pension Plan Account (Section 8)
- other similar Accounts (Section 8)

The reporting of transactions in the Unemployment Insurance Account (UIA) and the Canadian Ownership Account (COA) illustrates my concern.

For the UIA, accumulated benefits paid and administrative expenditures are reduced by accumulated revenues from employee and employer contributions and the Government's share of benefits paid; and the resulting amount is reported as a reduction of liabilities. In my view, transactions of the UIA should be consolidated in the Government's financial statements, with employee and employer contributions included in reported revenues, and benefits and administrative expenditures included in reported expenditures. If UIA transactions were reported in this manner, liabilities and accumulated deficit would be increased by $3,642 million ($353 million in 1982), revenues increased by $5,039 million ($4,887 million in 1982), and expenditures increased by $8,328 million ($4,902 million in 1982). The deficit for the year would be increased by $3,289 million ($15 million in 1982).

For the COA, accumulated levies of $1,676 million received in respect of oil and gas charges, reduced by accumulated investments of $1,609 million in Petro-Canada, is reported as a liability. If the investments were reported as assets and the levies reported as revenue, as in my view they should be, assets would be increased by $1,609 million ($711 million in 1982), liabilities reduced by $67 million ($75 million in 1982), and accumulated deficit reduced by $1,676 million ($786 million in 1982). The deficit for the year would be reduced by $890 million ($786 million in 1982).

The effect of UIA and COA transactions on the financial statements is significant and readily quantifiable and, in my view, can be resolved with little further study. However, in the case of accounting for activities reported in the Exchange Fund and Canada Pension Plan Accounts, while the effects are significant and quantifiable, further study by the Government is required to determine how and to what extent these activities should be included in the Government's financial statements to best satisfy the information needs of users.

(ii) Investments in Crown-owned corporations and agencies at March 31, 1983 amounted to approximately $25 billion, or 57 per cent of the Government's recorded assets. The assets, liabilities, revenues and expenditures reported in the separate financial statements of these entities are not consolidated in the accompanying financial statements. Further study by the Government is required to determine to what extent the activities of such corporations and agencies should be consolidated, and for those not consolidated, what alternative presentation would be appropriate. Until this fundamental question is resolved, I am unable to determine the effect of this matter on the Government's financial statements.

Reservation 3: Assets Reported At Amounts In Excess Of Their Value

When the international development assistance loans and subscriptions identified in Note 6 to the financial statements are issued, they are recorded as assets at the full amounts advanced in accordance with Notes 1(vi) and (x). At the date of issue, the amounts advanced by Canada considerably exceed the asset value received by Canada because of the concessionary terms described in Note 6. In my view, any excess of amounts advanced over asset value received confers a benefit and constitutes expenditure in respect of international development assistance, which should be recorded and reported as such on the Statement of Revenue and Expenditure. I have estimated that if the loans and subscriptions described above were reported in this manner, reported assets would be decreased and accumulated deficit increased by approximately $4.4 billion ($3.9 billion in 1982). The deficit for the year would be increased by approximately $500 million ($500 million in 1982).

L30000 000042

Reservation 4: Unrecorded Liabilities

As stated in Note 1(vii), financial obligations are not recorded in respect of amounts payable under statutory authorities on which Parliament has not imposed annual ceilings, earned and unpaid annual vacation leave, employee termination benefits and actuarial liabilities arising from the indexing provisions of employee pension plans. In addition, no provision is recorded for obligations arising from losses suffered by Canadair Limited, The de Havilland Aircraft of Canada, Limited and other troubled companies whose debt is guaranteed by the Government. In my view, all these financial obligations should be appropriately recorded and reported in the financial statements to provide a more complete disclosure of liabilities. I have estimated that if these obligations were recorded, reported liabilities and accumulated deficit would be increased by at least $16.5 billion ($14.5 billion in 1982). The deficit for the year would be increased by at least $2.0 billion ($3.0 billion in 1982).

Additional information and comments on these reservations are included in my observations on the financial statements in Section 3 of this volume.

Observations by the Auditor General on the Financial Statements of the Government of Canada

Introduction

I have examined the financial statements of the Government of Canada for the year ended March 31, 1983, which together with my opinion, are included in Section 2 of this volume. These financial statements are the Statement of Transactions, the Statement of Revenue and Expenditure, the Statement of Assets and Liabilities, and the Statement of Use of Appropriations.

My examination was made in accordance with generally accepted auditing standards and included such inquiries, tests and other procedures as I considered necessary to enable me to report as required by Section 6 of the Auditor General Act. This section provides that:

> "The Auditor General shall examine the several financial statements required by section 55 of the Financial Administration Act to be included in the Public Accounts, and any other statement that the Minister of Finance may present for audit and shall express his opinion as to whether they present *fairly* information in accordance with stated accounting policies of the federal government and on a basis consistent with that of the preceding year together with any reservations he may have." (italics added)

The word *fairly* is used to express the auditor's judgement as to the appropriateness of the selection and application of accounting principles to the particular circumstances of an enterprise. Because of the significant and pervasive effect on the financial statements of the matters reported in my reservations concerning the appropriateness of three of the Government's stated accounting policies, I have concluded that:

> ". . . these stated accounting policies are inappropriate for a *fair* presentation of the assets and liabilities and revenues and expenditures of the Government of Canada." (italics added)

My opinion includes four reservations. They address the same issues reported last year. The first reservation concerns a failure by the Government to comply with its own stated accounting policies. The second, third and fourth reservations concern the appropriateness of the Government's stated accounting policies. Because of its significant deficit in 1983, I have used the Unemployment Insurance Account to further illustrate my concern with the fragmented reporting of government activities. Also, I have included in my estimate of unrecorded liabilities a provision for obligations arising from losses suffered by Canadair Limited, The de Havilland Aircraft of Canada, Limited, and other troubled companies whose debt is guaranteed by the Government.

The observations that follow provide additional explanatory information on these four reservations, and comment on the reporting of summary financial information.

Reservation 1: Failure to Comply with Stated Accounting Policy

In my opinion on the financial statements, I call attention to a $229 million understatement of oil export charge revenue ($445 million in 1982) and a related understatement of $674 million of expenditure of the Department of Energy, Mines and Resources.

I take exception to the accounting and reporting of oil export charge revenue and related expenditure because it results, in my view, in:

- an incomplete reporting of revenues received, which is contrary to the accounting policy requirement stated in Note 1(iv) that revenue shall consist of all tax and non-tax receipts which affect the deficit or surplus of the Government; and
- a method of accounting, contrary to the accounting policy stated in Note 1(v), whereby expenditures pursuant to a statutory appropriation granted by Parliament are effectively eliminated from reporting in the financial statements of the Government.

C10003

The oil export charge is a federal tax levied under federal legislation. There is no provision in this legislation to direct that any portion of amounts collected be held in trust for any other party, or be accounted for by Canada in any special way. Amounts collected are federal revenues.

From the inception of the oil export charge in 1975, and up to and including 1981, all amounts collected during a year were reported as tax revenues of that year in accordance with the accounting policy set out in Note 1(iv). However, commencing in 1982, a portion of amounts collected was excluded from tax revenues and shown as owing to certain oil-producing provinces. This was done to give effect to an undertaking by the Minister of Finance, in his October 1980 budget speech, to pay to certain oil-producing provinces 50 per cent of oil export charges collected in respect of oil exported from those provinces. This undertaking was subsequently confirmed by agreements between the Government and the provinces.

The required appropriation authority to pay over amounts to certain oil-producing provinces on a continuing basis was included in the Energy Administration Act (SC 1980-81-82, Chapter 114) assented to on July 7, 1982. Amounts excluded from revenue and shown as owing to these provinces were paid to them under this authority in the year ended March 31, 1983.

In the preface to the financial statements, the Government explains that the accounting policies it has adopted are designed primarily to provide an accounting of the financial resources appropriated by Parliament. The Energy Administration Act, under which payments are made to provinces in respect of oil exports, is an appropriation granted by Parliament. However, because of the accounting followed, payments to the provinces are excluded from reported expenditure and from reported use of appropriations. As a consequence, in my opinion, Parliament has not received the accounting for resources appropriated by it that the financial statements are designed to provide.

In summary, it is my view that all oil export charges collected should be accounted for and reported as general purpose tax revenues, and that payments to certain oil-producing provinces in respect of oil exports under the Energy Administration Act should be accounted for and reported as expenditures.

Reservation 2: Fragmented Reporting of Government Activities

Under the stated accounting policy described in Note 1(ii), significant assets, liabilities, revenues and expenditures of the Government of Canada are reported in separate financial statements of various accounts, funds and Crown-owned corporations that are not now combined with the financial statements of the Government. Therefore, although the financial statements contained in Section 2 of this volume are entitled "The Financial Statements of the Government of Canada", they do not provide a comprehensive and complete summary of the Government's assets, liabilities, revenues and expenditures, and the reported annual deficit and financial requirements do not reflect the results of all government activities.

Transactions in respect of the following departmental activities are reported in financial statements or accounts that are not combined with the financial statements of the Government:

- Unemployment Insurance Account;
- Canadian Ownership Account;
- Exchange Fund Account;
- Canada Pension Plan Account; and
- other similar Accounts.

Transactions should be recorded and reported in accordance with their economic substance to achieve meaningful summary level financial reporting for the Government of Canada. If for example a receipt is, in substance, federal revenue, it should be reported as such in the Government's financial statements, regardless of how it is reported elsewhere for other

purposes. The reporting of transactions in the Unemployment Insurance and Canadian Ownership Accounts illustrates my concern.

Under the Government's accounting policies, unemployment insurance contributions received, benefits paid and administrative expenditures are recorded in the Unemployment Insurance Account (UIA) and, except for a portion of benefits paid, are excluded from the Government's reported revenues and expenditures. The excess of accumulated benefits paid and administrative expenditures over accumulated revenues from employee and employer contributions and the Government's share of benefits paid is reported as a reduction of liabilities. In my view, unemployment insurance contributions levied on employees and employers are, in substance, federal revenues which should be included in reported revenues of the Government. Similarly, I believe that the full amount of unemployment insurance benefits paid and administrative expenditures are, in substance, expenditures of the Government which should be reported as such. If unemployment insurance transactions were reported in this way, liabilities and accumulated deficit would be increased by $3,642 million ($353 million in 1982), revenues increased by $5,039 million ($4,887 million in 1982), and expenditures increased by $8,328 million ($4,902 million in 1982). The deficit for the year would be increased by the UIA revenue shortfall of $3,289 million ($15 million in 1982).

It also seems clear that transactions now reported in the Canadian Ownership Account (COA) as a net liability constitute, in substance, revenues and assets which should be reported as such. In my view, levies received in respect of oil and gas charges and credited to the COA are federal revenues which should be included in Government revenues; and investments in Petro-Canada, charged to the COA as a reduction of the levies, are investments which should be included in Government assets. If these transactions were reported in this way, assets would be increased by $1,609 million ($711 million in 1982), liabilities reduced by $67 million ($75 million in 1982), and accumulated deficit reduced by $1,676 million ($786 million in 1982). The deficit for the year would be reduced by $890 million ($786 million in 1982).

Further study is required by the Government to determine how best to include transactions in the Exchange Fund, Canada Pension Plan and other similar Accounts in the financial statements of the Government. Recognizing that such a study has not yet been completed, and for purposes of illustration only, I have summarized below certain levies that are not currently reported as revenues on the Government's Statement of Revenue and Expenditure.

Illustration of unconsolidated levies	(in millions of dollars) 1983	1982
Unemployment Insurance contributions	5,039	4,887
Canadian Ownership oil & gas charges	890	786
Canada Pension Plan contributions	3,446	3,282
Portion of oil export charges	229	445
	9,604	9,400

The significance of these amounts in relation to the size of the Government, as reflected by its revenues, and the size of the Canadian economy, as reflected by Gross National Product, is shown by the following table. It compares total tax revenues now reported in the Government's financial statements with total tax revenues that would be reported if the above levies were included.

	1983		1982	
	$ millions	% of GNP[1]	$ millions	% of GNP[1]
Total tax revenues now reported on a gross basis	52,536	15.1	51,935	15.7
Total tax revenues on a gross basis if above levies included	62,140	17.8	61,335	18.5

[1] Gross National Product used in these calculations is for the calendar year ending within the fiscal year, as reported in Statistics Canada "National Income and Expenditure Accounts", fourth quarter 1982.

000048

Because the effect is readily quantifiable and easily understood, I have used a possible effect on total reported tax revenues to illustrate my concern about certain departmental activities not being combined with the financial statements of the Government. The issue is, however, much broader and also affects reported non-tax revenues, expenditures, assets and liabilities. Further study by the Government is required to determine how and to what extent these departmental activities should be included in the Government's financial statements to best satisfy the information needs of users.

In addition to the departmental activities discussed above, government activities are also carried out by many Crown-owned corporations and agencies whose financial statements are not consolidated with the financial statements of the Government. At March 31, 1983, investments in such corporations and agencies amounted to approximately $25 billion, or 57 per cent of the Government's recorded assets before allowance for valuation. The reporting of postal activities illustrates how use of the corporate form of organization can affect the Government's financial statements.

The activities of the Post Office Department were transferred to the Crown-owned Canada Post Corporation (CPC) on October 16, 1981. The financial statements of CPC are not consolidated with those of the Government because CPC is a Crown corporation named in Schedule C of the Financial Administration Act. As a consequence, beginning October 16, 1981, Canada's postal revenues and expenditures are to be reported only in the financial statements of CPC. Only the net contribution to the deficit of CPC is included in expenditure reported in the Government's financial statements subsequent to October 15, 1981. Significant revenues and expenditures have been excluded from the Government's statements simply by varying the legal form of the entity carrying out Canada's postal activities. Such changes in reporting make it difficult to compare meaningfully the information reported in these financial statements, over a period of years. In 1981, the last full year for which postal operations were included in the Government's statements, reported revenues and expenditures of the Post Office amounted to $1,109 million and $1,597 million respectively.

In my view, the current definition of the Government of Canada accounting entity based on legal form is not satisfactory. The accounting entity should be defined in such a way that the economic substance of an activity determines how that activity should be reported in the financial statements. Only in this way will a comprehensive, consistent reporting of government activities from year to year be achieved. Further study by the Government is required to determine how and to what extent activities carried out by Crown-owned corporations and agencies, or otherwise reported in separate financial statements or accounts, should be consolidated and, for those activities not consolidated, what alternative presentation would be appropriate. This is discussed further in my observation "Reporting of Summary Financial Information".

Reservation 3: Assets Reported at Amounts in Excess of their Value

In accordance with the stated accounting policies set out in Notes 1(vi) and (x) to the financial statements, the full amounts of special assistance loans to developing countries and subscriptions to the special development funds of international financial institutions are recorded as assets. At the date of issue, the amounts advanced by Canada considerably exceed the asset value received by Canada because of the concessionary terms described in Note 6. In my view, any excess of amounts advanced over asset value received confers a financial benefit on developing countries and constitutes expenditure in respect of international development assistance that should be recorded and reported as such on the Statement of Revenue and Expenditure. If this expenditure had been recorded in this way when the loans and subscriptions were originally issued, reported assets would be decreased and accumulated deficit increased by approximately $4.4 billion ($3.9 billion in 1982) and the deficit for the year would be increased by approximately $500 million ($500 million in 1982).

Canada provides assistance to developing countries by making grants and contributions and special assistance loans to them and by subscribing to special development funds of international financial institutions. Because of the concessionary terms described in Note 6 to

the financial statements, the loans and subscriptions, like grants and contributions, confer financial benefits on developing countries and are an important part of Canada's official program of assistance to developing countries. The grants and contributions, because they are not repayable or otherwise recoverable, are made under budgetary authority, recorded as expenditure and included in the deficit. Because the loans are repayable and the subscriptions considered to be eventually realizable, they are made under non-budgetary authority and recorded as assets.

The amount of special assistance loans included in loans to national governments at March 31, 1983 is $2,698 million. Of these loans, $2,470 million are repayable over 50 years without interest, with no payments for the first 10 years. At March 31, 1983, subscriptions to special development funds of international financial institutions amounted to $2,453 million. These special development funds make loans to developing countries under terms similar to the special assistance loans made by Canada. The terms of these subscriptions provide that, on withdrawal from or termination of the special development funds, Canada will receive a pro-rata share of the funds' assets. Because of the nature of such assets, it would take many years for Canada to realize its share on termination or withdrawal.

Because the loans and subscriptions described above are made without interest or at less than economic rates, the Government is not fully compensated for the use of its funds over the period the loans and subscriptions are outstanding. As a result, when loans and subscriptions are issued, the value given is significantly greater than the value received. As stated in the Government's 1975 Report on the Study of the Accounts of Canada: "Ideally, the Government's Statement of Assets and Liabilities should come as close as possible to reflecting the true economic value of the assets and liabilities recorded on it."

Sometimes a "true economic value" for financial claims is not available, and an alternative approach is required. For example, when a loan is made to a Crown corporation by the Government, it is recorded as an asset at the amount advanced. To compensate for the use of its funds, the Government charges interest on the loan. In the absence of a market-determined interest rate, the Government calculates an arbitrary rate by reference to its cost of borrowing. Accordingly, with the addition of interest to compensate for use of funds, the amount advanced is equal to the asset value received.

When special assistance loans and subscriptions to special development funds are issued, they should be similarly recorded as assets only to the extent of their economic value at that date. Any excess of amounts advanced over asset value received should be recorded as expenditure. As with loans to Crown corporations, the selection of an appropriate interest rate for calculating asset value received is, to some extent, arbitrary. However, it would seem reasonable to determine a rate by reference to the Government's cost of borrowing in the same manner as rates are set for loans to Crown corporations.

If special assistance loans and subscriptions to special development funds had been recorded and reported as assets at their economic value when issued, the amount outstanding would have been approximately $800 million as at March 31, 1983. In my opinion, this is the amount at which these loans and subscriptions should be recorded in the accounts of Canada at the year end. The difference of $4,400 million between the amount at which they are currently recorded ($5,200 million) and the amount at which they should be recorded ($800 million) constitutes expenditure in respect of international development assistance that should have been reported as such on the Statement of Revenue and Expenditure and included in deficit in the year the loans and subscriptions were issued. This would have properly recognized the cost of benefits conferred by these loans and subscriptions in the year they were issued.

Reservation 4: Unrecorded Liabilities

The Government has defined liabilities as financial obligations to outside organizations and individuals as a result of events and transactions prior to the accounting date. However, under its stated accounting policies, certain financial obligations that fit this definition have not been recorded. These unrecorded liabilities include financial obligations at the year end related to items to be paid from statutory authorities on which Parliament has not imposed

annual ceilings, employee termination benefits, and actuarial liabilities arising from the indexing provisions of employee pension plans (including the Canadian Forces and the Royal Canadian Mounted Police). In addition, no provision has been recorded for obligations arising from losses suffered by Canadair Limited, The de Havilland Aircraft of Canada, Limited and other troubled companies whose debt is guaranteed by the Government. My Office has estimated that these unrecorded financial obligations amount to approximately $16.5 billion ($14.5 billion in 1982). There is a further financial obligation for earned and unpaid annual vacation leave that also fits the Government's definition of liabilities but is not recorded.

Following is a summary of those unrecorded liabilities which have been estimated:

	(in millions of dollars)	
	1983	1982
Items to be paid from statutory authorities on which Parliament has not imposed annual ceilings		
Subsidies under the Railway Act	100	250
Entitlements under the petroleum incentives program		350
Acquisition of Massey-Ferguson Limited shares		126
	100	726
Employee termination benefits	1,400	1,300
Actuarial liabilities arising from the indexing provisions of employee pension plans	13,500	12,500
Provision respecting Canadair, de Havilland and other troubled companies	1,500	
	16,500	14,526

The liability for subsidies under the Railway Act has been estimated by the Canadian Transport Commission. The liability for employee termination benefits and the actuarial liabilities arising from the indexing provisions of employee pension plans (including the Canadian Forces and the Royal Canadian Mounted Police) were estimated by the Department of Insurance, based on methods and assumptions used by the Department for purposes of current actuarial reports on the Government's superannuation accounts. For the reasons set forth in the following paragraph, I have estimated the provision respecting Canadair, de Havilland and other troubled companies at approximately the amount of government-guaranteed loans of these companies at March 31, 1983. Such loans are reported as contingent liabilities of the Government in Table 12.8 of Section 12 of this volume, and include:

	(in millions of dollars)
Canadair	1,163
de Havilland	266
Others	71
	1,500

In their most recent audited financial statements, which cover the year ended December 31, 1982, Canadair and de Havilland reported losses of $1,415 million and $265 million respectively. Additional losses of $107 million and $77 million were reported by these two companies in their unaudited financial statements for the six months ended June 30, 1983. The companies have already received $700 million of Government assistance, $400 million in the Government's year ended March 31, 1983 and $300 million in the period April 1 to

September 15, 1983. In my judgement, the financial condition of Canadair and de Havilland has deteriorated to the point where they will require further assistance from the Government of Canada to service and repay their long-term debt.

Unrecorded liabilities for earned and unpaid annual vacation leave have not been estimated by my Office because the information required was not readily available. However, based on annual salary and wage costs, they are also likely to be substantial. The Government should estimate these unrecorded liabilities at the end of each fiscal year by referring to personnel and other records maintained by departments and agencies.

Based on the Government's definition of liabilities as financial obligations to outside organizations and individuals as a result of events and transactions prior to the accounting date, the exclusion from reported liabilities of the significant financial obligations described above results in an incomplete reporting of liabilities as defined. This directly affects the reported annual and accumulated deficit and the financial position at the year end. In my opinion, these financial obligations should be appropriately recorded in the accounts of Canada and reported in the financial statements to provide a more complete accounting and disclosure of liabilities.

Reporting of Summary Financial Information

As explained in my Opinion on the Government's financial statements in Section 2 of this volume and in the preceding three observations, I believe that the Government's stated accounting policies are inappropriate. Certain activities of government are excluded from the financial statements, certain assets that are included in the statements are overvalued, and certain liabilities are not included in the statements at all.

The Government, in the preface to the financial statements in Section 2, explains that the statements are "designed primarily to provide an accounting of the financial resources appropriated by Parliament" and "to report compliance with legislative authority". The question of purpose or objective of the Government's financial statements is not simply an academic matter of interest only to accountants. The current financial statements, designed to satisfy the objective of reporting compliance with authority, do not fully present significant information such as the Government's total revenues, expenditures, deficit, financial requirements and debt. My opinion shows, for example, that the annual and accumulated deficits would change by many billions of dollars if the Government accounted for its activities in accordance with their economic substance.

Media attention to the Government's reported deficit and financial requirements indicates a high degree of public interest in an economic interpretation of such summary information. In my opinion, readers would be best served by comprehensive, summary financial statements that report on government activities in accordance with their economic substance. Financial statements so prepared would also satisfy Parliament's intention as expressed in Section 55 of the Financial Administration Act that the Public Accounts include audited statements "of the expenditures and revenues of Canada for the fiscal year" and "of such of the assets and liabilities of Canada as in the opinion of the Minister are required to show the financial position of Canada as at the termination of the fiscal year".

In my observations last year, I called attention to the need for appropriate consultation among the interested and affected parties in order to achieve as soon as possible the common goal of providing financial information that best serves the needs of users.

Within the federal Government, the Office of the Comptroller General (OCG) is studying the purposes of summary financial reporting for the Government. The OCG expects to have a position paper on the objectives of summary financial statements ready by March 31, 1984.

Both the OCG and my Office have provided input and advice to the Public Sector Accounting and Auditing Committee (PSAAC) of the Canadian Institute of Chartered Accountants (CICA). In September 1983, PSAAC issued its first Accounting Statement, "Disclosure of Accounting Policies". This Statement contains Committee recommendations that are applicable to the federal and provincial governments. Currently, PSAAC is

000052

developing an Exposure Draft on objectives of government financial statements. This Exposure Draft is expected to be released within the next year.

My Office will continue to support the important work being conducted by both the OCG and the CICA, and will report in subsequent years on progress. It will be equally important to take every opportunity to obtain the views of readers of the financial statements on these important matters. The development of well-founded, meaningful and consistent summary financial statements for the Government of Canada is a challenge to and responsibility of Members of Parliament and other users as well as those responsible for their preparation and audit.

ENVELOPES AND OUTLAYS

The increasing complexity of Government responsibilities and the limited resources available to meet those responsibilities led to the policy and expenditure management system. Under this system, the Government manages the resources made available to it by "envelopes". Each envelope represents the resources allocated to a particular policy sector for all elements of departmental spending that relate to that sector.

Under the envelope system, spending is measured in terms of outlays for budgetary expenditure and for loans, investments and advances. Outlays for budgetary expenditure include costs of servicing the public debt, operating and capital expenditure, grants and contributions to other levels of government, persons and organizations, and other forms of transfer payments. Outlays for loans, investments and advances represent the net change in loans, investments and advances.

Details of Outlays by Envelope

ESTIMATES AND APPROPRIATIONS

Parliamentary Spending Authorities

The Government submits its spending proposals to Parliament in the annual Estimates. During the year, the Government may request further appropriations. The initial request is called the "Main Estimates" and additional requests are called "Supplementary Estimates". With these Estimates, the Government requests authority for that part of the proposed spending which is not already provided by other statutes. The amounts making up the total of such proposed spending are authorized in appropriation acts and are generally referred to as "annual" authorities. The balance of the planned spending is made under authority of other statutes which authorize disbursements for specified purposes, and for such amounts and time periods as are set by those acts. The proposed or estimated uses of most of these "statutory" authorities for the current year are included in the Estimates for information purposes; however, they are not included in appropriation acts because they have already been authorized by Parliament.

Annual authorities, with few exceptions, lapse at the end of the year if not used, while statutory authorities, with few exceptions, are carried forward to future years. Those authorities which extend to subsequent years are referred to as "non-lapsing".

Both the budgetary expenditure amounts and the non-budgetary requirements for loans, investments and advances are included under each type of spending authority, annual and statutory.

Table 4.3 presents, for the year ended March 31, 1983, a summary of parliamentary spending authorities requested and approved (annual authority), and estimated uses of authorities already granted (statutory authority).

A Statement of Use of Appropriations by department, as examined by the Auditor General, is presented in Section 2 of this volume. Additional details of appropriations and expenditure by department and by type (annual and statutory) are given in the Introduction (Table 2) of Volume II, and in the departmental sections of the same volume.

Budgetary and Non-budgetary Appropriations and Spending—Annual and Statutory

Budgetary appropriations provide spending authority for those transactions which enter into the calculation of the annual deficit or surplus of the Government. Non-budgetary appropriations provide spending authority for all transactions which result in the acquisition or disposal of loans, investments and advances. Balances of appropriations brought forward from the previous years are available for spending, together with current increases to such authorities.

The totals of these authorities are reduced by the amount of their current year use to determine the balances which lapse, are overexpended or are carried forward to future years, depending upon the type of authority. In cases where the spending of loan repayments is authorized, the non-budgetary spending is reported net of such repayments.

Table 4.4 presents details of the total available parliamentary spending authorities. They include brought forward authorities, parliamentary spending authorities as per Table 4.3 and various adjustments which are explained in the notes to the table.

Table 4.5 presents a summary of budgetary and non-budgetary appropriations and spending made under annual and non-lapsing appropriations and various statutory authorities for the year ended March 31, 1983.

Further departmental details are presented in the Introduction (Table 2) of Volume II.

Reconciliation of Outlays for Loans, Investments and Advances to Non-budgetary Use of Appropriations

The following presents a reconciliation of total outlays for loans, investments and advances, as shown in Table 4.1, with the total of non-budgetary appropriations used in the current year, as shown in the Statement of Use of Appropriations in Section 2 of this volume.

The major difference relates to repayments of loans under appropriations which do not authorize spending of repayments. Such amounts are deducted from gross outlays for envelope reporting but not for reporting the use of appropriations.

BUDGETARY REVENUE

Budgetary revenue consists of all tax and non-tax receipts which affect the deficit or surplus of the Government, and includes revenue internal to the Government.

The Government generally reports revenue in the year in which it is received, with refunds of revenue allocated to the year in which they are actually paid.

Revenue is reported after deducting refunds paid, and excludes amounts receivable, taxes collected on behalf of provinces and territories, and amounts credited to the Canada Pension Plan, the Unemployment Insurance Account, the superannuation accounts, other specified purpose accounts and other liability accounts.

Revenue for a year, therefore, includes receipts credited to the Receiver General by the Bank of Canada and the chartered banks by March 31, and amounts received in Government offices by March 31, but not deposited until April, or not credited to the Receiver General until April. Revenue also includes the amounts received in the mail on the first working day of April, except where it is clear that it was the remitter's intention to discharge an obligation arising in the new year.

The yield from tax revenue is affected by changes in tax rates, by changes in the base on which taxes are calculated, and by variations in economic conditions. Income tax liability relates to the income of a taxation year, but the system of collecting personal and corporation income taxes by payroll deductions and instalments, results in a distribution of receipts throughout the year.

Tax revenue increased by $1,352 million in 1982-83, compared to an increase of $7,305 million in 1981-82.

The major tax changes which had an effect on this year's tax revenue are:

—personal income tax—the marginal tax rates were reduced, particularly for higher income individuals, effective with the 1982 taxation year; also effective with the 1982 taxation year, the federal tax credit was restructured at a flat $200 for all taxpayers, with any unused portion transferable between spouses; the indexation of exemptions and brackets was capped to maximum increases of 6% and 5% in 1983 and 1984 respectively; and the child tax credit was augmented $50 per child for the 1982 taxation year only,

—corporation income tax—only one-half the capital consumption allowance is now permitted in the year assets are acquired and, the corporate surtax was extended for large businesses. The rate is 5% for 1982 and 2.5% for 1983;

—incremental oil revenue tax (IORT)—this tax came into effect January 1, 1982 but was suspended from June 1, 1982 to May 31, 1983 for conventional oil. Since incremental revenues can be deducted from corporate taxable income, this suspension of the IORT meant a partially offsetting increase in corporate income tax revenue. The suspension was subsequently extended for another year in the April 19, 1983 Budget;

—petroleum and gas revenue tax—the effective rate of this tax was increased effective January 1, 1982 from 8% to 12%, but there was a temporary tax reduction from 12% to 11% for conventional oil, from June 1, 1982 to May 31, 1983; and,

—customs import duties—as scheduled under the Multilateral Trade Negotiations, the fourth of eight annual tariff reductions was implemented in January 1983.

Under fiscal arrangements that became operative in 1962, the federal Government entered into tax collection agreements to collect the personal income taxes of all provinces and territories (except Quebec) and the corporation income taxes of all provinces and territories (except Ontario, Quebec and Alberta). Personal and corporation income taxes collected by the federal Government on behalf of the provinces and territories, and subsequently remitted to them, are not included in the tables shown hereunder.

Personal Income Tax

In 1982-83, personal income tax was the largest source of Government revenue. It amounted to $26,330 million, or 48% of total budgetary revenue.

Corporation Income Tax

Corporation income tax was the second largest source of Government revenue. It amounted to $7,139 million in 1982-83, or 13% of total budgetary revenue.

000066

Non-Resident Income Tax

Non-resident income tax is derived from tax withheld from dividends, interest, rents, royalties, alimony, and income from estates and trusts, paid to non-residents. It amounted to $998 million in 1982-83, or 2% of total budgetary revenue.

Excise Taxes and Duties

Excise taxes and duties totalled $14,708 million in 1982-83, or 27% of total budgetary revenue.

Sales tax

The sales tax, totalling $5,894 million in 1982-83, was the most important tax levied under the Excise Tax Act.

Customs import duties

The revenues from customs import duties, consisting mainly of *ad valorem* taxes on the importation of goods, totalled $2,831 million in 1982-83.

Excise duties

Excise duties, which totalled $1,274 million in 1982-83, are levied on alcoholic beverages (other than wines) and tobacco products. (Additional taxes on tobacco products and taxes on wines are levied under the Excise Tax Act).

Petroleum and gas revenue tax and incremental oil revenue tax

The petroleum and gas revenue tax came into effect on January 1, 1981, and is applicable to net operating revenues related to the production of oil and gas.

The incremental oil revenue tax became effective January 1, 1982 and is levied on incremental revenues from oil discovered prior to 1981 and results from differences between the well-head oil prices and the prices as scheduled in the National Energy Program of 1980. Commencing in June 1982, this tax has been suspended for two years for conventional oil. This tax remains in place for petroleum produced from tar sands mining projects in commercial production prior to 1976.

Natural gas and gas liquids tax

The revenues from the natural gas and gas liquids tax totalled $1,264 million in 1982-83. This tax, which came into effect during 1980-81, is imposed on all sales of natural gas and gas liquids.

Excise tax—Gasoline

Receipts from the excise tax—Gasoline were $408 million in 1982-83. Under certain conditions, the amounts received may be refunded to purchasers. As of March 31, 1983, $505 million was received, and $97 million was refunded and charged to revenue.

Oil export charges

The federal share of revenues from oil export charges totalled $392 million in 1982-83. In accordance with Section 17.1(1)(*b*) of the Energy Administration Act, oil export charges are shared with the oil producing provinces. The share is in respect of oil produced in, and exported from, the provinces during the year.

Non-Tax Revenue

Return on Investments

Return on investments consists of interest from loans and advances, and from the transfer of profits, surpluses and dividends.

Return on investments related to the assets on the Statement of Assets and Liabilities, is summarized in Table 5.4. Additional details are given in Section 14 of this volume and in the departmental sections of Volume II.

Other Non-Tax Revenue

Other non-tax revenue totalled $205 million in 1982-83, compared to $490 million in 1981-82. The net decrease of $285 million resulted mainly from an amount of $300 million taken into revenue in 1981-82, following the transfer of uranium stockpiles by the Government of Canada to Eldorado Nuclear Limited, in exchange for shares of that Corporation.

REVENUES CREDITED TO APPROPRIATIONS

Receipts and revenues arising from the activities of particular programs, which are credited to the appropriations for those programs, and which are not included in budgetary revenue, totalled $6,768 million in 1982-83, compared to $6,982 million in 1981-82.

Revenues credited to appropriations are summarized by department and selected classification and by source in Tables 5.5 and 5.6.

BUDGETARY EXPENDITURE

Budgetary expenditure consists of all charges to budgetary appropriations which affect the deficit or surplus of the Government. Such charges include those for work performed, goods received, services rendered, and transfer payments made, during the year, and, expenditure internal to the Government.

Expenditure excludes amounts charged to the Canada Pension Plan, the superannuation accounts, the Unemployment Insurance Account except for benefits to fishermen, other specified purpose accounts and other liability accounts.

In this section, expenditure is analysed in several different ways:

- by function, i.e. broad policies;
- by program, i.e. purpose;
- by type, i.e. operating, capital, and grants and contributions; and,
- by standard object, i.e. productive resources acquired or transfer payments made.

These analyses do not take into account the provision for valuation reflected in Sections 1 and 2 of this volume.

Expenditure by Function

The functional presentation of expenditure reflects the broad policies pursued by the Government. These functions, which are reflected in Table 6.1, are primarily services provided to the people of Canada or to other governmental jurisdictions within Canada.

The largest category of expenditure under the functional classification is health and welfare, which accounted for $24,630 million, or 31% of total departmental expenditure.

Expenditure by Type

Expenditure may be classified under three major types: operating, capital, and grants and contributions. Operating expenditures consist of expenditures incurred in conducting the administrative and operating activities of the program; capital expenditures are for the construction and acquisition of fixed assets; grants and contributions represent payments for other than goods and services, made for the purpose of furthering program objectives.

A comparative summary of expenditure by type is presented in Table 6.3.

Expenditure by Standard Object

The standard object presentation of expenditure is related to the goods and services acquired, and transfer payments made, by the Government.

A comparative summary of expenditure by standard object is presented in Table 6.4. Additional details are given in Volume II.

Grants, contributions and other transfer payments were the largest category, and accounted for $41,552 million or 53% of total departmental expenditure. Payments included fiscal transfer payments to provinces, $5,236 million; payments under the Public Utilities Income Tax Act, $142 million; payments for hospital insurance, medical care and extended health care, $4,060 million; family allowance payments, $2,231 million; guaranteed income payments, $2,416 million; spouse's allowance payments, $222 million; old age security payments, $7,005 million; Canada Assistance Plan payments, $2,832 million; and, post-secondary education payments, $1,532 million.

Salaries and wages accounted for $9,354 million or 12% of total departmental expenditure. The increase of $1,031 million was due mainly to higher salary rates.

Public debt charges totalled $16,971 million or 22% of total departmental expenditure. The increase of $1,804 million was due mainly to an increase in unmatured debt.

SUPPLEMENTARY STATEMENTS

Interest on the Public Debt

Interest on the public debt consists of interest on unmatured debt and on specified purpose accounts.

The increase of $1,297 million in interest on unmatured debt reflects mainly an increase in unmatured debt, which rose from $92,353 million at March 31, 1982 to $115,475 million at March 31, 1983. The increase in interest on specified purpose accounts was due mainly to increases of $562 million in respect of the superannuation accounts.

A comparative summary of interest on the public debt is presented in Table 6.5.

Details of interest on the public debt can be found in Section 14 of this volume.

Expenditure under Statutory Authority

The spending authority provided by statutory appropriations is for specified purposes and for such amounts and such time as the acts prescribe. This spending authority does not generally lapse at the end of the year in which it is granted. Expenditure under such authority accounts for more than half of the total departmental expenditure each year.

In 1982-83, expenditure under statutory authority amounted to $49,532 million, accounting for 63% of the total departmental expenditure of $78,276 million.

Table 6.6 presents a comparative summary of these statutory expenditures.

LOANS, INVESTMENTS AND ADVANCES

Loans, investments and advances is a category of assets representing financial claims and equity held by the Government of Canada. They are made under parliamentary appropriations. Some of these appropriations permit repayments to be used for further loans and advances. Many appropriations are non-lapsing, that is, the unexpended balances may be carried forward from year to year. Details of the use of these non-budgetary appropriations, for loans, investments and advances, can be found in the departmental sections of Volume II.

Loans, investments and advances are recorded at cost and are subject to valuation to reflect estimated losses on realization. Foreign currency transactions are translated and recorded in Canadian currency equivalents at the exchange rates prevailing at the transaction dates. Loans, investments and advances resulting from foreign currency transactions are, in turn, reported at year-end closing rates of exchange; net gains are credited to revenue as premium and discount on exchange, while net losses are charged to budgetary expenditure as a statutory item of the Department of Finance.

An allowance has been established to reflect estimated losses on realization of financial claims held by the Government. This allowance has been authorized by the Minister of Finance under Section 54(2)(b) of the Financial Administration Act.

Revenue received during the year, on loans, investments and advances, is credited, when received, to return on investments. Details of return on investments, for loans, investments and advances, are disclosed in Section 14 of this volume. In accordance with stated accounting policies, accrued interest and interest due but not received are not recorded as revenue. Table 7.13 gives details of recorded uncollected interest.

Gross transactions and year-end balances of loans, investments and advances are presented as follows:

—Crown corporations and agencies;

—provincial and territorial governments;

—national governments including developing countries;

—international organizations;

—Veterans' Land Act Fund advances;

—Government controlled corporations;

—private sector enterprises; and,

—miscellaneous.

Transactions and balances are further summarized in Sections 1 and 2 of this volume.

Some tables in this section present the continuity of each account, by showing the opening and closing balances, as well as receipts and other credits, and payments and other charges, i.e. inflow and outflow of transactions. In addition, the term "account(s) without current transactions" has been included in some tables, to provide a link with figures published in the previous year's edition of the Public Accounts, and to show net transactions in accounts which were closed out in the previous year.

CROWN CORPORATIONS AND AGENCIES

Loans and advances to, and investments in, Crown corporations represent the balance of financial claims held by the Government against Crown corporations for working capital, capital expenditure and other purposes, investment in the capital stock of corporations, and loans and advances to corporations for re-lending.

A Crown corporation is ultimately accountable to Parliament, through a Minister of the Crown, for the conduct of its affairs. Crown corporations are listed in Schedules B, C and D of the Financial Administration Act. Most of the Crown corporations listed in the Schedules to the Financial Administration Act are agents of Her Majesty, in the right of Canada. This power is granted in any one of the following ways:

(i) designation as an agent of Her Majesty by Parliament, through a special act of incorporation;
(ii) statutory authorization as an agent of Her Majesty; and,
(iii) proclamation as an agent of Her Majesty by the Government Companies Operation Act.

Financial statements of Crown corporations and agencies listed in Schedules C and D of the Financial Administration Act can be found in Volume III. Information on Schedule B corporations can be found in the departmental sections of Volume II.

Lending Institutions

Table 7.2 presents a summary of the balances and transactions for the various types of loans, investments and advances which were made to Crown corporations and agencies providing financial assistance.

Canada Deposit Insurance Corporation

The Corporation was established under the Canada Deposit Insurance Corporation Act, to provide insurance (up to $60,000 per depositor per institution) on deposits with federal member institutions and approved provincial institutions.

The Corporation is an agent of Her Majesty, reports through the Minister of Finance, and is listed as a proprietary corporation in Schedule D of the Financial Administration Act.

Section 37 of the Act provides that the Minister of Finance, with the approval of the Governor in Council, may advance to the Corporation amounts by way of loans on such terms and conditions as the Governor in Council may determine. The aggregate of such loans authorized to be outstanding at any time shall not exceed $500,000,000.

During the year, the loan balance of $200,000,000 as at March 31, 1982 was repaid with interest of $3 million. New loans were issued in the amount of $140,000,000.

The loans bear interest at rates varying from 9.5% to 9.625% per annum, and mature at various dates up to May 16, 1983.

Canada Mortgage and Housing Corporation

The Corporation was established under the Canada Mortgage and Housing Corporation Act, to promote the construction of new houses, the repair and modernization of existing houses, the improvement of housing and living conditions in Canada, and to promote the development of communities through the provision of infrastructure facilities.

The Corporation is an agent of Her Majesty, reports through the Minister of Public Works, and is listed as a proprietary corporation in Schedule D of the Financial Administration Act.

During the year, the Corporation received financial assistance, authorized by budgetary appropriations, amounting to $1,574 million. It paid interest of $883 million and transferred $9 million of profit to the Government.

Capital stock

The Government's investment in the capital of the Corporation is authorized by Section 17 of the Canada Mortgage and Housing Corporation Act.

Housing

Advances have been made to enable the Corporation to lend money under the following sections of the National Housing Act:

(*a*) Section 15—to any person to assist in

(i) the construction, purchase or improvement of a low-rental housing project;

(ii) the purchase of existing buildings and the land upon which they are situated and their conversion into a low-rental housing project; or,

(iii) the conversion of existing buildings into a low-rental housing project;

(*b*) Section 16—to an incorporated company engaged in the mining, lumbering, logging or fishing industry, to assist in the construction of low or moderate-cost housing projects in areas or localities that are adjacent to or connected with the operations of the borrower;

(*c*) Section 58—to a person unable to obtain a loan from an approved lender for construction of a house or housing project; and,

(*d*) Section 59—to Indians to assist in the purchase, improvement or construction of housing projects on Indian reserves.

The advances bear interest at rates varying from 3.5% to 14.625% per annum, are repayable over periods ranging from 18 to 50 years, and mature at various dates between September 30, 1997 and December 31, 2032.

Real estate

(*b*) repayable over a 1 year period, bearing interest at rates varying from 9.125% to 9.375% per annum, and maturing at various dates between August 31, 1983 and March 24, 1984, $13,400,000.

During the year, the Corporation paid interest of $2 million to the Government.

Loto Canada Inc

The Corporation was established under the Canada Business Corporations Act, to conduct and manage a national lottery in accordance with the National Lottery Regulations. The net revenues of the Corporation were paid over to the Receiver General for Canada, to be credited to a National Lottery Account, and distributed as follows:

82.5%—to assist in the financing of the deficit of the 1976 Olympic Games and to assist in the financing of the 1978 Commonwealth Games;

12.5%—to the provinces, in proportion to the number of lottery tickets sold in each province; and,

5%—for the purpose of physical fitness, amateur sport and recreation programs.

The Corporation is an agent of Her Majesty, reports through the Minister of National Health and Welfare, and is listed as an agency corporation in Schedule C of the Financial Administration Act.

The balance in the account represents the purchase, for $1, of the common shares of Loto Canada Inc.

The lottery operations were terminated on December 31, 1979. The Corporation will be wound up when legal, financial and administrative requirements will permit.

National Capital Commission

The Corporation was established under the National Capital Act, to prepare plans for, and assist in, the development, conservation and improvement of the National Capital Region, in order that the nature and character of the seat of the Government of Canada may be in accordance with its national significance.

The Corporation is an agent of Her Majesty, reports through the Minister of Public Works, and is listed as an agency corporation in Schedule C of the Financial Administration Act.

During the year, the Corporation received financial assistance, authorized by budgetary appropriations, amounting to $82 million.

000697

Loans have been made for the purpose of acquiring property in the National Capital Region. During the year, additional loans were authorized by Vote L85, Appropriation Acts No 1 and No 2, 1982-83.

The loans bear interest at rates varying from 4.75% to 15.625% per annum. No dates for repayment of principal are specified except that loans and interest are required to be repaid by the full proceeds of property sales.

During the year, the Corporation paid interest of $2 million to the Government.

Northern Canada Power Commission

The Corporation was established under the Northern Canada Power Commission Act, to construct, purchase, rent or otherwise acquire, operate and maintain electrical power plants within the Northwest Territories and the Yukon Territory and, with the approval of the Governor in Council, but subject to the laws of the provinces, elsewhere in Canada.

The Corporation is an agent of Her Majesty, reports through the Minister of Indian Affairs and Northern Development, and is listed as an agency corporation in Schedule C of the Financial Administration Act.

During the year, the Corporation paid interest of $17 million to the Government.

Northern Canada Power Commission Act—Section 15

Loans have been made to the Corporation for capital expenditures. During the year, additional loans were made under authority of Votes L60 and L60b, Appropriation Acts No 1, No 2 and No 3, 1982-83.

The loans bear interest at rates varying from 4% to 15.625% per annum, and are repayable over a period extending to March 31, 2024.

The balance of loans outstanding as at March 31, 1983 includes $2.2 million of unpaid principal, for 1976-77.

Northern Canada Power Commission Act—Section 14

Section 14 of the Northern Canada Power Commission Act authorized the payment to the Commission of $50,000 for the purpose of meeting expenditures incurred in carrying out investigations in accordance with Section 13 of the Act.

The advances are non-interest bearing and have no fixed repayment dates.

Working capital

Loans have been made to the Corporation, for the purpose of maintaining inventories and meeting current liabilities.

The loans are interest-free, and are repayable in 10 equal annual instalments of $750,000, commencing March 31, 1990. Should any instalment become due and unpaid, interest at the then current rate is applicable until the date of payment.

Northern Transportation Company Limited

The Corporation was incorporated pursuant to the Canada Corporations Act (formerly the Companies Act), and continued under the Canada Business Corporations Act, to provide a general transportation service throughout Northern Canada and the Arctic, together with related intermodal services.

The Corporation is an agent of Her Majesty, reports through the Minister of Transport, and is listed as a proprietary corporation in Schedule D of the Financial Administration Act.

During the year, the Corporation received financial assistance, authorized by budgetary appropriations, amounting to $1 million.

Capital stock

The Government's investment in the capital of the Corporation is recorded in this account.

Loans

Loans have been made to the Corporation, to finance the acquisition of transportation facilities for the movement of goods to the Canadian North.

The terms and conditions of the loans, with their year-end balances, are categorized into three groups:

(*a*) 15 year loans, bearing interest at rates varying from 8.375% to 8.5% per annum, and maturing October 15, 1989 and October 15, 1990, $4,143,068;

(*b*) 10 year loan, bearing interest at the rate of 8.41% per annum, and maturing December 31, 1986, $320,000; and,

(*c*) 15 year loan, bearing interest at the rate of 7.45% per annum, and maturing December 31, 1991, $28,970,788.

During the year, the Corporation paid interest of $3 million to the Government.

Royal Canadian Mint

The Corporation was established under the Royal Canadian Mint Act, to:

(*a*) produce and arrange for the production and supply of coins of the currency of Canada;

(*b*) produce coins of the currency of countries other than Canada;

(*c*) melt, assay, refine, buy and sell gold, silver and other metals for the account of Canada; and,

(*d*) make medals, plaques and other things as are incidental to the powers of the Mint.

The Corporation is an agent of Her Majesty, reports through the Minister of Supply and Services, and is listed as an agency corporation in Schedule C of the Financial Administration Act.

Section 18(1)(a) of the Act states that loans not exceeding in the aggregate $5,000,000 may be made to the Mint, to meet establishment and operating expenses.

Section 18(1)(b) of the Act states that loans may be made to the Mint, to finance the costs of capital projects that are approved by the Governor in Council.

Section 18(2) of the Act states that the total amount outstanding at any time, of loans made under Section 18(1), shall not exceed $35,000,000.

T29000 000098

Section 19(2) of the Act states that the aggregate of all amounts loaned to the Mint for temporary purposes and outstanding at any time, shall not exceed $1,000,000.

The loans bear interest at rates varying from 7.625% to 10.125% per annum, are repayable over periods ranging from 4 to 16 years, and mature at various dates between April 1, 1984 and April 1, 1998.

During the year, the Corporation paid interest of $2 million to the Government.

The St Lawrence Seaway Authority

The Corporation was established under The St Lawrence Seaway Authority Act, to construct, operate and maintain, either wholly in Canada or in conjunction with works undertaken by an appropriate authority in the United States, a deep waterway between the Port of Montreal and Lake Erie.

The Corporation is an agent of Her Majesty, reports through the Minister of Transport, and is listed as a proprietary corporation in Schedule D of the Financial Administration Act.

The Government's investment in the capital of the Corporation is recorded in this account.

Teleglobe Canada

The Corporation was established under the Teleglobe Canada Act, to establish, maintain and operate, in Canada and elsewhere, external telecommunication services by cable, radiotelegraph, radio-telephone and any other means of telecommunication for the conduct of public communications, and to coordinate Canada's external telecommunication services with those of other parts of the British Commonwealth of Nations.

The Corporation is an agent of Her Majesty, reports through the Minister of State for Social Development, and is listed as a proprietary corporation in Schedule D of the Financial Administration Act.

Section 12 of the Act provides that the Minister of Finance, with the approval of the Governor in Council, may pay to the Corporation, for capital purposes, amounts not exceeding $4,500,000 out of unappropriated moneys, and, in addition, any other moneys appropriated by Parliament.

The loans bear interest at rates varying from 3.5% to 6.75% per annum, are repayable in semi-annual instalments over periods ranging from 15 to 40 years, and mature at various dates between March 31, 1984 and March 31, 1998.

During the year, the Corporation paid interest of $1 million and transferred surplus of $9 million to the Government.

Uranium Canada, Limited

The Corporation was incorporated pursuant to the Canada Corporations Act (formerly the Companies Act), and continued under the Canada Business Corporations Act, to provide for the acquisition and sale of uranium concentrates.

The Corporation is an agent of Her Majesty, reports through the Minister of Energy, Mines and Resources, and is listed as an agency corporation in Schedule C of the Financial Administration Act.

During the year, the Corporation received financial assistance, authorized by budgetary appropriations, amounting to $35,000.

The Government's investment in the capital of the Corporation is recorded in this account.

VIA Rail Canada Inc

The Corporation was established under the Canada Business Corporations Act, to revitalize passenger rail services in Canada, and to manage and market them on an efficient commercial basis, reducing the financial burden on the Government of Canada.

The Corporation is not an agent of Her Majesty, reports through the Minister of Transport, and is listed as a proprietary corporation in Schedule D of the Financial Administration Act.

During the year, the Corporation received financial assistance, authorized by budgetary appropriations, amounting to $604 million.

The Government's investment in the capital of the Corporation is recorded in this account.

Summary of the Financial Position of Agent Crown Corporations

All assets and liabilities of agent Crown corporations are assets and liabilities of the Government, because of the agency relationship. However, in accordance with the accounting policies of the Government, the accounts of agent Crown corporations are not consolidated with those of the Government, and only the financial transactions between the Government and agent Crown corporations, are recorded in the accounts of Canada.

Although borrowings by agent Crown corporations from lenders other than the Government are considered direct liabilities of the Government, such borrowings are not included in the accounts of Canada since they are intended to be, and in practice are, repaid directly by the corporations.

Table 7.4 presents the assets, liabilities (including the identification of borrowings from other than the Government), equity and contingent liabilities of Crown corporations which are agents of the Government and which are outside the Government of Canada as an accounting entity. In accordance with Section 40 of the Financial Administration Act, details of borrowings by these entities from other than the Government are detailed in Notes 2 and 4 to this table.

For corporations with financial year ends other than March 31, 1983, unaudited financial information is included in this table. The table is summarized in Note 4 to the audited financial statements in Section 2 of this volume.

(4) Canada Development Investment Corporation: During the year, the entire share capital of Eldorado Nuclear Limited, Canadair Limited, The de Havilland Aircraft of Canada, Limited, as well as 5,000,000 series D preferred shares of Massey-Ferguson Limited, were transferred by the Government to this Corporation. The equity method of accounting for long term intercorporate investments is used by the Corporation to reflect the carrying value of these entities except for Massey-Ferguson Limited, whose shares are recorded at cost. As a result of these transfers, Eldorado Nuclear Limited does not appear in this table as in previous years. However, as Eldorado Nuclear Limited is a Schedule D Crown corporation per the Financial Administration Act, its borrowings must be identified per Section 40 of this Act. Borrowings from other than the Government include the following transactions (in thousands of dollars):

Balance, March 31, 1982	263,482

Government of Canada Financial Interest in Agent and other Crown Corporations

Table 7.5 summarizes the major balance sheet items for both agent and other Crown corporations, as at March 31, 1983.

The assets and liabilities of agent Crown corporations are the assets and liabilities of the Government, because of the agency relationship. However, in accordance with the accounting policies of the Government, the accounts of agent Crown corporations are not consolidated with those of the Government, and only certain financial transactions between the Government and its agent Crown corporations, are recorded in the accounts of Canada.

The table displays "Assets" less "Borrowings and other liabilities" to arrive at "Net assets".

Balances which represent transactions with the Government, and which are recorded in the accounts of Canada include: long term obligations to the Government, share capital and contributed surplus as well as claims against the Government of Canada. Such balances are described in this table as "Financial interest recorded by the Government".

"Unrecorded financial interest" represents retained earnings of agent and other Crown corporations, adjusted for items which had previously been included in their asset and liability accounts. These adjustments arise from timing differences in the recording of transactions between agent and other Crown corporations and the Government. Crown corporations record amounts payable to or receivable from the Government on an accrual basis for such items as income taxes. The accounts of Canada do not include such amounts until payment is either received or made. Amounts which represent transactions with the Government and which are not recorded in the accounts of Canada, are adjusted and are reported under "Unrecorded financial interest". They include grants receivable, current or deferred income taxes receivable or payable, capitalized or accrued interest payable, sundry accounts payable, long term capitalized leases payable and prepaid expenses related to Canada. "Unrecorded financial interest" adjustments represent amounts which will be eventually received or disbursed by Canada.

Other information presented in this table includes "Change in financial interest from previous year" which identifies the increase or decrease since April 1, 1982. "Financial assistance under budgetary appropriations" summarizes the assistance received by these entities during 1982-83. Details of such assistance can be found in Section 14 of this volume.

Amounts listed in this table reflect information regarding agent and other Crown corporations as at March 31, 1983. For corporations with financial year ends other than March 31, unaudited financial information is included.

(1) The Post Office Department was converted to the Canada Post Corporation by an act of Parliament on October 16, 1981. As the financial statements of the Corporation are not available at the time of printing, no figures appear in this table.

(2) Canada Deposit Insurance Corporation—Unrecorded financial interest consists of premiums credited to the Deposit Insurance Fund plus adjusted accumulated net earnings. The deposits with member institutions insured by the Corporation totalled $118 billion as at April 30, 1982.

(3) Canada Development Investment Corporation—During the year, the entire share capital of Eldorado Nuclear Limited, Canadair Limited, The de Havilland Aircraft of Canada, Limited, as well as 5,000,000 series D preferred shares of Massey-Ferguson Limited, were transferred by the Government to this Corporation. The equity method of accounting for long term intercorporate investments is used by the Corporation to reflect the carrying value of these entities except for Massey-Ferguson Limited, whose shares are recorded at cost. As a result of these transfers, Eldorado Nuclear Limited does not appear in this table as in previous years.

(4) Canada Mortgage and Housing Corporation—Unrecorded financial interest includes a net deficit of $236,554,000 in insurance and guarantee funds. The estimated amount of insurance in force as at March 31, 1983 was $29.6 billion.

(5) Canadian National (West Indies) Steamships Ltd—The assets of the Corporation include a receivable of $717,700, of which $470,400 has been due since 1963 from Cuban interests, and, $247,300 represents interest due from the Bank of America.

(6) The financial interest in Canertech Inc, a subsidiary of Petro-Canada, as well as in The Jacques Cartier and Champlain Bridges Incorporated, a subsidiary of The St Lawrence Seaway Authority, is recorded at cost.

(7) Bank of Canada—Recorded share capital includes $920,000 representing a premium paid in respect of the acquisition in 1938 of shares held by the public. Consequently, unrecorded financial interest has been reduced by $920,000.

(8) Canadian National Railway System—Recorded share capital includes a premium of $19,452,732 representing the excess of previous years' depreciation not charged to Canadian National Railway's retained earnings over the Government's investments in Canadian Government Railways and Canadian National Railways Company. These investments were charged to budgetary expenditure by the Government of Canada and were credited to shareholder's equity by Canadian National Railway. Consequently, after the capital revision of Canadian National Railways, the recorded capital stock of the Corporation is $19,452,732 less than the recorded investment of the Government. Accordingly, unrecorded financial interest is being reduced by this deficiency.

(9) The combined total of "Obligations to the Government" and "Share capital and contributed surplus", as shown in this table, agrees with the total amount of loans, investments and advances—Crown corporations and agencies per Table 7.1, after taking into account the following reconciling items (in thousands of dollars):

Obligations to the Government as per this table	17,871,714
Share capital and contributed surplus as per this table	8,596,192
	26,467,906
Add: loans to Eldorado Nuclear Limited, not reflected in this table	5,000
Less: Petro-Canada shares and convertible notes purchased through the Canadian Ownership Account (see Section 8 of this volume)	1,608,891
Total loans, investments and advances—Crown corporations and agencies as per Table 7.1	24,864,015

(10) Less than $500.

Federal-provincial employment loans program

Loans have been made, to provinces, provincial agencies and municipalities, to assist in the creation of employment. The loan authority provides for the forgiveness of that portion of the principal amount equal to 75% of normal direct on-site payroll costs incurred and paid before June 30, 1972.

The loans bear interest at rates varying from 6.34% to 7.41% per annum, and mature at various dates between November 15, 1983 and November 30, 1994. Individual loans have repayment periods ranging from 10 to 20 years, and are repayable in annual instalments, or at maturity.

Municipal Development and Loan Board

Under the Municipal Development and Loan Act, loans have been made, to provinces and municipalities, to augment or accelerate municipal capital works programs.

The loans bear interest at rates varying from 5.25% to 5.625% per annum, are repayable in annual or semi-annual instalments over periods ranging from 15 to 50 years, and mature at various dates between September 1, 1983 and March 31, 2016.

Special development loans program

Loans have been made, to provinces, provincial agencies and municipalities, to assist in the creation of employment.

The loans bear interest at rates varying from 6.04% to 7.54% per annum, and mature at various dates between April 1, 1987 and March 30, 1993. Individual loans have repayment periods ranging from 10 to 20 years, and are repayable in annual or semi-annual instalments, or at maturity.

Winter capital projects fund

Loans have been made, to provinces, provincial agencies and municipalities, to assist in the creation of employment. There is provision for the forgiveness of that portion of the principal amount equal to 50% of normal direct on-site payroll costs for the duration of the loan program, plus 50% for the periods December-May 1973, 1974 and 1975. Vote L13a, Appropriation Act No 1, 1974, authorized in fiscal years subsequent to March 31, 1976, the consolidation of any loan made pursuant to that authority, which may include the amount of interest accrued thereon to the date of consolidation.

The loans bear interest at rates varying from 7.11% to 9.84% per annum, and mature at various dates between September 30, 1984 and February 25, 1999. Individual loans have repayment periods ranging from 5 to 20 years, and are repayable in annual instalments, or at maturity.

Atlantic Development Board carry-over projects

Loans have been made to finance certain water projects that were carried over from the Atlantic Development Board. Loans were made pursuant to terms and conditions of agreements between Canada and the provinces in the Atlantic region, with the approval of the Governor in Council. The department's policy on water projects and such agreements included a forgiveness provision, which is found in some agreements, to reflect recognition of a shortfall in the use of available capacity in the early years of such projects.

The terms and conditions of the loans, with their year-end balances, are categorized into two main groups:

(*a*) 28 year loans, bearing interest at the rate of 7.5% per annum, due on various anniversary amortization dates, and maturing July 31, 1999, $49,884; and,

(*b*) 30 year loans, bearing interest at rates varying from 7.161% to 8.5% per annum, due on various anniversary amortization dates, and maturing at various dates between November 21, 1998 and April 1, 2006, $6,373,741.

Atlantic Provinces Power Development Act

Loans have been made to the Atlantic provinces, to assist in the generation of electrical energy by steam driven generators in the provinces, and in the control and transmission of electric energy.

The loans bear interest at rates varying from 4.5% to 8.5% per annum, are repayable over periods ranging from 29 to 40 years in equal annual instalments due March 31, and mature at various dates between March 31, 1992 and March 31, 2014.

Special areas and highways agreement

Loans and advances have been made to finance development of community and industrial infrastructure projects for special areas, and for highway development, pursuant to terms and conditions of agreements between Canada and the provinces, with the approval of the Governor in Council.

Advances

The amounts shown as advances represent outlays made on incomplete projects. When a project is completed, the advances are transferred to the loan account.

Upon completion of projects, accrued interest is calculated and added to the amount of advances being transferred to loans. This is in accordance with the terms and conditions of the agreements between Canada and the provinces, with the approval of the Governor in Council.

Loans

This account records amounts transferred from the advances account whenever projects are completed.

The loans bear interest at rates varying from 5.768% to 10.164% per annum, are repayable over periods ranging from 5 to 30 years in equal annual instalments due March 31, and mature at various dates between March 31, 1984 and March 31, 2009.

Regional electrical interconnections

Loans have been made to assist in financing regional electrical interconnections, under agreements with the Provinces of Manitoba, New Brunswick, Nova Scotia and Prince Edward Island, and the Government of Canada.

During the year, additional loans were authorized by Vote L35, Appropriation Acts No 1 and No 2, 1982-83.

000107

The loans bear interest at rates varying from 9% to 15.625% per annum, for an average yield of 9.406%, are repayable in annual instalments over periods ranging from 29 to 31 years, and mature at various dates between December 31, 2008 and October 31, 2009.

Mainland Investments Limited

Loans have been made to the Province of Nova Scotia for the purchase of shares of Mainland Investments Limited (formerly Metropolitan Area Growth Investments Limited), in accordance with an agreement between Canada and Nova Scotia, pursuant to Section 8 of the Department of Regional Economic Expansion Act.

The loans bear interest at the rate of 7% per annum, are repayable over a 15 year period, and mature Feburary 28, 1988. During the first 5 years, interest only is payable, and during the subsequent 10 years, equal annual instalments of principal and accrued interest are required on March 30.

Loading ramp, Yarmouth, NS

Loans have been made to the Province of Nova Scotia for the construction of an end-loading ramp at Yarmouth, Nova Scotia.

The loans bear interest at the rate of 8% per annum, are repayable over a 15 year period in semi-annual instalments due September 14 and March 14, and mature September 14, 1985.

Comprehensive development plan agreement

Loans have been made to Prince Edward Island, to assist in financing the realization of a comprehensive and co-ordinated development plan of the province, pursuant to an agreement entered into with the province, whose territory has been designated a "special rural development area".

The terms and conditions of the loans, with their year-end balances, are as follows:

(*a*) repayable over a 30 year period in equal instalments due at various anniversary dates, bearing interest at rates varying from 6.688% to 9.375% per annum, and maturing at various dates between March 25, 2000 and March 27, 2005, $4,891,000; and,

(*b*) repayable over a 30 year period in equal annual instalments due March 31, bearing interest at rates varying from 6.688% to 9.375% per annum, and maturing at various dates between March 31, 2001 and March 31, 2005, $6,951,767.

Town of Oromocto

Capital assistance loans have been made to the Town of Oromocto, New Brunswick.

The loans bear interest at rates of 5.25%, 5.375% and 5.625% per annum, are repayable in equal semi-annual instalments over a 20 year period, and mature at various dates between January 1, 1985 and April 1, 1986.

Federal-provincial fiscal arrangements

These amounts represent overpayments in respect of provincial equalization entitlements under the Federal Provincial Fiscal Arrangements and Established Programs Financing Act. These overpayments are non-interest bearing and are recovered in the subsequent year.

Agricultural service centres

Loans and advances have been made, to provincial and municipal authorities, to assist in the construction or expansion of water supply and waste disposal facilities in key agriculture service centres, which are essential to rural adjustment and urban development in the agricultural portion of the Prairie region.

During the year, additional loans and advances were authorized by Vote L15, Appropriation Acts No 1 and No 2, 1982-83.

Advances

The amounts shown as advances represent outlays made on incomplete projects. When a project is completed, the advances are transferred to the loan account.

Upon completion of projects, accrued interest is calculated and added to the amount of advances being transferred to loans. This is in accordance with the terms and conditions of the agreements between Canada and the provinces, with the approval of the Governor in Council.

Loans

This account records amounts transferred from the advances account whenever projects are completed.

The terms and conditions of the loans, with their year-end balances, are as follows:

(*a*) repayable over a 20 year period in equal annual instalments due March 30, bearing interest at rates varying from 6.747% to 13.476% per annum, and maturing at various dates between March 30, 1992 and March 30, 2002, $14,797,433; and,

(*b*) repayable over a 20 year period in equal annual instalments due March 31, bearing interest at rates varying from 9.593% to 13.466% per annum, and maturing at various dates between March 31, 1999 and March 31, 2001, $310,232.

South Saskatchewan River project—Treasury bills

Treasury bills are received as payment of the Province of Saskatchewan's share of certain expenditures on the South Saskatchewan River project.

The Treasury bills bear interest at rates varying from 5% to 5.875% per annum, are repayable in semi-annual instalments due June 30 and December 31, and mature annually on December 31, up to 1986.

China

An interest-free loan to China was authorized under the Export Credits Insurance Act.

Greece

An interest-free loan to Greece was authorized by PC 1932-2630. Parliamentary authority to write-off the balance is being sought.

Jamaica—Economic assistance

A loan has been made to the Government of Jamaica, to provide economic assistance. The maturity date under the agreement is August 9, 1989. Interest at 11% per annum is payable annually on August 9. For the period from August 9, 1984 to August 9, 1989, the interest rate will be equal to the Crown corporations' borrowing rate for a 5 year term.

United Kingdom

The United Kingdom Financial Agreement Act, 1946

Under authority of the United Kingdom Financial Agreement Act, a credit of $1,250,000,000 was extended to the Government of the United Kingdom which might have been drawn on at any time prior to December 31, 1951. The purpose of the credit was to facilitate purchases by the United Kingdom of goods and services in Canada and to assist the United Kingdom in meeting transitional post-war deficits in its current balance of payments, in maintaining adequate reserves of gold and dollars, and in assuming the obligations of multilateral trade. No interest was payable prior to January 1, 1951. The amount of the credit drawn by December 31, 1951 was to be repaid in 50 annual instalments beginning on that date, with interest at the rate of 2% per annum. The loan matures December 31, 2000.

000110

Deferred principal

The agreement, as amended in 1957, provides for the deferment of interest in respect to the year 1956 and of seven instalments of principal and interest after December 31, 1956, under certain conditions. Interest for 1956, and interest and principal for 1957, 1964, 1965, 1968 and 1976 were deferred. The maturity of the deferrals shall commence December 31, 2001, and shall continue annually to December 31, 2006.

Developing countries—Special loan assistance

Special loan assistance is given to developing countries. During the year, additional loans were authorized by Vote L40, Appropriation Acts No 1 and No 2, 1982-83.

The terms and conditions of the loans, with their year-end balances, are categorized into seven main groups:

(*a*) 20 year maturity, 5 year grace period, 5% interest per annum, maturing September 2000 and March 2001, $35,320,647;

(*b*) 25 year maturity, 5 year grace period, 6% interest per annum, maturing March 2001, $1,236,289;

(*c*) 30 year maturity, 7 year grace period, 3% interest per annum, maturing at various dates between March 1997 and September 2011, $178,378,454;

(*d*) 30 year maturity, 7 year grace period, interest-free, maturing March 2010, $8,642,644;

(*e*) 35 year maturity, 5 year grace period, interest-free, maturing at various dates between April 2001 and November 2005, $3,476,563;

(*f*) 40 year maturity, 10 year grace period, interest-free, maturing March 2008, $794,987; and,

(*g*) 50 year maturity, 10 year grace period, interest-free, maturing at various dates between March 2013 and March 2032, $2,469,805,657.

Maturity means the interval to final repayment while grace period refers to interval to first repayment of principal.

Similar assistance has been provided to developing countries by way of subscriptions to the capital of the International Development Association in the amount of $1,601 million, and loans to other international financial institutions in the amount of $852 million. These amounts are reported later in this section under the heading "International Organizations".

Development of export trade

Pursuant to Section 31 of the Export Development Act, the aggregate amount of borrowings of the Export Development Corporation is limited to $2,500,000,000. Loans under this section are, in turn, re-loaned by the Corporation to foreign governments and foreign companies under the authority of the Governor in Council. Such loans to foreign governments and foreign companies are administered by the Corporation, on behalf of the Government.

North Atlantic Treaty Organization—Damage claims recoverable

Article VIII of the NATO Status of Forces Agreement signed April 4, 1949, as amended, deals with claims for damages to third parties arising from accidents in which a member of a visiting force is involved. This account is debited with the amount chargeable to other states, for claims for damages which took place in Canada, and is credited with recoveries.

The advances bear no interest and have no specific repayment terms.

INTERNATIONAL ORGANIZATIONS

This group records Canada's subscriptions to the capital of the African Development Bank, the Asian Development Bank, the Caribbean Development Bank, the Inter-American Development Bank, the International Bank for Reconstruction and Development (i.e. World Bank), the International Development Association and the International Finance Corporation. It also includes loans and advances to other international organizations.

The capital subscriptions are made in part by the issuance of non-interest bearing, non-negotiable demand notes. The amounts advanced or loaned vary according to the needs of the organizations concerned, and the terms of the agreements.

The net position of the Government vis-à-vis the international organizations has been obtained by deducting from the subscriptions, loans and advances, the non-interest bearing notes issued by Canada to these organizations. These notes, payable on demand, represent that portion of the investment by Canada in these organizations which has not yet been encashed by them. These notes are encashed subject to the financial requirements of these organizations.

Table 7.8 presents a summary of the balances and transactions for the subscriptions, loans and advances to international organizations.

International Tin Council

This account records Canada's subscriptions to the International Tin Council, as authorized by a previous appropriation act. The subscriptions, made in the form of non-interest bearing, non-negotiable demand notes, are for the investment in the buffer stock established under the Fifth International Tin Agreement.

Subscriptions have been made in the form of non-interest bearing demand notes, which are deducted from the subscriptions to show the net position of the Government vis-à-vis the Council.

International Natural Rubber Agreement

This account was established to make payments and issue guarantees, in the 1980-81, 1981-82, 1982-83, 1983-84, 1984-85 and 1985-86 fiscal years, for participation in the natural rubber buffer stock, in accordance with the terms and conditions of the International Natural Rubber Agreement, 1979.

Payments and guarantees are not to exceed $12,500,000.

International organizations and associations

These items represent the historical value of payments made by the Canadian Government to working capital funds maintained by international organizations of which Canada is a member. Participation in the financing of these working capital funds, on the basis of the scale of assessments, is prescribed by financial regulations for membership in the organizations. Payments into the funds are not subject to interest or repayment schedules, but are recorded by the organizations as credits from member states. Payments by Canada were authorized by various appropriation acts.

During the year, additional advances to the working capital funds of the Berne Union of the World Intellectual Property Organization, the Paris Union of the World Intellectual Property Organization, the Food and Agriculture Organization, the United Nations organizations and the World Health Organization were authorized by Votes L15, L20, L16b, L17b and L19c, Appropriation Acts No 1, No 2, No 3 and No 4, 1982-83.

During the year, Canada made a payment of 9,363 Swiss Francs valued at $5,846 Cdn to the Berne Union of the World Intellectual Property Organization, a payment of 11,297 Swiss Francs valued at $7,054 Cdn to the Paris Union of the World Intellectual Property Organization, a payment of $268,075 US valued at $337,774 Cdn to the Food and Agriculture Organization, a payment of $1,969,000 US valued at $2,440,379 Cdn to the United Nations organizations and a payment of $11,860 US valued at $14,588 Cdn to the World Health Organization. Canada also received a refund of $1,000 US valued at $1,226 Cdn as a result of Canada's share in the working capital fund of the United Nations organizations having been overpaid.

This account also records payments and the balance outstanding on United Nations bonds purchased by the Canadian Government in September 1962. The bonds yield interest at the rate of 2% per annum and are repayable over a 25 year period by annual instalments in amounts ranging from 3.1% to 5.1% of the amount subscribed. During the year, Canada's investment of $1,510,080 US as at April 1, 1982, was reduced by a payment of $293,280 US valued at $359,503 Cdn. Payments and other charges amounting to $11,787 represent a valuation adjustment of Canada's foreign investment of $1,216,800 US translated into Canadian dollars at the year-end closing rate of exchange ($1 US/$1.2371 Cdn).

VETERANS' LAND ACT FUND ADVANCES

Advances have been made, under Parts I and III of the Veterans' Land Act, for the acquisition of land, permanent improvements, removal of encumbrances, purchase of stock and equipment, and protection of security and, under Part II of the Act, for the purchase, subdivision and development of land, and for progress payments to veterans during construction and completion of unfinished houses, after termination of the construction contract, etc. On completion of the construction contract for each house, Canada Mortgage and Housing Corporation will place or arrange to have placed, a mortgage on the property and will reimburse the Fund the full cost of that property. The total amount authorized to be outstanding at any time is not to exceed $605,000,000.

A provision equal to 1/10 of the benefits to veterans was established each year up to and including 1978-79. Since that time, a forecast of requirements has been performed each year, and provisions are established as necessary. These provisions are charged to budgetary expenditure and credited to the allowance for conditional benefits account. The allowance for conditional benefits account represents the accumulated net provisions for benefits to veterans in the form of forgiveness of loans authorized by the Veterans' Land Act. These benefits come into effect only after certain conditions are fulfilled by the veterans. At the end of 10 years, the conditions having been met, the accumulated provision is debited to the allowance for conditional benefits account, and is credited to the veteran's loan account.

Table 7.9 summarizes the balances and transactions for advances to the Veterans' Land Act Fund.

Canada Development Corporation

The Corporation was established under the Canada Development Corporation Act, to assist in the creation or development of businesses, resources, properties and industries in Canada. The Minister of Finance may subscribe to purchase and hold shares of the Corporation for the Government of Canada.

The Government has purchased, pursuant to Section 35 of the Act, 30,711,990 no par value common shares.

The Government's holding of shares represents 86.8% of the common shares outstanding, and 48.2% of the votes at shareholder meetings.

Canadair Limited

The Corporation was established by letters patent, granted under the Canada Corporations Act, to manufacture and sell aircraft.

Capital stock

The Government has purchased shares of the Corporation.

The Government purchased 251,700, 4¼% non cumulative, $100 par value preferred shares for $25,170,000, and 3,102,206 common, no par value shares for $21,448,550. This represents 100% of the shares.

During the year, the Government transferred all of its shares to the Canada Development Investment Corporation (a Crown corporation listed in Schedule D of the Financial Administration Act).

Loans

Loans have been made to the Corporation for the financing of water bomber aircraft, such loans to be recovered on the sale of the aircraft.

The loans are interest-free and are repayable only when the aircraft are sold.

000117

The de Havilland Aircraft of Canada, Limited

The Corporation was established by letters patent, granted under the Ontario Corporations Act, to manufacture and sell aircraft.

Capital stock

The Government has purchased 31,999 non-assessable, class A, no par value shares, and 10,000, class B, no par value common shares, for $40,792,888. This represents 100% of the shares, less one share held by the union.

During the year, the Government transferred all of its shares to the Canada Development Investment Corporation (a Crown corporation listed in Schedule D of the Financial Administration Act).

Loans

Loans have been made to the Corporation in respect of the costs of rate tooling for the DHC-7 aircraft, such loans to be recovered on the sale of the aircraft.

The loans are interest-free and are repayable only when the aircraft are sold.

The Jacques Cartier and Champlain Bridges Incorporated

The Corporation was incorporated under the Canada Business Corporations Act, to operate and maintain the Jacques Cartier Bridge and the Champlain Bridge, and part of the Bonaventure Autoroute, in Montreal (Quebec). The Corporation is a wholly-owned subsidiary of The St Lawrence Seaway Authority (a Crown corporation listed in Schedule D of the Financial Administration Act).

This account records loans which were transferred from the Canada Ports Corporation (formerly the National Harbours Board).

On December 17, 1981, as per PC 1981-3635, the certificates of indebtedness were cancelled and replaced by a certificate bearing an issue date of April 1, 1981, an indefinite due date, with no repayment of principal, and an interest rate equal to zero percent per annum. Furthermore, accrued and unpaid interest amounting to $44,513,580 as of March 31, 1981, on the original certificates are to be treated as not due and payable as of April 1, 1981.

000119

British Yukon Railway Company

A loan has been made to the British Yukon Railway Company, for the Whitepass and Yukon Railway, to maintain and improve the rail service of the Yukon Territory.

The loan is interest-free, and is repayable over a 20 year period in equal annual instalments due December 31, starting in 1984, and ending in 2003. Any payment by the British Yukon Railway Company not made on the day it is payable, will bear interest at the rate established by the Minister of Finance for loans to Crown corporations in effect on the day the instalment or amount is payable.

Burgeo Leasing Limited

Loans have been made to Burgeo Leasing Limited, for the construction of an extension to the wharf at Burgeo, Newfoundland. The total amount authorized to be charged to the account is $240,000.

The loans bear interest at rates varying from 6.937% to 8.062% per annum, are repayable over a 25 year period in equal annual instalments due September 1, and mature September 1, 1996.

Canadian Arctic Producers Co-operative Limited

Capital stock

The Government has purchased common shares of Canadian Arctic Producers Co-operative Limited, for an amount not exceeding $1,000, and, 400,000, 7% non-cumulative redeemable preferred shares of Canadian Arctic Producers Co-operative Limited, for $400,000.

As at March 31, 1983, 165,000 of the preferred shares had been redeemed at $1 per share. Of the 400,000 preferred shares originally purchased, the balance as of March 31, 1983 is $235,000 plus $1,000 of common shares.

During the year, as per TB 784350, the preferred shares for $235,000, and the common shares for $1,000, were transferred to the Canadian Arctic Producers Co-operative Limited, under the authority of Section 52 of the Financial Administration Act. Section 52 does not cover removing the shares from the accounts of Canada. The removing of the shares from the accounts of Canada will have to await legislation enacting the amendments to the Financial Administration Act.

Loans

In 1971-72, a loan of $250,000 was issued to Canadian Arctic Producers Co-operative Limited. The loan bears interest at the rate of 7% per annum, and is repayable in monthly instalments up to June 30, 1990.

Canadian defence industry

Advances have been made to assist Canadian defence industry with plant modernization in amounts not to exceed one-half of the cost of the acquisition of new equipment to defence industry.

During the year, additional advances were authorized by Vote L30, Appropriation Acts No 1 and No 2, 1982-83.

The advances bear no interest, are repayable over periods ranging from 1 to 10 years, and mature at various dates from April 1, 1983 and June 1, 1986.

Canadian manufacturers of automotive products

Loans have been made to assist manufacturers of automotive products in Canada, including material suppliers and tooling manufacturers, affected by the Canada-United States Agreement on Automotive Products, to adjust and expand their production, such loans to be made for the purpose of acquisition, construction, installation, modernization, development, conversion and expansion of land, buildings, equipment, facilities or machinery, and for working capital.

The loans bear interest at the rate of 13.875% per annum, are repayable over periods ranging from 1 to 4 years, and mature at various dates between May 31, 1983 and April 30, 1987.

Canadian producers of frozen groundfish

Loans have been made to Canadian producers of frozen groundfish, canned and frozen crabmeat, and canned and frozen lobster meat, to assist in the financing of inventories. The total amount of loans authorized is $5,500,000.

The loans bore interest at the rate of 13% per annum, were repayable in equal annual instalments over a 7 year period, and matured December 1982.

Coast Ferries Limited

Loans have been made to the Corporation, for working capital purposes.

The loans bear interest at an annual rate equal to the rate established by the Minister of Finance in respect of Crown corporations' borrowings. The loans were due April 1, 1978.

Company stock option

This account records the purchase by the General Adjustment Assistance Board and the Enterprise Development Board, on behalf of Her Majesty in right of Canada, of the capital stock of a company in order to exercise a stock option in such company that has been taken by the Board in connection with the provision of a loan, or of insurance of a loan or a letter of credit made or issued to the company in accordance with the General Adjustment Assistance Regulations, the Automotive Manufacturing Assistance Regulations, or under the Enterprise Development Program, where, in the opinion of a Board established pursuant to Section 7 of the Department of Industry, Trade and Commerce Act:

(i) the value of the capital stock of the company has increased as a result of the assistance provided and the stock option should be exercised, in order to permit Her Majesty in right of Canada to benefit from the increased value of the capital stock of the company; or,

(ii) the stock option should be exercised, to protect the Crown's interest in respect of the loan made or insurance provided; and,

to authorize the sale or other disposition of any capital stock so acquired.

000120

During the year, additional purchases were authorized by Vote L40, Appropriation Acts No 1 and No 2, 1982-83.

Consolidated Computer Incorporated

In 1981-82, the Government disposed of its interest in Consolidated Computer Incorporated. The sum of $100,000 was received from Nabu Manufacturing Corporation in consideration of the transfer to it of debentures obtained by the Government as a result of paying off certain loans incurred by Consolidated Computer Incorporated. Now that the above transaction is completed, authority will be requested to delete the Government's investment in the Company from the accounts of Canada.

Cooperative Energy Corporation

The Corporation was established under the Cooperative Energy Act, to bring together a number of co-operative financial, agricultural, service and marketing institutions to participate in the Canadian oil and gas industry. The Corporation is a holding company whose only shareholders are the participating co-operatives and the Government of Canada.

The Minister of Energy, Mines and Resources may subscribe for, acquire and hold shares and equity debentures of the Corporation for the Government of Canada. For that purpose, the Government of Canada may provide, over the next five years, up to $100,000,000 to match investment funds contributed by participating co-operative organizations.

The Government's investment in the capital of the Corporation, as authorized by the Cooperative Energy Act, is recorded in this account and is made up of:

	March 31, 1983
	$
Equity debentures	3,075,900
57,804 class B shares	5,780,400
489,477 class D shares	48,947,700
	57,804,000
84,945 class C shares	84,945
	57,888,945

The equity debentures pay 6% interest per year, payable every December 31. In lieu of cash, the Corporation issues class C shares at a value of $1 each. During the year, the Corporation paid $84,945 interest on the equity debentures.

Development of export trade

Pursuant to Section 31 of the Export Development Act, the aggregate amount of borrowings of the Export Development Corporation is limited to $2,500,000,000. Loans under this section are, in turn, re-loaned by the Corporation to foreign governments and foreign companies under the authority of the Governor in Council. Such loans to foreign governments and foreign companies are administered by the Corporation, on behalf of the Government.

Enterprise development program

This account records loans to:

(*a*) a person engaged in a manufacturing or processing activity in Canada where, in the opinion of the Enterprise Development Board, such loan is required for the purpose of:

(i) restructuring operations in order to adapt efficiently to competition from goods imported at such prices, in such quantities or under such conditions as to cause or threaten serious injury; or,

(ii) adjusting to changes in conditions affecting access to foreign markets which are attributable to the imposition by a country other than Canada of an import surtax or to the taking by such country of other actions having the same effect;

(*b*) a person in respect of whom the Board has authorized the provision of insurance of a loan not exceeding $200,000 where, in the opinion of the Board, such loan is required for the purpose of preventing a serious delay in implementing a restructuring program;

(*c*) a person who has previously obtained assistance in accordance with the Automotive Manufacturing Assistance Regulations, the Pharmaceutical Industry Incentives Development Assistance Regulations or the Footwear and Tanning Industries Assistance Regulations or under the Enterprise Development Program or to any trustee or receiver authorized by law to carry on the business of such person or manufacturer where, in the opinion of the Board, such loan is required for the purpose of protecting the Crown's interest in the assets securing a loan previously made or a loan or letter of credit previously insured, where such a person is unable to obtain sufficient financing on reasonable terms from other sources for such purposes;

(*d*) a person in Canada engaged or about to engage in the tanning or in the manufacture of footwear who, in the opinion of the Board, requires assistance to establish or restructure his operations in order to meet international competition;

(*e*) a person engaged or about to engage in a manufacturing, processing or other commercial activity, for the purpose of promoting the establishment, growth, efficiency or international competitiveness of Canadian industry, and to foster the expansion of Canadian trade; and,

(*f*) a person who has previously obtained assistance under a program of assistance to industry, or any trustee or receiver authorized by law to carry on the business of such person for the purpose of protecting the Crown's interest resulting therefrom

During the year, additional loans were authorized by Votes L35 and L35b, Appropriation Acts No 1, No 2 and No 3, 1982-83.

The loans are repayable over periods ranging from 5 to 20 years, bear interest at rates varying from 8.375% to 12.875% per annum, and mature at various dates between April 15, 1985 and December 1, 1998.

No further loans under the Footwear and Tanning component will be made.

Eurocan Pulp and Paper Co Ltd

Loans have been made to Eurocan Pulp and Paper Co Ltd, for the construction of a marine terminal at Kitimat, British Columbia. The total amount of loans authorized is $4,500,000.

The loans bear interest at rates varying from 7.062% to 7.812% per annum, are repayable over a 20 year period in equal annual instalments due March 31, and mature March 31, 1991.

Footwear and tanning industries adjustment program

Loans have been made under the footwear and tanning industries adjustment program, to assist persons in Canada engaged or about to engage in the tanning or in the manufacture of footwear, who have been determined by the General Adjustment Assistance Board to be eligible for assistance to establish or restructure their operations, in order to meet international competition.

The loans bear interest at rates varying from 8.7% to 10% per annum, are repayable over periods ranging from 5 to 9 years, and mature at various dates between May 1, 1983 and December 1, 1989.

This loan program has been superceded by the Enterprise Development Program, and no further loans will be made.

Groundfish processors

Loans have been made to assist processors of groundfish in Canada, who, as determined by the Fisheries Prices Support Board, are unable to obtain sufficient financing on reasonable terms from other sources, to maintain raw fish prices, i.e., prices to primary producers, at the 1966-68 level. The total amount of loans authorized is $6,000,000. The loans bear interest at the rate of 8.75% per annum, are repayable in equal annual instalments over a 7 year period, and mature December 1984.

Loans, in the amount of $3,000,000, have also been made to ice affected fish plants in Newfoundland, Labrador and North Shore, Quebec, to provide advances for working capital assistance to Canadian producers of groundfish products in Newfoundland and Quebec, who were affected by severe ice conditions in May and June 1974. The loans bear interest at rates varying from 8% to 10% per annum, are repayable in equal annual instalments over a 7 year period, and mature December 1985.

Haddock fishermen

Loans have been made to Nova Scotia haddock fishermen whose fishery was closed from February 1 to May 31, 1975, pursuant to an agreement under the International Agreement for the Northwest Atlantic Fisheries. The total amount of loans authorized is $1,650,000.

The loans bear interest at the rate of 8% per annum, and are repayable in equal annual instalments over a 4 year period. The loans matured in 1979, but are not yet repaid.

Kennedy Round agreement

Loans have been made under the Adjustment Assistance Program related to the Kennedy Round agreement, to assist manufacturers in Canada who have been determined by a board established pursuant to Section 15 of the Department of Industry Act: (*a*) to be seriously injured or threatened with serious injury by reason of increased imports attributable to Kennedy Round tariff reductions made by Canada, resulting in exceptional problems of adjustment; (*b*) to be unable to obtain sufficient financing on reasonable terms from other sources, for purposes of making the necessary adjustment; (*c*) to require such loans in order to adapt efficiently to competition from goods imported at such prices, in such quantities or under such conditions as to cause or threaten serious injury; and, (*d*) to be unable to obtain sufficient financing on reasonable terms from other sources for such purposes. The category of persons eligible for loans also includes a manufacturer or other person in Canada:

(*a*) in respect of whom the General Adjustment Assistance Board has authorized the provision of insurance pursuant to Industry, Trade and Commerce Vote 30c, Appropriation Act No 1, 1968, of a loan therein described for an amount not exceeding $200,000; and,

(*b*) who, in the opinion of the Board, requires such loan to prevent serious delay in implementing the restructuring program approved by the Board.

The outstanding loans bear interest only if the Company generates a profit, are repayable over a 17 year period, and mature March 1, 1990.

This loan program has been superceded by the Enterprise Development Program and consequently no further loans will be made.

Lower Churchill Development Corporation

This account records the Government's investment in the capital of the Corporation. In respect of Canada's participation with the Government of Newfoundland in the development of the hydro-electric power potential of the Lower Churchill River in Labrador, the Government is authorized to purchase approximately 49% of the shares of the Lower Churchill Development Corporation.

The Government has purchased 1,475 class A shares, representing 49% of the shares outstanding. The balance of the outstanding shares is owned by Newfoundland and Labrador Hydro.

Massey-Ferguson Limited

The Government of Canada and Massey-Ferguson Limited entered into an agreement on June 15, 1981, whereby the Government guaranteed to redeem, upon request, 5,000,000 preferred shares of the Company in the event of a failure by the Company to pay a dividend. On June 30, 1982, the Company defaulted on its dividend payment.

In July 1982, the Government disbursed $126,349,358 to acquire 62.5% of the outstanding Series D preferred shares of the Company. This amount was charged to budgetary expenditure pursuant to Industry, Trade and Commerce Vote 8c, Appropriation Act No 4, 1980-81.

During the year, the Government transferred all of its shares in Massey-Ferguson Limited to the Canada Development Investment Corporation (a Crown corporation listed in Schedule D of the Financial Administration Act).

Canadian Forces housing projects—National Defence

Advances have been made to the Canada Mortgage and Housing Corporation, in respect of loans arranged by the Corporation for housing projects for occupancy by members of the Canadian Forces.

The loans bear interest at rates varying from 4% to 5.75% per annum, are repayable over periods ranging from 35 to 48 years, and mature at various dates between August 1, 1996 and November 1, 2010.

Parolees—Solicitor General

Loans have been made to parolees and individuals under mandatory supervision, to assist in their rehabilitation.

During the year, the total amount authorized to be outstanding at any time was increased to $50,000 by Vote L14b, Appropriation Act No 3, 1982-83.

The loans are non-interest bearing and are repayable before the expiration of the parole period, or within one year from the date the loans were made, whichever period is the shorter. The repayment of a loan or any part thereof may be forgiven by the Solicitor General, if certain conditions are met.

During the year, loans totalling $6,990 were forgiven pursuant to Vote L103b, Appropriation Act No 1, 1969. These loans were initially recorded in 1979-80, 1980-81 and 1981-82.

Defence production loan account—Supply and Services

This account was established under Section 15.1 of the Defence Production Act, to record loans or advances for any purpose other than to assist in the construction, acquisition, extension or improvement of capital equipment or works by any person.

Section 15.2 of the Defence Production Act stated that the aggregate of expenditures charged to the Defence production revolving fund (budgetary account), and to this account, shall not at any time exceed by more than $100,000,000 the aggregate of amounts:

(*a*) received from the sale or disposition of materials, substances or defence supplies;

(*b*) charged to another appropriation in respect of costs of acquisition, storage, maintenance or transportation of stocks of materials or substances purchased, or of stocks of defence supplies acquired, where such materials, substances or defence supplies may be acquired under that appropriation;

(*c*) charged to an appropriation or paid by an agent of Her Majesty or by an associated government, to pay costs incurred in respect of defence supplies, payment for which was made out and charged to the Defence production revolving fund; and,

(*d*) received in repayment of a loan or advance previously charged to this account.

A repayment of $1.7 million owed to this account by CAE Aircraft is in dispute concerning the due date from which interest should be charged. Legal counsel is of the opinion that no loss to the Government will be incurred.

Corporation of the City of Montreal—Transport

Loans have been made to the Corporation of the City of Montreal, for the construction of vehicular tunnels under the Lachine Canal at Atwater Avenue and at St Remi Street. The lands upon which the tunnels and approaches are constructed, other than Lachine Canal reserve lands, are to be conveyed to the City upon completion of the tunnels.

Under the agreement, the Corporation was required to reimburse ⅓ of the cost of construction of the tunnels, with interest at the rate of 3.125% per annum calculated from the date of conveyance of the lands, provided that the amount did not exceed the sums of $2,000,000 for the Atwater Tunnel and $1,500,000 for the St Remi Tunnel, plus interest, and such amounts were to be repaid in 30 consecutive annual instalments, the first of which was payable twelve months after the date of conveyance of the lands, namely June 20, 1961, for the Atwater Tunnel, and June 12, 1953, for the St Remi Tunnel.

The cost of the construction of the Atwater Tunnel for purposes of the agreement exceeded $6,000,000, and the share to be reimbursed by the City is $2,000,000, with interest at the rate of 3.125% per annum, maturing June 20, 1991.

The cost of the construction of the St Remi Tunnel for the purposes of the agreement has been established at $4,132,353, and the share to be reimbursed by the City was $1,377,451 plus $21,738 for supplementary ducts installed at the request of the Montreal Hydro Commission, with interest at the rate of 3.125% per annum, maturing June 12, 1983.

Debentures of the City of Montreal furnished as security are held in the custody of the Minister of Supply and Services.

Fraser River Harbour Commission—Transport

Loans have been made to the Fraser River Harbour Commission, to assist in the development of the harbour. Loans have also been made to assist in wharf reconstruction and extension.

During the year, the loans were repaid in full.

000128

Hamilton Harbour Commissioners—Transport

Loans, secured by debentures or promissory notes, have been made to the Hamilton Harbour Commissioners, to assist in the development of the harbour.

The total amount authorized to be outstanding at any time is not to exceed $4,000,000.

The terms and conditions of the loans, with their year-end balances, are categorized into four groups:

(*a*) 20 year loans, bearing interest at the rate of 6.062% per annum, repayable in semi-annual instalments due June 30 and December 31, and maturing June 30, 1987, $338,016;

(*b*) 20 year loans, bearing interest at the rate of 5.562% per annum, repayable in semi-annual instalments due June 30 and December 31, and maturing June 30, 1987, $328,366;

(*c*) 39 year loan, bearing interest at the rate of 4.125% per annum, repayable in semi-annual instalments due June 30 and December 31, and maturing January 31, 2001, $875,000; and,

(*d*) one loan to bear interest from the date construction is substantially completed or April 1, 1983, whichever is earlier, at a rate equal to the then existing rate established by the Minister of Finance in respect of Crown corporations' borrowings, and repayable in 40 equal semi-annual instalments, $1,523,811.

Lakehead Harbour Commission—Transport

Loans have been made to the Lakehead Harbour Commission, for expansion of the Keefer terminal.

The loans bear interest at the rate of 7.437% per annum, are repayable over a 15 year period in semi-annual instalments due June 30 and December 31, and mature June 30, 1989.

Port Alberni Harbour Commission—Transport

Loans have been made to the Port Alberni Harbour Commission, to finance the construction of a new lumber assembly wharf.

The terms and conditions of the loans, with their year-end balances, are categorized into two groups:

(*a*) 20 year loan, bearing interest at the rate of 8.062% per annum, repayable in semi-annual instalments due June 30 and December 31, and maturing June 30, 1991, $307,989; and,

(*b*) 20 year loan, bearing interest at the rate of 7.187% per annum, repayable in semi-annual instalments due June 30 and December 31, and maturing June 30, 1991, $891,594.

Commonwealth War Graves Commission—Veterans Affairs

Advances have been made to the working capital fund of the Commonwealth War Graves Commission (formerly the Imperial War Graves Commission), to maintain graves and cemeteries.

As at March 31, 1983, the balance of the advances was £30,000 UK. This foreign currency balance was converted to $54,906 Cdn, using the year-end rate of exchange (£1UK=$1.8302 Cdn).

The advances are interest-free and have no fixed terms of repayment.

ALLOWANCE FOR VALUATION

In accordance with the comprehensive policy on valuation, which became effective in 1979-80, assets are subject to an annual valuation to reflect reductions from the recorded value to the estimated realizable value.

The allowance for valuation, for loans, investments and advances, amounting to $2,500 million at the beginning of the year, was increased by $1,500 million, to provide a total of $4,000 million, that is the estimated losses on the realization of the loans, investments and advances included in the accounts of Canada at the year end.

SUPPLEMENTARY STATEMENT

Recorded Uncollected Interest

In accordance with the Government's stated accounting policies, interest due but not received is not recorded as revenue. In certain cases, this uncollected interest is recorded by being added to the applicable loan and advance account, and is credited to a recorded uncollected interest account. Since the Government's policy is to record revenue only when received, the balance of the recorded uncollected interest account is deducted from the loan and advance account, to present it on a net basis.

Table 7.13 reports the transactions for the year in respect of the recorded uncollected interest.

SPECIFIED PURPOSE ACCOUNTS

Specified purpose accounts represent the recorded value of the financial obligations of the Government of Canada in its role of administrator of certain public moneys received or collected for specified purposes, under or pursuant to legislation, a trust, treaty, undertaking or contract. These public moneys may be paid out only for such purposes specified in or pursuant to such legislation, trust, treaty, undertaking or contract.

Because of the dedicated purposes of these moneys, specific accounts are required to be maintained to provide an accounting mechanism to ensure that the moneys are used only for the purposes for which they were received or collected. Legislation relating to some accounts permits investments to be made and, in certain cases, the balances of the accounts earn interest.

This section gives details of specified purpose accounts on which summary information was given in Sections 1 and 2 of this volume.

Some tables in this section present the continuity of each account, by showing the opening and closing balances, as well as receipts and other credits, and payments and other charges, i.e. inflow and outflow of transactions. In addition, the term "account(s) without current transactions" has been included in one table, to provide a link with figures published in the previous year's edition of the Public Accounts, and to show net transactions in accounts which were closed out in the previous year.

The financial statements of the Canada Pension Plan Account and the Canada Pension Plan Investment Fund, the Unemployment Insurance Account, the Government Annuities Account and the Royal Canadian Mounted Police (Dependants) Pension Fund, together with the Auditor General's reports thereon, are presented at the end of this section.

Canada Pension Plan Account

The Canada Pension Plan is a compulsory and contributory social insurance plan which enables members of the labour force to acquire and retain protection for themselves and their families against loss of income due to retirement, disability or death. Established in 1965, the Plan applies in all parts of Canada, except for the Province of Quebec which has a parallel plan.

Under existing arrangements, all benefits and all costs incurred in the administration of the program are financed from the contributions made by employees, employers and self-employed persons, and the interest earned from the investment of funds.

The Government's financial obligation, as the administrator of the Canada Pension Plan, is limited to the balance of the account.

Table 8.2 presents a summary of the balances and transactions in the Canada Pension Plan Account and in the Canada Pension Plan Investment Fund.

Receipts and other credits include:

(*a*) contributions of: (i) 1.8% of earnings by employees earning over $1,600 for the 1982 calendar year and $1,800 for the 1983 calendar year, with matching contributions by employers, subject to a maximum payment of $268.20 for the 1982 calendar year and $300.60 for the 1983 calendar year and (ii) 3.6% of the earnings of self-employed persons over $1,600 for the 1982 calendar year and $1,800 for the 1983 calendar year, subject to a maximum payment of $536.40 for the 1982 calendar year and $601.20 for the 1983 calendar year; and,

(*b*) interest received from securities of the Canada Pension Plan Investment Fund, and from the average daily operating balance.

Payments and other charges include:

(*a*) benefits paid under the Canada Pension Plan as retirement pensions, survivors' benefits paid to widows, widowers and orphans, or as lump sum death benefits, and disability pensions and benefits to children of disabled contributors;

(*b*) all benefits paid and recovered from the Canada Pension Plan, in accordance with an agreement with a province providing a comprehensive pension plan;

(*c*) payments that are required to be charged to the Canada Pension Plan Account, in accordance with reciprocal agreements with other countries; and,

(*d*) the costs of administration of the Plan.

When the operating balance exceeds the estimated amount required to meet all payments in the following three-month period, the excess is available for the purchase of securities of the provinces and Canada.

Provinces are advised monthly of the amount of excess moneys in the Canada Pension Plan Account that is available for the purchase of provincial securities. The amount available to each province is the proportion that contributions made to the Plan during the preceding ten years in respect of employment in the province, bears to total contributions. Contributions received in respect of employment in the Yukon Territory, the Northwest Territories and from certain other employees outside Canada, are invested in the special non-marketable bonds of the Government of Canada.

Certain federal employees, such as members of the Canadian Armed Forces, who are resident in the Province of Quebec, contribute to the Canada Pension Plan. The securities of Quebec which are purchased by the Plan relate to the contributions of these employees.

On the Statement of Assets and Liabilities of the Government of Canada, the investment in securities issued by provinces, as charged to the Canada Pension Plan Investment Fund, is deducted from the Canada Pension Plan Account.

Superannuation Accounts

The Government provides pensions to retired employees or their dependants through pension schemes authorized by the Public Service Superannuation Act, the Canadian Forces Superannuation Act and the Royal Canadian Mounted Police Superannuation Act. These pensions are indexed to the cost of living under authority of the Supplementary Retirement Benefits Act. The Government's liabilities in its role as administrator of these pension plans in respect of its employees and certain other contributors, are recorded in the relevant superannuation accounts.

Legislation for basic pensions provides for employee contributions (6½% of salary), employer contributions (prior year's employee contributions for members of the Public Service, and approximately 1.8 and 2.0 times current year's employee contributions for members of the Canadian Forces and the Royal Canadian Mounted Police respectively), allocation of interest (average market yield of 20 year Canada bonds weighted by the quarterly excess of receipts over disbursements in the three accounts each quarter over 20 years), and actuarial valuation deficiencies (full valuation at least once every 5 years with annual adjustments for authorized salary increases). Legislation for indexing basic pensions does not require actuarial valuations but does provide for additional employee contributions (1% of salary), matching employer contributions and allocation of interest (current rate of 5 year Canada bonds).

Receipts and other credits for the superannuation accounts consist of contributions from personnel, related contributions from the Government and participating Public Service corporations, transfers from other pension funds, other Government contributions related to actuarial liability adjustments (not applicable to the Supplementary Retirement Benefits Account), and interest. Payments and other charges for the superannuation accounts consist of payments of pensions, death benefits, refunds of contributions and transfers to other plans.

Actuarial valuations are currently made at least once every five years (quinquennially), the next valuations will be made as at December 31, 1980 for the Public Service Superannuation Account, December 31, 1980 for the Canadian Forces Superannuation Account, and December 31, 1979 for the Royal Canadian Mounted Police Superannuation Account. In accordance with the legislation governing the three superannuation plans, the Minister of Finance has the authority to direct that any actuarial deficiency found will be credited to the appropriate account, debited to unamortized portion of actuarial deficiencies, and amortized to expenditure in five equal annual instalments commencing in the year in which the actuarial report is laid before Parliament. In addition, the cost of added liabilities, created by the authorization of salary increases each year, is credited to the superannuation accounts, debited to unamortized portion of actuarial deficiencies, and amortized to expenditure over a period of five years commencing in the year in which the increases are authorized.

Since the quarter ending September 30, 1969, the regulations, made pursuant to each of the superannuation acts, have provided for the calculation of interest at a rate related to the Canada Pension Plan interest rate. The acts further provide that the amount by which the calculated interest rate (currently about 10.5% per annum) exceeds the amount of interest calculated at the rate used in the latest actuarial report (currently 6.5% per annum for the Public Service, Canadian Forces and Royal Canadian Mounted Police Superannuation Accounts), may be used to reduce the amortization of actuarial deficiencies charged to budgetary expenditure.

Table 8.4 presents a summary of the balances and transactions for the superannuation accounts including the unamortized portion of actuarial deficiencies. Table 8.5 presents an analysis of the actuarial deficiencies.

Table 8.6 presents a summary of transactions related to superannuation accounts that resulted in charges to budgetary expenditure. In 1982-83, $4,103 million was charged to budgetary expenditure on account of superannuation plans. This is composed of Government contributions, $664 million; net amortization of actuarial deficiencies resulting from quinquennial actuarial valuations and salary increases, $25 million ($872 million of interest earnings over 6.5% on the main superannuation accounts was used to reduce the charges to expenditure for amortization from $897 million to $25 million); increased superannuation benefits paid during the year due to indexation in excess of the superannuates' share of contributions to the Supplementary Retirement Benefits Account, $525 million; and, interest, $2,889 million ($2,017 million credited to the superannuation accounts and $872 million of interest earnings in excess of 6.5% on the main superannuation accounts which was used to reduce the amortization of actuarial deficiencies).

[2] The actuarial liability adjustment is made with respect to salary increases authorized during the year in excess of 5.5%.

Supplementary Retirement Benefits Account

This account was established by the Supplementary Retirement Benefits Act, to provide for the payment of increased pension benefits resulting from indexation. Actuarial valuation of the Account is not required by the legislation.

The Chief Actuary of the Department of Insurance has estimated that the actuarial present value of supplementary retirement benefits, including provision for future indexation, in respect of contributors (retired or in active employment) or their dependants entitled to benefits pursuant to the Public Service, Canadian Forces and Royal Canadian Mounted Police Superannuation Acts, as at March 31, 1983, was $13.5 billion ($12.5 billion as at March 31, 1982). This amount is based on an assumed interest rate of 6.5%, and other assumptions as described in the last actuarial reports on those three superannuation accounts.

Increased superannuation benefits paid during the year due to indexation amounted to $556 million ($443 million in 1981-82), of which $525 million ($417 million in 1981-82) represents benefits to superannuates in excess of their share of contributions to the account which has been charged to budgetary expenditure. The payments charged to budgetary expenditure on behalf of contributors amounted to $332 million ($264 million in 1981-82) for the Public Service Superannuation Account, $178 million ($141 million in 1981-82) for the Canadian Forces Superannuation Account, and $15 million ($12 million in 1981-82) for the Royal Canadian Mounted Police Superannuation Account. Only $31 million ($26 million in 1981-82) was charged to the Supplementary Retirement Benefits Account.

Unemployment Insurance Account

The Unemployment Insurance Act provides for a compulsory contributory unemployment insurance program applying to all employees, subject to minor exceptions.

The Act authorizes an account in the accounts of Canada to be known as the Unemployment Insurance Account.

The Act provides that the following amounts be credited to the Account: (*a*) premiums, fines, penalties and interest; (*b*) the statutory Government share of the benefits paid; (*c*) refunds of overpayments of benefits, and benefit repayments; (*d*) amounts for services rendered to other Government departments or agencies, or to the public; (*e*) amounts provided for any other purpose related to unemployment insurance and which are authorized by an appropriation administered by the Canada Employment and Immigration Commission; and, (*f*) interest on the balance of the Account at such rate that the Minister of Finance may authorize. The Act also provides that the following amounts be debited to the Account: (*a*) benefits paid under the Act; (*b*) the costs of administering the Act; and, (*c*) the interest charges on advances made by the Minister of Finance.

Maximum weekly employee premiums were $5.78 from April 1, 1982 to December 31, 1982 and $8.86 from January 1, 1983 to March 31, 1983. For the same periods, maximum weekly benefits were $210 from April 1, 1982 to December 31, 1982 and $231 from January 1, 1983 to March 31, 1983.

Interest bearing loans are made to the Unemployment Insurance Account, under Section 137(1) of the Unemployment Insurance Act, as a result of deficiencies in contributions from employers and employees. The balance outstanding as at March 31, 1983 bears interest at various rates between 9.75% and 16.375% per annum, and is repayable at various dates between April 30, 1984 and March 31, 1985. The balance outstanding at year end is deducted from the balance of the Unemployment Insurance Account, to show the net position of the Account.

Government Annuities Account

This account was established by the Government Annuities Act, and modified by the Government Annuities Improvement Act, which discontinued future sales of annuities. The account is valued on an actuarial basis each year, with the deficit or surplus debited or credited to the Consolidated Revenue Fund.

The purpose of the Government Annuities Act was to assist Canadians to provide for their later years, by the purchase of Government annuities. The Government Annuities Improvement Act increased the rate of return and flexibility of Government annuity contracts, and discontinued future sales of annuities.

Receipts and other credits consist of premiums received, funds reclaimed from the Consolidated Revenue Fund for previously unlocated annuitants, earned interest and items transferred from previous years' revenue to cover the actuarial deficit. Payments and other charges represent matured annuities, the commuted value of death benefits, premium refunds and withdrawals, and actuarial surpluses and unclaimed items transferred to non-tax revenue. The amounts of unclaimed annuities, related to annuitants who cannot be located, are transferred to non-tax revenue.

Canadian Ownership Account

This account was established under the authority of Vote 5c, Appropriation Act No 4, 1980-81. The account is credited with amounts received from the Canadian Ownership special charge levied to increase public ownership of the oil and gas industry in Canada.

During the year, advances were made to Petro-Canada to finance the acquisition of Petro-Canada Enterprises Inc (formerly Petrofina Canada Inc), as authorized by Vote 5c. In return, Petro-Canada issued interest-free notes convertible into its shares. Such notes were converted into common shares of the Corporation in the amount of $1,382,446,981. This amount, together with the amount of loans outstanding, are reported as a deduction from this account.

Deposit and Trust Accounts

Deposit and trust accounts is a group of liabilities representing the Government's financial obligations in its role as administrator of certain moneys that it has received or collected for specified purposes and that it will pay out accordingly. To the extent that the funds received are represented by securities, these are deducted from the corresponding accounts to show the Government's net liability.

Table 8.12 presents a summary of the balances and transactions in deposit and trust accounts.

Dependants' pension fund

This fund pertains to Part IV of the Royal Canadian Mounted Police Pension Continuation Act, whereby a widows' and dependants' pension fund is maintained by 5% contributions thereto from the pay of members of the Force, other than commissioned officers.

Locally-engaged contributory pension account

This account pertains to Part II of the Locally-Engaged Pension Regulations. The account is credited with contributions from locally-engaged employees, and is debited with payments of benefits.

Public Service death benefit account

This account was established under the Public Service Superannuation Act.

The account is credited with: (*a*) contributions by employees; (*b*) contributions by the Government and Public Service corporations; and, (*c*) interest. Payments and other charges represent: (*a*) benefits paid in respect of participants who, at the time of death, were employed in the Public Service, or were in receipt of an annuity under Part I of the Public Service Superannuation Act; and, (*b*) benefits of $500 paid in respect of participants who, at the time of death, were employed in the Public Service, or were in receipt of an annuity under Part I of the Public Service Superannuation Act, and on whose behalf a single premium for $500 death benefit coverage for life has been made.

Retirement fund

Contributions are made to the fund in the form of monthly deductions from the salaries of certain prevailing rate or seasonal and certain other employees. Other credits are the accrual of interest at the rate of 4% per annum on the balance to the credit of each contributor, the off-setting debit being to interest on the public debt. Payments and other charges represent payment of the amounts to the employees' credit upon resignation or death, or, if they become contributors to the Public Service Superannuation Account, transfers to that account.

Returned soldiers' insurance fund

This account was established by the Returned Soldiers' Insurance Act, to provide life insurance to veterans of World War I. The account is credited with the amount received as premiums, and with an amount of $63,756 (debited to budgetary expenditure) representing an actuarial liability adjustment as at March 31, 1982. It is debited with disbursements for death benefits and cash surrender values. The final date on which application for this insurance could have been received, was August 31, 1933.

Veterans' insurance fund

This account was established by the Veterans' Insurance Act, to provide life insurance to veterans of World War II. The account is credited with the amount received as premiums, and with an amount of $803,105 (debited to budgetary expenditure) representing an actuarial liability adjustment as at March 31, 1982. It is debited with disbursements for death benefits and cash surrender values. The final date on which application for this insurance could have been received, was October 31, 1968.

AUDITOR'S REPORT

THE HONOURABLE MONIQUE BÉGIN, P.C., M.P.
MINISTER OF NATIONAL HEALTH AND WELFARE

I have examined the statements of the Canada Pension Plan Account and the Canada Pension Plan Investment Fund for the year ended March 31, 1983. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these statements present fairly the Account and the Fund for the year ended March 31, 1983 in accordance with the accounting policies set out in Note 2 to the statements, applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1983

1. Authority

The Canada Pension Plan Account (the Account) was established in the accounts of Canada by Section 110.(1) of the Canada Pension Plan (the Plan), a 1965 Act of Parliament, to record the contributions, interest, benefits and expenses under the Plan. The balance of the Account is not intended to represent the future obligations of the Plan.

The Canada Pension Plan Investment Fund (the Fund) was established in the accounts of Canada by Section 111.(1) of the Plan to record the investment in securities of the provinces and Canada.

2. Accounting policies

Canada Pension Plan Account

The amounts credited and charged to the Account are in accordance with Sections 110.(2) and 110.(3) of the Plan, respectively. Contributions, interest and benefits are recorded on a cash basis. Contributions are received from the Department of National Revenue—Taxation based on estimates of collections for the current year and adjustments to the estimates of prior years. Expenses include amounts relating to work performed or services rendered prior to April 1. The balance in the Account represents the accumulated excess of contributions and interest over benefits and expenses to date.

Canada Pension Plan Investment Fund

The amounts charged and credited to the Fund are in accordance with Section 111.(2) of the Plan. All securities held are carried at cost, are non-negotiable and have a term of 20 years or such lesser period as may be determined by the Minister of Finance on the recommendation of the Chief Actuary of the Department of Insurance. The securities bear interest based on the average market yield of Canada bonds having 20 years or more to maturity as of the beginning of the month preceding the month in which the securities are issued.

3. Investment in securities

When the operating balance on deposit with the Receiver General for Canada exceeds the estimated amount required to meet all payments in the following three-month period, the excess is available for purchase of securities of the provinces and Canada.

Provinces are notified monthly of such excess that is available for the purchase of their securities. The amount available to each province is the proportion that contributions credited to the Account during the preceding 10 years in respect of employment in that province is of the total contributions in those years. Contributions received in respect of employment in the Yukon Territory, the Northwest Territories and from certain other employees outside Canada are invested in securities of Canada.

The securities of Quebec relate to the contributions of certain federal employees, such as members of the Canadian Armed Forces, who are residents in the Province of Quebec.

4. Interest

Canada Pension Plan Account and Canada Pension Plan Investment Fund—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1983—*Concluded*

Interest on the operating balance on deposit with the Receiver General for Canada, credited at the end of each month, is based on the average daily balance for the preceding month at rates equal to the average yields at tender on three-month Treasury bills during the month in respect of which interest is paid, less ⅛ of 1 per cent. During the year, interest was credited at a weighted average rate of 12.94% (1982—17.21%).

5. Expenses

Expenses of the account represent the costs of administration charged for services provided by six federal government departments: National Revenue—Taxation (collection of contributions); National Health and Welfare (administration); Supply and Services (accounting and computer services); Public Works (accommodation); Employment and Immigration (assignment of social insurance numbers and maintenance of central index); and Insurance (actuarial services).

6. The Canada Pension Plan

The Canada Pension Plan is a compulsory and contributory social insurance plan which enables members of the labour force to acquire and retain protection for themselves and their families against loss of income due to retirement, disability or death. The Plan applies in all parts of Canada, except for the Province of Quebec which has a parallel plan.

Under existing arrangements, all benefits and all costs incurred in the administration of the Plan are financed by the contributions made by employees, employers and self-employed persons and the interest earned from the investment of funds.

The Plan is not designed to be fully funded on a private sector pension plan basis. However, if the Plan had been designed to be fully funded, the Chief Actuary has estimated, based generally on the same assumptions made in his December 31, 1977 report, that an amount of $147.9 billion would be required at December 31, 1982 to pay future benefits of all contributors and pensioners in the Plan at that time.

When the Plan was introduced, the combined employer-employee contribution rate was set at 3.6% of the contributory earnings with the understanding that this would be sufficient to meet the cost of benefits and administration for a certain period of time but not indefinitely. In the initial years, a fund would be built up from which resources would be used to purchase securities of the provinces and, to a much lesser extent, securities of Canada as described in Note 3. However, since inception of the Plan, it has been recognized that the 3.6% contribution rate would need to be raised at some point in the future.

Under the Plan, the Chief Actuary of the Department of Insurance is required to prepare an actuarial report on its operation and the state of the Account at least once every five years and to update the latest report whenever legislation affecting the Plan is introduced in the House of Commons. The most recent report, tabled in the House of Commons on December 18, 1978, indicated that if no changes were made to the combined employer-employee contribution rate of 3.6%, the annual cost of benefits and expenses would exceed the amount of annual contributions by the year 1985.

After 1985, a gradually increasing proportion of the interest would be needed to finance benefits and expenses, and no further funds, apart from the reinvestment of a portion of interest owed to the Account, would be available to the provinces as loans. The Account would continue to grow until 1992 when all of the interest would be needed to meet payments. If the increase in the contribution rate were delayed beyond 1992, the balance of the account would start to decline and by the year 2003, it would be exhausted. The contribution rate would then be required to be adjusted upwards, eventually reaching 8 to 9% by the year 2025.

While the Plan is administered by the Government of Canada, the Government does not have exclusive authority to effect changes to the Plan. Under existing legislation, any proposed enactment to alter the general level of benefits or the rate of contributions requires agreement by at least two-thirds of the 10 provinces having an aggregate of not less than two-thirds of the population, and a delay, before coming into force, to at least January 1 of the third year following the year in which notice of intention to make the change was laid before Parliament. However, this latter requirement has been waived on two occasions when changes to the Plan have been enacted.

A long-term financing philosophy for the Plan which will include the timing and rate of increase of the contribution rate is being considered by the provinces and the federal government.

Canada Employment and Immigration Commission relating to the Unemployment Insurance Account

AUDITOR'S REPORT

THE HONOURABLE JOHN ROBERTS, P.C., M.P.
MINISTER OF EMPLOYMENT AND IMMIGRATION

I have examined the balance sheet of the Canada Employment and Immigration Commission relating to the Unemployment Insurance Account as at December 31, 1982 and the statement of revenue, expenses and deficit for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Commission relating to the Unemployment Insurance Account as at December 31, 1982 and the results of its operations for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements, applied on a basis consistent with that of the preceding year.

As explained in Note 6 to the financial statements, the Commission recognizes that unidentified overpayments and underpayments still exist. The Commission, however, continues its efforts to improve internal control.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1982

1. Authority and objective

The Canada Employment and Immigration Commission, a departmental Crown corporation named in Schedule B to the Financial Administration Act, administers the Unemployment Insurance Act, 1971 as amended. The objective of the Act is to provide short-term financial relief and other assistance to eligible workers. The financial operations relating to this objective are reported through the Unemployment Insurance Account.

In the accounts of Canada, the Unemployment Insurance Account was established by Section 131 of the Act. All amounts received under the Act are deposited in the Consolidated Revenue Fund and credited to this account. Benefits and the cost of administration of the Act are paid out of the Consolidated Revenue Fund and charged to this account.

2. Accounting policies

(a) Premiums
Under Part IV of the Act, the Minister of National Revenue is responsible for collecting premiums from employers and employees. These premiums are recorded based on the estimate for the current year and include adjustments between actual and estimated premiums of prior years.

(b) Interest
Interest on the balance of the account with Receiver General for Canada and interest on advances from Canada are recorded on an accrual basis.

(c) Penalties
Penalties, levied pursuant to Section 47 of the Act, are recorded on an accrual basis.

(d) Benefits
Benefits represent warrants issued during the year less benefit overpayments identified by the Commission during the year and benefit repayments received and receivable under Section 142 of the Act.

(e) Administration
The costs of administration of the Act are determined by Regulation and are charged to the Account by the Commission.

(f) Government's share of benefits
The Government's share of benefits is recorded on an accrual basis.

3. Due from Claimants

	1982	1981
	(in thousands of dollars)	
Benefit overpayments and penalties receivable	60,882	54,329
Less: allowance for doubtful accounts	15,418	31,968
	45,464	22,361
Benefit repayments under Section 142 of the Act	72,700	34,950
	118,164	57,311

Uncollectable overpayments and penalties receivable written-off during the year under authority of Section 60(2) of the Unemployment Insurance Regulations amounted to $4.1 million (1981—$3.3 million).

In 1982, the method for calculating the allowance for doubtful accounts was revised in order to better reflect the historical collection experience. If the previous method had been used in 1982, the allowance for doubtful accounts, excess of expenses over revenue for the year and the deficit at end of the year would have been increased by $14.8 million.

4. Due to (from) Canada

	1982	1981
	(in thousands of dollars)	
Government's share of benefits	(34,333)	(58,909)
Premiums	18,067	(14,417)

Administration expenses	53,402	28,575
Benefit repayment receivable	(186)	
Other	41	511
	38,378	(50,304)

5. Long-term advances from Canada

Advances from Canada are made under Section 137 of the Act, by means of promissory notes which bear annual interest compounded semi-annually at rates varying from 10.375% to 16.375%. The principal of $1,990 million and accrued interest of $91.5 million are repayable at varying maturity dates during 1984.

Canada Employment and Immigration Commission relating to the Unemployment Insurance Account—*Concluded*

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1982—*Concluded*

6. Overpayments and underpayments of benefits

The Commission is responsible for exercising the control necessary to ensure the initial and continuing eligibility of approximately 3.8 million individual claimants to whom benefits were paid in 1982, while providing prompt and efficient service to those who are entitled to receive benefits under the Act.

Because of the large number of claimants to be monitored and the requirement for prompt service, internal control procedures are selective rather than universal in application and the Commission relies mainly on the verification of claims after claimants have begun to receive benefits. It is therefore possible, and it was confirmed by previous studies, that overpayments and underpayments of benefits not previously detected by the Commission exist.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1983

1. Authority and purpose

The Government Annuities Account was established in 1908 by the Government Annuities Act, R.S.C. c. G-6, and modified by the Government Annuities Improvement Act, S.C. 1974-75-76, c. 83.

The purpose of the Act was to assist individuals and groups of Canadians to provide for their later years by purchasing Government annuities. The Improvement Act increased the rate of return on Government annuity contracts, increased their flexibility and discontinued future sales.

The Account is administered by the Canada Employment and Immigration Commission and operates through the Consolidated Revenue Fund.

2. Significant accounting policies

(a) Basis of accounting
The accounts of the Government Annuities Account are maintained on an accrual basis.

(b) Unpaid annuities
In accordance with Section 15 of the Acts, and with the Government Annuities Regulations, unpaid annuities comprise: (i) in respect of unmatured annuities, accumulated premiums and accrued interest, and (ii) in respect of matured annuities, the present value of such annuities actuarially determined on the basis of such rate or rates of interest and mortality tables as is prescribed.

(c) Actuarial surplus due to Canada
If at the end of any fiscal year the recorded amount of unpaid annuities exceeds or is less than the calculated amount of unpaid annuities, the difference results in an actuarial surplus or deficit which is charged or credited to the Government Annuities Account within the Consolidated Revenue Fund.

(d) Interest from Canada
Interest from Canada is calculated annually on unpaid annuities, at a rate of seven per cent, as required by the Improvement Act.

(e) Unclaimed annuities
Unclaimed annuities represent amounts transferred to the Consolidated Revenue Fund in respect of annuities that could not be paid because the annuitants could not be located.

3. Services provided without charge

Administrative services are provided to the Account by the Canada Employment and Immigration Commission without charge.

For the year ended March 31, 1983, the cost of these services amounted to $3,432,000 (1982—$3,258,000), including amounts for services provided without charge by other Government departments to the Commission.

Government Annuities Account

AUDITOR'S REPORT

THE HONOURABLE LLOYD AXWORTHY, P.C., M.P.
MINISTER OF EMPLOYMENT AND IMMIGRATION

I have examined the balance sheet of the Government Annuities Account as at March 31, 1982 and the statements of revenues and expenditures, and unpaid annuities for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Account as at March 31, 1982 and the results of its operations for the year then ended in accordance with the provisions of the Government Annuities Acts and Regulations and generally accepted accounting principles applied on a basis consistent with that of the preceding year.

1. Authority and purpose

The Government Annuities Account was established in 1908 by the Government Annuities Act, R.S.C., c. G6, and modified by the Government Annuities Improvement Act, S.C. 1974-75-76, c. 83.

The purpose of this legislation was to assist individuals and groups of Canadians to provide for their later years by purchasing Government annuities. The Improvement Act, assented to on December 20, 1975, increased the rate of return on Government annuity contracts, increased their flexibility and discontinued future sales.

The Account is administered by the Canada Employment and Immigration Commission and operates through the Consolidated Revenue Fund.

2. Significant accounting policies

(a) Basis of accounting
The accounts of the Government Annuities Account are maintained on an accrual basis.

(b) Unpaid annuities
In accordance with Section 15 of the Government Annuities Improvement Act, and with the Government Annuities Regulations, unpaid annuities comprise: (i) in respect of unmatured annuities, accumulated premiums and accrued interest, and (ii) in respect of matured annuities, the present value of such annuities actuarially determined on the basis of such rate or rates of interest and mortality tables as is prescribed.

(c) Actuarial surplus due to Canada
If at the end of any fiscal year the calculated amount of unpaid annuities exceeds or is less than the recorded amount of unpaid annuities, the difference results in an actuarial deficit or surplus which is credited or charged to the Government Annuities Account within the Consolidated Revenue Fund.

(d) Interest revenue
Interest revenue is calculated annually on unpaid annuities, at a rate of seven per cent, as required by the Government Annuities Improvement Act.

(e) Unclaimed annuities
Unclaimed annuities represent amounts transferred to the Consolidated Revenue Fund in respect of annuities that could not be paid because the annuitants cannot be located.

3. Services provided without charge

Administrative services are provided to the Account by the Canada Employment and Immigration Commission without charge.

For the year ended March 31, 1982, the cost of these services amounted to $3,258,000 (1981—$3,499,000), including amounts for services provided without charge by other Government departments to the Commission.

Royal Canadian Mounted Police (Dependants) Pension Fund

AUDITOR'S REPORT

THE HONOURABLE ROBERT KAPLAN, P.C., M.P.
SOLICITOR GENERAL

I have examined the statement of receipts and disbursements and fund balance of the Royal Canadian Mounted Police (Dependants) Pension Fund for the year ended March 31, 1983. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the receipts and disbursements of the Fund and its balance for the year ended March 31, 1983 in accordance with the basis of accounting set out in Note 2 to the financial statement, applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1983

1. Authority and operations

The Royal Canadian Mounted Police (Dependants) Pension Fund was established in 1934 by the Royal Canadian Mounted Police Pension Continuation Act. The Act provides for members of the Force, other than commissioned officers, appointed before March 1, 1949, to purchase certain survivorship benefits for their dependants by payment of specified contributions. All transactions of the Fund are made through the Consolidated Revenue Fund. The Fund is to be credited with these contributions together with interest computed quarterly on the balance to the credit of the Fund at the end of the preceding quarter, and charged with contributions withdrawn and pensions.

Section 56 of the Act directs the Minister of Finance to have an actuarial examination of the Fund made at least once every 5 years. If the actuarial valuation discloses a surplus, the Governor in Council may, by order, increase pensions. If there is an actuarial deficiency, the Governor in Council may direct that there be credited to the Fund, out of any unappropriated moneys in the Consolidated Revenue Fund, such amount as may be required to re-establish solvency of the Fund.

2. Basis of accounting

All transactions of the Fund are accounted for on a cash basis.

3. Supplementary information

The most recent actuarial examination was made as at March 31, 1980. The valuation disclosed an actuarial surplus of $1,730,000 of which $1,048,000 was allocated to increased pensions, retroactive to January 1, 1980.

OTHER LIABILITIES

This section contains information on accounts reported on the Statement of Assets and Liabilities under "Other Liabilities". The establishment and operation of these accounts is authorized by Parliament in annual appropriation acts and other legislation.

Some tables in this section present the continuity of each account, by showing the opening and closing balances, as well as receipts and other credits, and payments and other charges, i.e. inflow and outflow of transactions. In addition, the term "account(s) without current transactions" has been included in some tables, to provide a link with figures published in the previous year's edition of the Public Accounts, and to show net transactions in accounts which were closed out in the previous year.

Table 9.1 presents the year-end balances for other liabilities.

Interest due

Interest due is the amount of interest on the bonded debt, which is payable by coupon but for which the coupons have not been presented for payment.

Interest accrued

Interest accrued is the amount of interest accumulated as at March 31 on the bonded debt and certain liabilities, that is not due and payable until some future date.

Provision for compound and bonus interest on Canada savings bonds

This account records the amount estimated and set aside each year, to meet future obligations for additional interest payments, in accordance with the term of the issues, to holders of certain Canada savings bonds with special interest features.

Matured debt payable in Canadian dollars

This account records the financial obligations represented by certificates of indebtedness issued by the Government of Canada, that have become due but that have not as yet been presented for redemption. Unclaimed matured bonds are transferred to non-tax revenue only when they remain unredeemed 15 years after the date of call or maturity, whichever is earlier; the minimum time before such a transfer is made is 5 years from the date of maturity.

Unamortized Discount on Treasury Bills

This account records the portion of the discount on outstanding Treasury bills which has not yet been charged to expenditure. The discount is amortized as an expenditure over the term of issue.

Accounts Payable

This account represents amounts owing at the year end pursuant to a contractual arrangement, or for work performed, goods received, or services rendered, relating to appropriations on which Parliament has imposed an annual ceiling.

Outstanding Cheques and Warrants

This account records the cheques and warrants issued but not yet presented for payment.

Table 9.3 presents a summary of the balances and transactions in this account.

Outstanding cheques

Cheques issued in Canadian dollars, and unpaid as at March 31, are recorded in this account. Cheques remaining outstanding for 10 years are transferred to non-tax revenue.

Cheques in foreign currencies are credited at the time of issue to the Government's cash account.

Warrants for hog and lamb premiums

The balance in this account represented outstanding unredeemed warrants.

During the year, the account was closed.

Imprest account cheques

Imprest account cheques issued prior to the current year and unpaid as at March 31 of the current year, with the exception of those outstanding for 10 years or more (which have been transferred to non-tax revenue), are recorded in this account. In the year, an amount of $13,181 was transferred to revenue.

Unemployment Insurance warrants

This account records outstanding Unemployment Insurance benefit warrants.

Eldorado Mining and Refining Limited—Unpresented capital stock

The liability of the Government of Canada for the value of the paid-up capital stock of the former company, which has not been redeemed at the close of the year, is recorded herein.

Miscellaneous departmental paylist deductions

Deductions from the salaries and wages of certain employees are credited to this account pending transmittal to the departments or agencies concerned.

Olympic account

This account records transactions in accordance with the Olympic Act. Payments and other charges to the account represent: (*a*) administrative, merchandising, distribution, promotion and other costs incurred by Canada in connection with the distribution and sale of olympic coins; (*b*) the net costs, as determined by the Minister of Finance, of any redemption of olympic coins; and, (*c*) amounts paid to the Olympic Corporation. Receipts and other credits represent: (*a*) proceeds less production costs derived by Canada from the issue and sale of olympic coins; and, (*b*) the amount of the net proceeds derived by Canada from the sale of olympic stamps and related postal products.

Contractors' and other holdbacks

Holdbacks debited to the relevant appropriations of the departments or agencies concerned, and credited to this account under Section 35 of the Financial Administration Act, are paid out in accordance with the contracts under regulations of the Treasury Board.

Suspense accounts

Accounts in which transactions are recorded temporarily, pending their ultimate disposition.

FOREIGN EXCHANGE ACCOUNTS

Foreign exchange accounts represent financial claims and obligations of the Government of Canada which are identified with Canada's foreign exchange operations. Financial claims and obligations denominated in foreign currencies are reported at the Canadian dollar equivalent at March 31. Net gains resulting from the translation of the net assets denominated in foreign currencies, to Canadian dollar equivalents as at March 31, are credited to revenue as premium and discount on exchange, and net losses are charged to budgetary expenditure as a statutory item of the Department of Finance.

Table 10.1 presents the continuity of each foreign exchange account, by showing the opening and closing balances, as well as receipts and other credits, and payments and other charges. It should be noted, however, that this table excludes unmatured debt payable in foreign currencies, amounting to $5,222 million as at March 31, 1983 ($4,405 million as at March 31, 1982); details relating to these obligations are presented in Section 11 of this volume.

Exchange Fund Account—Advances

This account records the moneys advanced from the Government of Canada to the Exchange Fund Account, in either Canadian or other currencies, for the purchase of gold, foreign currencies and securities, and Special Drawing Rights (SDRs).

The Exchange Fund Account is operated under the provisions of the Currency and Exchange Act. In accordance with this Act, audited financial statements for the Exchange Fund Account are prepared for each calendar year. These financial statements as at December 31, 1982, together with the Auditor General's report thereon, are found at the end of this section.

Table 10.2 shows advances to, and assets held by, the Exchange Fund Account as at March 31, 1983. Gold held by the Account is valued at 35 SDRs per fine ounce ($46.70 Cdn as at March 31, 1983 and $47.81 Cdn as at March 31, 1982).

In 1982-83, payments and other charges consisted of advances to the Exchange Fund Account in the amount of $35,337 million, and a valuation adjustment of $38 million. Receipts and other credits consisted of repayments of advances of $33,286 million, and a valuation adjustment of $99 million.

International Monetary Fund—Subscriptions

This account records the value of Canada's quota (i.e., subscription assigned) in the capital of the International Monetary Fund (IMF).

The amount by which the sum of Canada's subscriptions and loans to the IMF, under special facilities, exceeds the IMF's holdings of Canadian dollars represents the amount of foreign exchange which Canada is entitled to draw from the IMF on demand, for balance of payments purposes. The subscription is expressed in terms of the SDR, a unit of account defined in terms of a "basket" of five major currencies.

Canada has accumulated its subscriptions through settlements to the IMF in Canadian dollars, gold and SDRs. Annual maintenance of value payments are made to, or received from, the IMF when the Canadian dollar depreciates or appreciates against the SDR, in order to maintain the SDR-value of the IMF's holdings of Canadian dollars. In 1982-83, receipts and other credits consisted of a maintenance of value transaction of $79 million, while payments and other charges consisted of a valuation adjustment of $15 million.

International Monetary Fund—Notes Payable

This account records non-marketable, non-interest bearing notes issued by the Government of Canada to the IMF. These notes are payable on demand and are subject to redemption or re-issue, depending on the needs of the IMF for Canadian currency.

Canadian dollar holdings of the IMF include these notes and a small working balance (initially equal to one-quarter of one percent of Canada's subscription) held on deposit at the Bank of Canada. In 1982-83, notes payable to the IMF decreased by $44 million.

Special Drawing Rights

This account records the value of SDRs allocated to Canada by the IMF. The Special Drawing Right is an international currency created by the IMF, and allocated to countries participating in its Special Drawing Rights Department. It represents a liability of Canada, as circumstances could arise whereby Canada could be called upon to repay these allocations, in part or in total.

As an asset, SDRs represent rights to purchase currencies of other countries participating in the IMF's Special Drawing Rights Department, as well as to make payments to the IMF itself. All SDRs allocated to Canada by the IMF have either been used to settle subscriptions in the IMF, or have been advanced to the Exchange Fund Account.

There was no allocation of SDRs by the IMF to Canada during the year. In 1982-83, payments and other charges consisted of a valuation adjustment of $25 million.

SUPPLEMENTARY STATEMENT

Exchange Fund Account

AUDITOR'S REPORT

THE HONOURABLE MARC LALONDE, P.C., M.P.
MINISTER OF FINANCE

I have examined the balance sheet of the Exchange Fund Account as at December 31, 1982 and the statement of income for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Account as at December 31, 1982 and the results of its operations for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements, applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, the accounting policies of the Account in respect of the valuation of gold and accounting for the realized gains on sales of gold are not in accordance with Section 16 of the Currency and Exchange Act. Gold is recorded at its approximate historical cost and not adjusted to its commodity market value as required, in my opinion, by Section 16. As a result, income does not include unrealized valuation gains on gold equal to the difference between commodity market value and approximate historical cost. Realized gains on sales of gold are recorded as valuation gains and taken into income in equal amounts over a three year period. In my opinion, Section 16 requires that these gains be entirely taken into income of the year and, therefore, paid over to the Consolidated Revenue Fund within three months after the end of the year. Officials of the Department of Finance have prepared proposed amendments to the Act to provide explicit authority for the accounting policies currently being followed by the Account.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1982

1. Authority and objective

The Exchange Fund Account was established pursuant to the Exchange Fund Act, S.C. 1935, c. 60, continued by the Foreign Exchange Control Act, S.C. 1946, c. 53 and further continued and governed by Part II of the Currency and Exchange Act (the Act), R.S.C. 1970, c. C-39, as amended. The Account is in the name of the Minister of Finance and is administered by the Bank of Canada as fiscal agent. The Account is funded by advances from the Consolidated Revenue Fund (CRF) and the annual income is payable to the CRF within three months after the end of the year.

The Account is the principal repository of Canada's official international reserves, which, as defined by the Minister, also include certain foreign assets of both the Bank of Canada and the CRF.

The main objective of the Account is to aid in the control and protection of the external value of the Canadian dollar and the Minister acquires for the Account those assets which are deemed appropriate for this purpose in accordance with the Act.

2. Accounting policies

Valuation of assets

US Government securities, Special Drawing Rights (SDRs) and International Monetary Fund notes are recorded at cost and adjusted for amortized premiums and discounts where applicable, and include accrued interest. Gold is recorded at 35 SDRs per fine ounce, which approximates its historical cost. Cash and short-term deposits include accrued interest where applicable.

Translation of foreign currencies and SDRs

Assets and liabilities denominated in foreign currencies are translated into Canadian dollars at the year-end exchange rates in the Canadian foreign exchange market. Assets and liabilities denominated in SDRs are first translated into US dollar equivalents at the year-end US dollar value of the SDR, as calculated by the International Monetary Fund, and then into Canadian dollars. Investment income in foreign currencies is translated into Canadian dollars at the foreign exchange rates prevailing at the date the income is recorded. The assets and liabilities denominated in foreign currencies and SDRs have been translated into Canadian dollars at the following year-end exchange rates:

	1982	1981
US dollar	1.2288	1.1855
Deutsche mark	0.5188	0.5292
Swiss franc	0.6158	0.6641

Exchange Fund Account—*Continued*

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1982—*Continued*

Investment income

Investment income is recorded on an accrual basis and includes interest earned, amortization of premiums and discounts, and gains and losses on the sale of securities.

Valuation gains and losses

Valuation gains and losses include the increases and decreases in the value of assets and liabilities arising from the translation of foreign currencies and SDRs during the year and at year-end. Valuation gains and losses also include gains or losses on transactions in foreign currencies, SDRs and gold, and on the liquidation of liabilities. In accordance with the provisions of the Act, valuation gains and losses for the year are taken into income in three equal portions over the current and two succeeding years.

Operating expenses

The Bank of Canada provides, without charge, the administrative, custodial and fiscal agency services to carry out the objectives of the Account. Other expenses incurred in the operation of the Account are charged against investment income.

3. Cash and short-term deposits denominated in US dollars

Estimated market value:

1982—US $795.0 (Cdn $976.9)
1981—US $2,129.6 (Cdn $2,524.6)

5. Special Drawing Rights

Special Drawing Rights (SDRs) were created by the International Monetary Fund (IMF) to supplement international reserve assets. SDRs are allocated to member countries in proportion to their quotas in the IMF and can be used in transactions between participants in the SDR Department of the IMF or in transactions with the IMF itself. The value of the SDR is calculated by the IMF as a weighted average of the market values of five major currencies. At December 31, 1982 one SDR was equivalent to US $1.10310 (1981—US $1.16396).

The liability of a member country to the IMF in respect of cumulative SDR allocations is the settlement obligation that would be incurred upon the termination of that country's participation in the SDR Department of the IMF or on the liquidation by the IMF of this Department. SDRs allocated to Canada by the IMF are advanced from the Consolidated Revenue Fund (CRF) to the Account; however, some SDRs have subsequently been returned to the CRF and used to pay part of Canada's increased subscription in the IMF.

The IMF pays interest on SDRs held and charges interest at an identical rate on the cumulative allocations. The interest rate is based on short-term money market rates in the countries whose currencies are used to calculate the value of the SDR. Interest paid by the IMF on SDRs held by the Account is included in investment income. Interest on Canada's cumulative allocations is charged directly to the CRF.

The following is a reconciliation between the IMF cumulative allocations of SDRs to Canada and the SDRs held by the Account:

	(in millions of SDRs) 1982	1981
Cumulative allocations to Canada	779.3	779.3
Less SDRs used to pay part of Canada's increased subscription in the IMF	169.6	169.6
Net advances to the Account	609.7	609.7
Less net sales	545.5	460.2
Held at the end of the year	64.2	149.5
Accrued interest	4.7	27.6
	68.9	177.1
	(in millions of US dollars)	
Held at end of the year	70.8	174.0
Accrued interest	5.2	32.1
	76.0	206.1

6. International Monetary Fund notes

	(in millions of SDRs) 1982	1981
Supplementary Financing Facility notes	12.7	12.7
Accrued interest	0.8	1.0
	13.5	13.7
	(in millions of US dollars)	
Notes	14.0	14.8
Accrued interest	0.9	1.1
	14.9	15.9

These notes represent Canada's participation in the Supplementary Financing Facility established to assist members of the IMF with balance of payments needs. The notes were acquired in 1979 and 1980 and had original terms to maturity of five years. They are redeemable on demand if Canada represents that it has a balance of payments need and are transferable to other members.

	782.5	833.7

Gold is recorded at 35 SDRs (US $38.61; 1981—US $40.74) per fine ounce. During the year, the market price of gold, as recorded at the London fixings, ranged from a low of US $296.75 (1981—US $391.25) per fine ounce to a high of US $488.50 (1981—US $599.25) and closed at US $448.00 (1981—US $400.00).

The Minister of Finance has authorized loans and/or sales, at market related prices, of part of the gold held by the Account, to the Royal Canadian Mint and others. At year-end the Account's gold holdings included gold loans of 292,000 (1981—626,000) fine ounces.

Advances from the CRF are limited to Cdn $10 billion by Order in Council dated March 1, 1979 and are not subject to interest.

The proceeds of Canada's borrowings in foreign currency and the IMF allocations of SDRs have been advanced in foreign currency and SDRs from the CRF to the Account. The borrowings include foreign bond and note issues and bank loans, as well as borrowings under Standby Credit Arrangements with Canadian and foreign banks. Redemptions of such borrowings are made using the resources of the Account. Interest payable by Canada on borrowings in foreign currencies is charged directly to the CRF.

9. Provision for valuation losses on uncompleted contracts

At year-end, the Account had outstanding short-term swap arrangements with the Bank of Canada as well as uncompleted foreign exchange transactions.

As the exchange rates on these uncompleted contracts differ from the year-end rates at which the Account's assets and liabilities are valued, additional valuation gains or losses will occur upon settlement. The provision for valuation losses on uncompleted contracts arises from the revaluation of such contracts using the year-end rates of exchange and represents the portion of such future losses attributed to the current year.

Under the swap arrangements with the Bank of Canada, the Account sells US dollars to the Bank and agrees to repurchase these amounts at the same exchange rates. These contracts are undertaken to assist in the Bank's management of chartered bank cash reserves. Swaps outstanding at year-end amounted to US $1,040.0 million (Cdn $1,286.8 million). There were no swaps outstanding at the end of 1981. Assets transferred to the Bank of Canada under swap arrangements remain part of Canada's official international reserves.

Unmatured debt represents financial obligations resulting from certificates of indebtedness issued by the Government of Canada that have not yet become due.

The Government's holdings of its own securities have been deducted from unmatured debt, to report the amount of the Government's liabilities to outside parties.

Some tables in this section present the continuity of each account, by showing the opening and closing balances, as well as issues and retirements, i.e. inflow and outflow of transactions. In addition, the term "account(s) without current transactions" has been included in some tables, to provide a link with figures published in the previous year's edition of the Public Accounts, and to show net transactions in accounts which were closed out in the previous year.

Marketable Bonds

Marketable bonds are interest-bearing certificates of indebtedness issued by the Government of Canada, and having the following characteristics:

—bought and sold on the open market;

—payable in Canadian or foreign currency;

—subject to call or redemption before maturity;

—have fixed dates of maturity;

—interest is payable either in coupon or registered form; and,

—face value is guaranteed at maturity.

Registered marketable bonds are transferable by endorsement and delivery by one holder to another. Bearer marketable bonds need not be endorsed.

Table 11.2 presents a summary of the balances and transactions for the marketable bonds. Since most of the marketable bonds are not subject to call or redemption before maturity, exceptions only are noted in the table.

The year-end balances of marketable bonds payable in foreign currencies were translated into Canadian dollars using the closing rates of exchange at March 31, 1983.

Canada Savings Bonds

Canada savings bonds are interest-bearing certificates of indebtedness issued by the Government of Canada, and having the following characteristics:

—issued to Canadian residents;

—registered in the name of the holder;

—have fixed date of maturity;

—non-marketable;

—redeemable on demand by the holder, with accrued interest calculated to the end of the previous month;

—not subject to call before maturity; and,

—term to maturity is seven years or more.

Certain series of Canada savings bonds include provisions for cash bonuses payable at maturity.

Table 11.3 presents a summary of the balances and transactions for Canada savings bonds.

Treasury Bills

Treasury bills are short-term certificates of indebtedness issued by the Government of Canada to pay a sum of money on a given date, and having the following characteristics:

—issued at a discount in lieu of interest payments;

—maturity: 3 months, 6 months and 12 months;

—issued in Canadian currency only;

—transferable; and,

—bought and sold on the open market.

Three-month and six-month bills are usually issued weekly, while other bills are issued every four weeks, usually for periods of one year or less.

The balance at March 31, 1983 consists of $13,725 million in three-month bills; $10,625 million in six-month bills; and, $4,775 million in 364-day bills.

Table 11.5 presents a monthly summary of Treasury bill issues and redemptions.

Notes and Loans Payable in Foreign Currencies

This account records borrowings by the Government of Canada under agreements with banks in Canada, United States, Germany, Switzerland and Japan.

Transactions during the year consisted of issues and retirements in United States dollars, retirements in Deutsche marks, and valuations of all year-end balances. The balances at March 31, 1983 consist of:

—$750,000,000 US ($927,825,000 Cdn) five year loan from international banks;

—500,000,000 SF ($297,150,000 Cdn) three year loan and 400,000,000 SF ($237,720,000 Cdn) five year loan, from Swiss banks; and,

—35,000,000,000 Yen ($181,090,000 Cdn) ten year loan and 35,000,000,000 Yen ($181,090,000 Cdn) twenty year loan, from Japanese banks.

The foreign currency balances were translated into Canadian dollars using the year-end closing rates of exchange at March 31, 1983.

Table 11.6 presents a summary of the balances and transactions for the notes and loans payable in foreign currencies.

Interest Rates

Table 11.7 sets out unmatured debt at March 31, for each of the years 1978-79 to 1982-83 inclusive, with the average rate of interest thereon. For purposes of comparison, the unmatured debt is classified as to marketable bonds, non-marketable bonds (include Canada savings bonds and the Canada Pension Plan Investment Fund), Treasury bills, and notes and loans payable in foreign currencies.

Interest rates on new issues of marketable bonds payable in Canada varied from a low of 9.75% to a high of 18% during the year.

OTHER ACCOUNTS REPORTED ON THE STATEMENT OF ASSETS AND LIABILITIES

This section contains information on accounts reported on the Statement of Assets and Liabilities, which are not included elsewhere in this volume. These accounts are:

—cash in transit;
—cash;
—fixed assets;
—accumulated deficit; and,
—contingent liabilities.

Cash in Transit

Table 12.1 presents a summary of the balances and transactions for cash in transit.

Cash in hands of collectors and in transit

This account records public moneys received by public officers prior to the closing of the accounts, as at March 31, but not deposited to the credit of the Receiver General for Canada in the Bank of Canada, until after that date.

Moneys received after March 31 but applicable to the current year

Public moneys received after March 31, but applicable to the year ended on that date, are recorded in this account.

This account includes refunds of old year expenditure received prior to the closing of the accounts, and receipts to be credited to asset, liability, and (in exceptional cases) revenue accounts, where the omission of the credits in the old year would tend to make the accounting incomplete or inconsistent.

Cash

The Government's cash account represents public moneys on deposit at March 31, to the credit of the Receiver General for Canada, with banks and other financial institutions.

The cash position of the Government is affected not only by budgetary operations, but also by non-budgetary, foreign exchange and unmatured debt operations, all of which must be taken into account when considering the full scope of the Government's financial operations.

Table 12.2 presents a summary of the balances and related transactions in current and special Receiver General deposits. Transactions represent receipts and disbursements.

The year-end balances in foreign currencies have been translated into Canadian equivalents at the year-end closing rates of exchange. The foreign currencies held include United Kingdom pounds sterling, United States dollars, Belgian, Swiss and French francs, and West German marks.

Receiver General special deposits

These are balances in the hands of fiscal agents of the Government, for the purchase or redemption of Government securities, and for the payment of interest.

Fixed Assets

Fixed assets are tangible, durable items of value, including major additions or alterations thereto, from which benefits are expected to be derived during their useful lives.

The fixed assets of the Government, which include land, buildings, works and equipment, are charged to budgetary expenditure at the time of acquisition or construction, in accordance with the accounting policies of the Government of Canada which are described in Note 1 to the audited financial statements (Section 2 of this volume). Their existence, however, is acknowledged on the Statement of Assets and Liabilities by reporting them at the nominal value of $1.

Accumulated Deficit

The accumulated deficit is the account recording the net sum of annual deficits and surpluses of the Government of Canada since Confederation, together with certain amounts charged directly to this account. The accumulated deficit is also equal to the excess of recorded liabilities over net recorded assets.

Table 12.5 summarizes the account for the year.

Table 12.7 presents an analysis of the accumulated deficit account from Confederation to March 31, 1983. In recent years, there have been no direct charges made to the accumulated deficit account.

The accumulated deficit, in per capita terms and as a percentage of the gross national product, is shown in the following charts.

Contingent Liabilities

A contingent liability is a potential liability which may become an actual liability when one or more future events occur or fail to occur.

The Government of Canada as an accounting entity is defined as all the departments named in Schedule A of the Financial Administration Act; any division or branch of the Public Service, including a commission appointed under the Inquiries Act, designated by the Governor in Council as a department for purposes of the Financial Administration Act; the staffs of the Senate, the House of Commons, and the Library of Parliament; and, any corporation named in Schedule B of the Financial Administration Act.

In accordance with the above definition, the corporations named in Schedules C and D of the Financial Administration Act are excluded from the definition of the Government of Canada as an accounting entity. Information regarding their contingent liabilities as well as details of their borrowings from other than the Government of Canada can be found in Table 7.4—"Summary of the Financial Position of Agent Crown Corporations". In addition, some of these corporations operate insurance programs. Information regarding insurance programs can be found in Note 5 to the audited financial statements of the Government in Section 2 of this volume.

The contingent liabilities of the Government consist of explicit guarantees by the Government, i.e. borrowings by Crown corporations and other than Crown corporations which are not agents of Her Majesty, including borrowings guaranteed by bodies within the accounting entity under various acts and programs and explicit guarantees by the Government for loans, financial arrangements and other potential liabilities. They also consist of potential losses arising from pending and threatened litigation relating to claims and assessments in respect of breach of contract, damages to persons and property, and like items. Pending and threatened litigation is reported in total in the following table. This table is also summarized in Note 3 to the audited financial statements of the Government in Section 2 of this volume.

[1] Represents the average percentage over the most recent 5 years of net claims to the average amount of outstanding guarantees as at March 31, 1983.

[2] Amount denominated in a foreign currency and translated at the year-end closing rate of exchange.

[3] Committed guarantees exist for the following loans to be made: to Indians for on-reserve housing, $26,374,163—for Indian economic development, $72,240. As at March 31, 1983, no loans had been issued for these amounts.

[4] An agreement with Chrysler Canada Ltd. in the amount of $200,000,000, has been entered into with respect to future loan guarantees. As at March 31, 1983, no loans have been made under the above agreement and consequently no contingent liabilities exist.

A letter of comfort has been issued by the Minister of Transport to guarantee loans made to Ridley Terminals Incorporated. These loans are for the purpose of construction of a coal terminal and Parliamentary approval is being sought to guarantee a loan of up to approximately $185,000,000, representing 80% of the initial capital cost of the project. As at March 31, 1983, the total amount loaned to Ridley Terminals Incorporated was $71,192,000.

Three letters of comfort were issued by the Minister of Finance to the Bank of Canada in respect of loan guarantees issued by the Bank of Canada to the Bank for International Settlements. The loans were made by the Bank for International Settlements to provide short-term financing facilities to various countries. The Bank of Canada's potential liability as at March 31, 1983, was limited to US $240,000,000 of which US $184,286,000 was outstanding. As at September 15, 1983, US $34,286,000 remains outstanding.

[5] The Act places limits on the maximum amount of guarantee for loans made by eligible lenders over different loan periods. The maximum amount of guarantee per lender is expressed in legislation as a percentage of aggregate loans made to qualified borrowers and varies depending upon the dollar value range of aggregate loans made by the lender. The authorized limits for given loan periods are included in the figure reported until all qualified loans made by all eligible lenders in the given periods are no longer outstanding, and are not adjusted for loan repayments nor payments made by the Government for guaranteed amounts in which default has occured.

[6] Less than .1%.

[7] Maislin Transport Limited, a subsidiary of Maislin Industries Ltd, voluntarily filed a holding proposal under the Bankruptcy Act in Quebec Superior Court in July 1983, requesting a moratorium on payments to its creditors until October 31, 1983. Its subsidiaries in the United States have also filed similar proceedings in Detroit, Michigan. A decision was made at a meeting of creditors of Maislin Transport Limited held in August 1983, to reconvene in October 1983, to consider a plan of reorganization.

[8] Authorized limit for loan guarantees for on-reserve housing totals $150,000,000 (shown above) for loans made by the Canada Mortgage and Housing Corporation, the Farm Credit Corporation and other approved lenders.

[9] Authorized limit for loan guarantees for the development of a town at Strathcona Sound, Baffin Island totals $4,570,000 (shown above) for loans made by the Canada Mortgage and Housing Corporation and other approved lenders.

[10] An agreement has been entered into with an insurance company under the credit reinsurance program. However, as at March 31, 1983, no loans have been reinsured under the agreement. The amount of reinsurance outstanding under the credit reinsurance program shall not exceed $600,000,000.

[11] Includes $5,213,194 attributable to the Canadian Industrial Renewal Board.

[12] There have been no claims under the Nuclear Liability Act since its inception in 1970. The Act covers 15 Canadian nuclear installations as at March 31, 1983.

[13] The Post Office Department was converted to the Canada Post Corporation by an act of Parliament on October 16, 1981. As the financial statements, including the contingent liabilities of the Corporation, are not available at the time of printing, no amounts are included in this summary. Any contingent liabilities will be reported by the Corporation in its financial statements in future.

Remissions of less than $1,000	586,462
	36,487,039

Tariff items 41100—1, 42700—1, 42700—2, 42700—3, 42700—4, 42700—5, 42700—9, 42701—1, and 42701—2 provide that in the case of the importation into Canada of any goods enumerated in the items, the Governor in Council, on the recommendation of the Minister of Industry, Trade and Commerce, may, whenever he considers that it is in the public interest and that the goods are not available from production in Canada, remit the duty specified in these items applicable to the goods. Remissions of duty are less the duty applicable to the first $500 of value for duty in respect of each application. The following remissions were granted on the recommendation of the Minister of Industry, Trade and Commerce and the Treasury Board under the provisions of the tariff items, and represent customs duty on machinery and parts as described in the various remission orders and schedules thereto, the amounts shown representing that portion of the remission applicable to the machinery and parts imported during the period April 1, 1982 to March 31, 1983, inclusive:

TAXATION

Remissions of income tax:

	$
Berrey, Ellis Surrey, BC	10,113

PC 1982—4/2770 dated September 9, 1982, remits income tax of $2,729 for 1975 and $4,321 for 1976 plus relevant interest payable.

The taxpayer filed 1975 to 1978 income tax returns as self-employed but later reassessed on the basis of an employee.

The employment income was added to the original reported self-employed income which resulted in double taxation. The taxpayer corresponded with the Department but no action was taken and the 1975 and 1976 returns became statute-barred.

$

A remission has been recommended because of departmental error.

Burke, Patrick Arthur Ottawa, Ont

PC 1983—9/906 dated March 24, 1983, remits income tax of $5,455 and $2,789 plus relevant interest and penalties payable in respect of the 1971 and 1972 taxation year.

In 1973 the taxpayer was arbitrarily assessed for the 1971 and 1972 taxation years after he refused to file returns.

Subsequently, financial statements were submitted and accepted by the Department in which it showed that the arbitrarily assessed tax was substantially in excess of the actual tax owing.

The taxpayer has only a small amount of rental income and Old Age Pension and he is in poor health.

A remission has been recommended for the statute-barred 1971 and 1972 returns due to financial hardship.

Government and Long-Term Corporate Debt Obligations

PC 1983—99 dated January 13, 1983 remits income tax on interest income received by non-resident persons from residents of Canada in respect of government and long-term corporate debt obligations issued in 1983.

Income Averaging Annuity Contracts

PC 1982—2478 dated August 18, 1982 remits income tax and penalties in respect of income averaging annuity contracts for the 1981 taxation year.

Income Earned in the Province of Quebec Income Tax Remission Order, 1982

PC 1983—105 dated January 20, 1983 remits to certain individuals who are deemed to be resident in Canada, to non-residents who realized capital gains in Quebec and to Quebec residents who earned business income from a foreign source, the additional tax, interest and penalty arising both from the imposition of the 43 per cent federal surtax and from the loss of the federal tax abatement in respect of income earned in Quebec. This order is in respect of the taxation years 1979 to 1983 and subsequent years.

Isolated Posts Benefits and Allowances Amendment

PC 1983—299 dated February 3, 1983 is an amendment to extend the application of the Order to the 1982 taxation year in respect of benefits received under specified employment agreements.

Marathon Oil Company Findlay, Ohio, USA	888,590

PC 1982—8/3902 dated December 16, 1982, remits income tax of $888,590 in respect of the 1974 income tax year.

Due to an amendment to the Income Tax Act, the taxpayer was entitled retroactively to a reduction of 1974 Part XIV tax. In April, 1980, an amended 1974 return was filed but was misplaced in the District Office. The error was discovered after the 1974 return became statute-barred.

Because the taxpayer requested his refund before the 1974 return was statute-barred and the Department was in error in not acting upon the request, a remission is recommended.

Options North Program of the Province of Saskatchewan	
PC 1983—558 dated February 24, 1983, remits federal income tax payable on allowances and reimbursements paid under the Options North Program of the Province of Saskatchewan after March 31, 1978 and before January 1, 1981 in respect of the institutional training period under the Program and remits any interest and penalties payable on the income tax remitted.	
Sinclair, Doris Ladner, BC	1,993
PC 1982—5/3333 dated October 28, 1982 remits income tax of $1,362 plus relevant interest payable in respect of the 1976 taxation year.	
The taxpayer filed 1975 and 1976 returns declaring $5,723 and $8,654 respectively as T4 income. Due to a misunderstanding with the taxpayer, the Department reassessed the 1975 and 1976 returns deleting the T4 income. Using the total previous amounts less a business loss of $2,472 declared the business profits for 1976 as $11,905.	
The Department provided no detailed explanation when requested by the taxpayer in 1978 to do so. When the issue was again reviewed in 1981, the 1976 return was statute-barred.	
It has been ascertained that the actual business income for 1976 was $4,128 and that a remission is recommended due to departmental error.	
Stevens, Manuel Cornwall, Ont	2,214
PC 1983—4/319 dated February 3, 1983, remits income tax of $2,214 in respect of the 1980 income tax year.	
On August 15, 1979, employees of the Ontario regional office of Parks Canada were advised that their workplace was to be relocated from Cornwall to Peterborough in 1980. Treasury Board minute TB 766990, November 1979 authorized employee relocations in advance of official move date. On May 5, 1980 the Minister of the Environment rescinded the relocation and made a commitment to compensate employees for any costs.	
The taxpayer purchased a home in Peterborough on January 31, 1980. An amount of $10,241 was withdrawn from his RHOSP plan to finance the purchase. When the relocation was rescinded, the house was of no use and had to be sold without being occupied by the taxpayer.	
The losses suffered by the taxpayer were in the collapsing of the RHOSP plan as an individual may only have one plan per lifetime and in the fact that the funds withdrawn from the plan were subject to income tax as they were not used to purchase an owner—Occupied house.	
Western Steel Span Buildings Ltd St Vital, Man	
PC 1983—5/409 dated February 10, 1983, remits income tax of $2,798 plus relevant interest payable in respect of the 1974 taxation year.	
The taxpayer filed the 1975 return reporting a capital gain on disposition of depreciable and non-depreciable property.	
The capital gain was treated as an income gain on reassessment and a non-capital loss carried back to the 1974 taxation year was decreased.	
The company appealed the reassessment for 1975 and it was allowed by Consent Judgement. This 1975 return was reassessed but as the taxpayer neither objected to the 1974 reassessment nor filed a waiver, the Department had no authority to reassess in respect of the revised non-capital loss carried back.	
A remission was recommended for the statute-barred 1974 taxation year as the Department erred in their reassessing action.

Financial assistance given to railways by the Government of Canada in 1982-83 (with cumulative figures to March 31, 1982)

The 1952 Canadian National Railways Capital Revision Act stated that: The Minister shall include annually in the Public Accounts a summary statement of all assistance, including land grants, guarantees and capital subsidies but not including grants made pursuant to statutes for the relief of unemployment, that has at any time been given by the Government of Canada to each of (a) the National System (Canadian National Railway System), including its predecessor companies; (b) the Pacific Railways (Canadian Pacific Limited) as defined in the 1952 Canadian National Canadian Pacific Act, including its predecessor companies; and, (c) any other railway.

The following statement presents the budgetary and non-budgetary financial assistance showing annual and cumulative payments. Only individual payments of $25,000 or over are reported in this statement.

Railways have been interpreted to include the following for purposes of this statement: (i) for Canadian National Railways—all companies owned, operated or managed by Canadian National, (ii) for Canadian Pacific—only companies engaged in transportation, communications and hotel activities.

INTRODUCTION TO THE PUBLIC ACCOUNTS

Nature of the Public Accounts

The Public Accounts is the report of the Government of Canada prepared each fiscal year by the Receiver General as required by Section 55 of the Financial Administration Act.

The report covers the fiscal year of the Government, which ends on March 31, and is prepared from data contained in the accounts of Canada and from more detailed records maintained in departments and agencies. The accounts of Canada is the centralized record of the Government's financial transactions maintained by the Receiver General in which the transactions of all departments and agencies are summarized. Each department is responsible for agreeing its accounts to the control accounts of the Receiver General, and maintains detailed records of the transactions in those accounts.

The report covers the financial transactions of the Government during the year. In certain cases, parliamentary authority to undertake transactions was provided by legislation approved in earlier years. The report also includes the financial statements of those Crown corporations and other bodies whose accounts are maintained separately from the accounts of Canada. The financial year of a number of these corporations and other bodies is the calendar year rather than the fiscal year of the Government.

Format of the Public Accounts

The Public Accounts is produced in three volumes; **Volume I** presents a summary and analysis of the financial transactions of the Government while **Volume III** contains the financial statements of Crown corporations which are permitted by legislation to keep their own accounts.

Volume II presents the financial operations of the Government, segregated by department. It contains financial operations of individual departments and their associated agencies, and additional information and analysis.

(a) Departmental Financial Operations

In a fashion similar to the Estimates, Volume II uses a uniform set of statements to present each department's financial operations. In most respects, the level of detail is the same as in the Estimates and provides the following information:

(i) Use of Appropriations

This is the principal departmental statement. It is a summary of the use by department of both the budgetary and non-budgetary authorities given to them by Parliament in appropriation acts and other statutes. It displays, by program:

—the wording of the relevant appropriations or statutes;

—the amount authorized under each appropriation or statute;

—the total use made during the year of the authorized amounts;

—unexpended balances (amounts lapsed and carried forward) or amounts overexpended; and,

—the total use for the previous year.

(ii) Total Cost of Programs—Budgetary

This table shows the total calculated cost for each program, by adding to net expenditure, the imputed value of services provided by other departments, and of accommodation provided by the reporting department and by the Department of Public Works, and by deducting non-tax receipts credited to revenue.

The total calculated program cost is also reflected in the Estimates and in the Public Accounts in the "Programs by Activity" table.

(iii) Programs by Activity—Budgetary

This is a comparison of budgetary appropriations with actual expenditures and the imputed costs and revenues referred to in *(ii)*. The table displays total program expenditures by activity and type of vote, and total cost of programs by type of vote. It is related to the "Program by Activities" table displayed in the Estimates.

(iv) Grants and Contributions

This table displays details of amounts appropriated for grants and contributions, by class of recipients and by program, and the payments.

4000003

(v) Budgetary Expenditure by Program and Standard Object

This table presents net expenditure by standard object and relates to the "Objects of Expenditure" table shown in the Estimates.

(vi) Revenue

Each department displays summary and detailed statements of revenue collected as part of its operations.

(vii) Revolving Funds

The commercial orientation of a revolving fund is reflected in the balance sheet and statement of operations, or income and expenditure, presented each year. A revolving fund's minimum goal is the recovery of cost, and most commercial accounting conventions are used to measure cost.

(viii) Other Organizations

To further the objectives of the Government and of departments, various boards, agencies, commissions and accounts have been created by appropriation acts and other legislation. Financial statements for these organizations and accounts are also shown.

(b) Additional Information and Analysis

Further details of certain outlays are provided, in Volume II, to supplement the statements already presented. This supplementary information includes:

—accounts receivable and deletions (Section 31);

—professional and special services (Section 32);

—construction and acquisition of land, buildings, machinery and equipment (Section 33);

—payments of damage claims, ex gratia payments, Federal Court awards and nugatory payments (Section 34);

—selected miscellaneous payments and federal-provincial shared-cost programs by province (Section 35);

—grants and contributions (Section 36); and,

—miscellaneous statements by department (Section 37).

Summary Tables

The following tables provide summaries of the financial operations contained in the departmental sections.

Table 1 summarizes the appropriations and the use of appropriations. (This statement also appears in Section 2 of Volume I).

Table 2 summarizes by department the budgetary and non-budgetary appropriations and spending made under annual and non-lapsing appropriations and various statutory authorities.

Table 3 summarizes expenditure by department and by standard object.

Table 4 summarizes revenue by department and by main classification.

AGRICULTURE

Department

Objectives

ADMINISTRATION PROGRAM

—To provide overall direction and administrative support services for the department.

AGRI-FOOD DEVELOPMENT PROGRAM*

—To stimulate the development of the agri-food industry, to provide for a dependable and adequate supply of food at reasonable prices to consumers and to ensure stable and equitable returns to producers and processors.

AGRI-FOOD REGULATION AND INSPECTION PROGRAM

PROGRAM

—To ensure the continued supply of safe, high quality, nutritious food for the domestic and export trade.

RACE TRACK SUPERVISION REVOLVING FUND

—To protect the pari-mutuel betting public associated with horse racing.

CANADIAN GRAIN COMMISSION PROGRAM

—To provide quality assurance of Canadian grain in domestic and export markets in the interests of Canadian agriculture.

Canadian Dairy Commission

Objective

—To achieve a sound, healthy and viable dairy industry.

Canadian Livestock Feed Board

Objective

—To ensure the availability of adequate feed grain supplies and storage space to meet the needs of livestock feeders in Eastern Canada and British Columbia and to contribute to reasonable price stability for such supplies; to assist in equalizing feed grain prices to livestock feeders in Eastern Canada and in British Columbia.

Farm Credit Corporation

Objective

—To provide long-term mortgage credit to farmers and loans to syndicates of farmers and to perform operational and administrative functions related to the organization of Canadian agriculture into economic farm units in the hands of competent operators.

---

* During the year, duties of the Department of Regional Economic Expansion, under certain agreements, were transferred to this department.

Agricultural Products Board

AUDITOR'S REPORT

THE HONOURABLE EUGENE FRANCIS WHELAN, P.C., M.P.
MINISTER OF AGRICULTURE

I have examined the statement of operations of the Agricultural Products Board for the year ended March 31, 1983. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the results of the operations of the Board for the year ended March 31, 1983 in accordance with the accounting policies set out in Note 2 to the financial statement, applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENT
MARCH 31, 1983

1. Authority and objective

The Board which was established in 1951 and operates under the authority of the Agricultural Products Board Act, R.S., c. A-5, consists of a chairman and two members appointed by the Governor in Council.

The objective of the Board is to stabilize the prices of agricultural commodities through the purchase and sale of surplus commodities in times of depressed markets.

2. Accounting policies

Expenditure includes all amounts for work performed, goods received or services rendered prior to April 1. This basis is consistent with that followed by departments of the Government of Canada. An estimated amount for services provided without charge by government departments is included in administration expenses.

Revenue is recorded on a cash basis, consistent with that followed by departments of the Government of Canada, and is credited directly to the Consolidated Revenue Fund.

NOTES TO FINANCIAL STATEMENT
MARCH 31, 1983

1. Authority and objectives

The Board which was established in 1957 and operates under the authority of the Agricultural Stabilization Act, R.S., c. A-9 consists of three members appointed by the Governor in Council.

The objectives of the Board are to stabilize the prices of agricultural commodities in order to assist the industry of agriculture to realize fair returns for its labour and investment and to maintain a fair relationship between prices received by farmers and the costs of goods and services that they buy.

2. Accounting policies

Expenditure includes all amounts for work performed, goods received or services rendered prior to April 1. This basis is consistent with that followed by departments of the Government of Canada.

An estimated amount for services provided without charge by government departments is included in administration expenses.

Employee termination benefits accrue to employees over their service period. Payments of these benefits are made to the employees on separation or retirement and are expensed by the Board when paid.

Refunds of prior years' expenditure, relating to overpayments of deficiency payments, are recorded on a cash basis and are applied to reduce the cost of the applicable programs.

3. Financing

Payments to the Canadian Dairy Commission and deficiency payments are provided for by:

NOTES TO FINANCIAL STATEMENT FOR THE YEAR ENDED MARCH 31, 1983

1. Authority and objectives

The Canadian Grain Commission was established under Section 3 of the Canada Grain Act (1970) to establish and maintain standards of quality for Canadian grain and regulate grain handling in Canada, to ensure a dependable commodity for domestic and export markets.

2. Accounting policies

Revenue

Revenue is recorded on a cash basis in accordance with Government of Canada accounting policies. Revenue is credited directly to the Consolidated Revenue Fund.

Expenditure

Expenditure includes all amounts for work performed, goods received or services rendered prior to April 1, 1983. This basis is in accordance with Government of Canada accounting policies. Operating expenditure also includes services provided without charge by government departments.

3. Parliamentary appropriations

Race Track Supervision Revolving Fund

MANAGEMENT REPORT

The accompanying financial statements of the Race Track Supervision Revolving Fund have been prepared as required by and in accordance with the policy of the Treasury Board on revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity of the data in these statements rests with the management of the Fund.

These financial statements were prepared in accordance with stated accounting policies on a basis consistent with that of the preceeding year. Information presented herewith is consistent with that presented elsewhere in the Public Accounts and in departmental reports. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities and are properly recorded to maintain accountability of Government funds and safeguard the Fund's assets. The Fund maintains a set of accounts which provides a centralized record of the Fund's financial transactions.

The department's Finance Directorate develops and disseminates financial management and accounting policies and issues specific directives to the staff managing the Revolving Fund in order to maintain standards of accounting and financial management.

Financial management and internal control of the Fund are maintained through the appropriate division of responsibility, the provision of leadership and evaluation of those operating the Fund as well as internal audit programs.

Race Track Supervision Revolving Fund—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1983

1. Authority and purpose

The Race Track Supervision Revolving Fund was established under Appropriation Act No. 1, 1970, which authorized the operation of the Fund in the current and subsequent fiscal years in accordance with terms and conditions prescribed by Treasury Board for the purpose of providing race track supervision in Canada.

The Fund has a continuing non-lapsing authority from Parliament to make payments out of the Consolidated Revenue Fund for working capital, capital acquisitions and temporary financing of accumulated operating deficits, the total of which is not to exceed $2,000,000 at any time. During the year, the authority was increased from $200,000 to $2,000,000 by Vote 16c. An amount of $879,798 representing net liabilities assumed by the Fund was charged to this authority when the Fund became budgetary in 1981.

Charges to the Fund are to include administration expenses of race track supervision and costs of research relating to the use of drugs on horses and race surveillance techniques including the publication, distribution and sale of the results of such research. All revenues from activities approved by Treasury Board are to be credited to the Fund.

2. Significant accounting policies

(a) Fixed assets

Fixed assets, acquired from parliamentary appropriations prior to April 1, 1970, are recorded in the Fund in accordance with Treasury Board Circular 1970-7 at values determined as at that date by officers of the Department. Subsequent acquisitions are recorded in the Fund at cost and are depreciated from the year of the acquisition on a straight line basis over their estimated useful lives as follows:

Furniture and equipment	10 years
Electronic data processing equipment	5 years
Automotive	3 years
Buildings	25 years

(b) Pension plan

Employees of the Race Track Division operating the Supervision Revolving Fund are covered by the Public Service Superannuation Act and the Supplementary Retirement Benefits Act. The Government of Canada's portion of the pension cost is included in the employee fringe benefit charge assessed against the Fund. The actual payment of the pension is made from the Public Service Superannuation Account and Supplementary Retirement Benefits Account.

3. Fixed assets and accumulated depreciation

Fixed assets	Balance at beginning of year	Acquisitions	Disposals	Balance at end of year
	$	$	$	$

Buildings	7,325	6,978		14,303
	183,680	93,754	55,167	222,267

4. Vacation pay

The accrued liability on the Balance Sheet of $182,037 represents the amount of vacation pay credits outstanding as at March 31, 1983. An amount of $20,433 has been added as an expense on the Statement of Operations.

5. Provision for employee termination benefits

Employees leaving Government service generally receive termination benefits at the rate of one week's pay for each complete year of continuous service to a maximum of twenty eight week's pay. However, upon resignation, benefits are generally payable only to those with ten or more years of continuous service and the entitlement is reduced to one half week's pay for each year of continuous employment to a maximum of thirteen weeks' pay.

The provision of $194,560 as at March 31, 1983 consists of one half week's pay at current salary rates for each complete year of service to a maximum of thirteen weeks' pay.

6. Restatement of prior year figures

For comparative purposes, the 1982 figures have been restated to conform with the 1983 presentation.

Canada Council

AUDITOR'S REPORT

THE HONOURABLE FRANCIS FOX, P.C., M.P.
MINISTER OF COMMUNICATIONS
AND
MEMBERS OF THE CANADA COUNCIL

I have examined the balance sheets of the Endowment Account and Special Funds of the Canada Council as at March 31, 1983 and the statements of revenue and expenditure and equity of the Endowment Account and Special Funds for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Council as at March 31, 1983 and the results of its operations for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements, applied on a basis consistent with that of the preceding year.

RAYMOND DUBOIS, C.A.
Deputy Auditor General
for the Auditor General of Canada

Ottawa, Ontario
June 17, 1983

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1983

1. Authority and objectives

The Canada Council was established by the Canada Council Act in 1957 which authorized the creation of an Endowment Fund of $50,000,000. It is not an agent of Her Majesty. The objectives of the Council are to foster and promote the study and enjoyment of, and the production of works in the arts and, in particular, but without limiting the generality of the foregoing, the Council may, in furtherance of its objectives:

(a) assist, co-operate with and enlist the aid of organizations, the objectives of which are similar to any of the objectives of the Council;

(b) provide, through appropriate organizations or otherwise, for grants, scholarships or loans to persons in Canada for study or research in the arts in Canada or elsewhere or to persons in other countries for study or research in the arts in Canada;

(c) make awards to persons in Canada for outstanding accomplishment in the arts;

(d) arrange for and sponsor exhibitions, performances and publications of works in the arts;

(e) exchange with other countries or organizations or persons therein knowledge and information respecting the arts; and

(f) arrange for representation and interpretation of Canadian arts in other countries.

2. Accounting policies

(a) Basis of accounting

Revenue and expenditure are recorded on an accrual basis except for dividends and employee termination benefits which are recorded on a cash basis.

(b) Investments

Bonds, debentures, equities and mortgages are valued at cost.

(c) Gains and losses on disposal of investments

Net gains on disposal of investments are credited to the Fund capital—Accumulated net gains on disposal of investments. Net losses on disposal of investments are charged against this account to the extent of the balance available in the Account. In the event that losses exceed the balance available in the Account, the excess is recorded as to expenditure in the year of realization.

(d) Participation in Endowment Account's investment transactions

The portfolios of three Special Funds (Killam Special Scholarship Fund, Molson Prize Fund and Lynch-Staunton Fund) were merged on October 1, 1980 with the portfolio of the Endowment Account. The participation of each Fund is calculated on the basis of market value. Quarterly adjustments are made to take into consideration any capital withdrawals and additional investments. Interest earned and dividends received and realized gains or losses on disposal of investments are allocated to each Fund based on the percentages established at the beginning of each quarter.

(e) Appropriation to reserve

The Council has established a reserve to reduce the erosion of value of the original endowment due to inflation. Appropriations to this reserve are approved by the Council.

(f) Capitalization of net income of Special Funds

The Council capitalizes 10% of the revenue less administration expenditure of the Izaak Walton Killam Memorial Fund for Advanced Studies and the Killam Special Scholarship Fund, in accordance with advice received from the trustees of these Funds in order to preserve the equity of these Funds for future beneficiaries. However, for the purposes of the Funds, the Council reserves the right to draw at any time on the accumulated net income capitalized.

(g) Grants

Grants approved by the Council are recorded as expenditure in the year determined by the Treasurer in consultation with the Arts Division. Cancelled grants, approved in previous years, and refunds are shown as revenue in the Endowment Account. For the Special Funds, such items are deducted from the grants expenditure.

(h) Works of art

Purchases of works of art are recorded as expenditure in the year of acquisition.

(i) Furniture and equipment

Purchases of furniture and equipment are shown as administration expenditure in the year of acquisition.

(j) Special Funds

Except for the parliamentary grant, all monies or properties received by the Council pursuant to Section 20 of the Canada Council Act are accounted for as Special Funds.

6. Bequests and gifts

(a) Izaak Walton Killam Memorial Fund for Advanced Studies

A bequest of $12,339,615 in cash and securities was received from the estate of the late Mrs. Dorothy J. Killam for the establishment of the Izaak Walton Killam Memorial Fund for Advanced Studies "to provide scholarships for advanced study or research at universities, hospitals, research or scientific institutes, or other equivalent or similar institutions both in Canada and in other countries in any field of study or research other than the 'arts' as presently defined in the Canada Council Act and not limited to the 'humanities and social sciences' referred to in such Act".

The bequest contains the following provisions: "the Fund shall not form part of the Endowment Account or otherwise be merged with any assets of the Council"; and "in the event that the Canada Council should ever be liquidated or its existence terminated or its powers and authority changed so that it is no longer able to administer any Killam Trust, the assets forming any such Killam Trust shall thereupon be paid over to certain universities which have also benefited under the will".

The cash and securities received and the proceeds have been invested in a separate portfolio.

(b) Killam Special Scholarship Fund

A gift of $4,353,609 was received from the estate of the late Mrs. Dorothy J. Killam for the establishment of a Special Scholarship Fund. The gift consisted of preferred shares in a Canadian company redeemable over a period of years. To March 31, 1983, the Council has received proceeds from the redemption of these preferred shares amounting to $3,133,338 including $686,402 redeemed during the year (1982—$211,852). The unredeemed portion of $1,220,271 is recorded as an investment-Special Funds at a nominal value of $1. These proceeds have been invested and the income therefrom is available to provide fellowship grants to Canadians for advanced study or research in the fields of medicine, science and engineering at universities, hospitals, research or scientific institutions or other equivalent or similar institutions in Canada.

The Fund also includes common shares in a company whose major assets have been sold. The Council's share of the proceeds of the sale is approximately $9,000,000 and is expected to be received over the next two years.

(c) Molson Prize Fund

Gifts of $900,000 were received from the Molson Foundation for the establishment of the Molson Prize Fund. The income of the fund is used for awarding cash prizes to Canadians "for outstanding achievement in the fields of the Arts, the Humanities or the Social Sciences that enriches the cultural or intellectual heritage of Canada or contributes to national unity". The value of each prize is $25,000 or as determined by the Council, without restriction as to its use by the recipient.

(d) Lynch-Staunton Fund

An unconditional bequest of $699,066 was received from the estate of the late V.M. Lynch-Staunton. A fund was established, the income from which is available for the regular programmes of the Council.

(e) John B.C. Watkins Estate

A bequest was received of the net income from the residue of the estate of the late John B.C. Watkins, which assets are held in perpetuity by a trust company. The net income is to be used "for the establishment of scholarships to be awarded to graduates of any Canadian University who may apply therefore for the purpose of engaging in post graduate studies in Denmark, Norway, Sweden or Iceland and who shall be selected for their outstanding worth or promise by a committee appointed by the Canada Council". The bequest is recorded as an investment-Special Funds at a nominal value of $1.

(f) J.P. Barwick Estate

A bequest of what may amount to $31,500 was made by the late J.P. Barwick. The payment of the bequest is to be postponed during the lifetime of the surviving beneficiary of the residue of the estate. The bequest to the Council is "on condition that such bequest shall be applied only for the benefit of the musical division of the arts and for the encouragement of the musical arts to increase the Council's normal budget in the musical division or field of the arts". The bequest is recorded as an investment-Special Funds at a nominal value of $1.

(g) Edith Davis Webb Estate

A bequest of what may amount to $400,000 was made by the late Mrs. Edith Davis Webb. The payment of the bequest is to be postponed during the lifetime of the surviving beneficiary of the residue of the estate. The bequest to the Canada Council is "to be used for the purpose of making grants or establishing scholarships for musical study in such manner as the Council shall determine". The bequest is recorded as an investment-Special Funds at a nominal value of $1.

(h) Vida Peene Estate

A bequest of $599,761 was made by the late Vida Peene, a past member of the Council. The earnings from this bequest are to be paid annually to several organizations as listed in her will.

(i) Kathleen Coburn

A gift of $100 was received from Miss Kathleen Coburn, and is part of a promise of a larger bequest, the amount of which cannot be determined at this time. When this bequest is in hand, it will provide for exchanges of scholars between Israel and Canada. As at March 31, 1983, the total equity amounted $179 (1982—$159).

7. Art Bank

In 1972, the Canada Council Art Bank was established to develop a collection of works of art for use in federal offices and public buildings on a rental basis. Works of art acquired to March 31, 1983 total approximately $7,831,000, including $775,000 purchased during the year (1982—$504,000).

8. Lease agreement

The Council has entered into a lease agreement for office space which expires in October 1986. The annual base rental payment to the end of the lease is $881,000.

9. Contingency

On termination of employment, employees of the Council are entitled to certain benefits provided under Council's policy. The cost of these benefits is expensed in the year in which they are paid. As at March 31, 1983, the maximum liability under this policy is estimated at $653,000. No provision has been recorded in the accounts.

10. Comparative figures

Certain of the comparative figures have been reclassified to conform to the current year's presentation. Adjudication costs previously reported under administration expenditure for arts are now reported as grants and service under arts. As at March 31, 1983, these costs amounted to $1,205,000 (1982—$989,000).

Government Telecommunications Agency Revolving Fund

MANAGEMENT REPORT

The accompanying financial statements of the Government Telecommunications Agency (GTA) Revolving Fund have been prepared as required by and in accordance with the policy and procedures of the Treasury Board for revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Fund. The financial transactions contained in these financial statements have been subjected to a test audit by representatives of the Auditor General.

These financial statements were prepared in accordance with the stated accounting policies, as set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in these financial statements is based on management's best estimate and judgement and gives due consideration to materiality. Financial information contained in the departmental statements and elsewhere in the Public Accounts, is consistent with that in these financial statements, unless indicated otherwise.

The ADM, Financial Management develops and disseminates financial management and accounting policies, and issues specific directives which maintain standards of accounting and financial management. These are supplemented by additional systems and procedures developed and implemented by the Fund's Finance and Administration Division. The Fund maintains systems of financial management and internal control at appropriate cost. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of government funds and safeguard the Fund's assets. The Fund is managed on a cost revenue dependent basis and all costs are allocated, on an equitable basis, to the users of telecommunications services and recovered on a timely basis. Financial management and internal control systems are augmented by the activities of internal audit and by frequent contacts with departmental financial and internal audit officers and with the staff of the Auditor General's office. The Fund was subjected to a comprehensive audit by the Office of the Auditor General in fiscal year 1982-83.

The Fund also seeks to assure the objectivity and integrity of data in its financial statements by the careful selection, training and development of qualified accounting staff, by organization arrangements that provide appropriate divisions of responsibility, and by a high standard of internal communications aimed at ensuring that regulations, policies, procedures and managerial authorities are understood throughout the Agency.

The accounting systems and financial statements of the Fund have evolved over the years to meet changing conditions. As part of a five-year plan for information processing in GTA, the cost allocation, billing and other financial systems are being reviewed to permit more accurate, timely and equitable billings for government departments and agencies.

Government Telecommunications Agency Revolving Fund—*Concluded*

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1983

1. Authority and purpose

The Government Telecommunications Agency Revolving Fund was originally established in 1963 to plan and provide telecommunications facilities and services at the request of federal departments and agencies. Section 23 of the Adjustment of Accounts Act authorized the Minister to make payments out of the Consolidated Revenue Fund for working capital, capital equipment and temporary financing of operating requirements, the total of which was not to exceed $8,000,000 at any time. This authority was increased to $12,000,000 by Appropriation Act No. 4, 1981-82. In accordance with Vote 2c, Appropriation Act No. 4, 1982-83, an amount of $1,485,822 was credited to the Fund for a payment to Bell Canada for a terminated contract. An amount of $741,781 representing net assets assumed by the Fund and assets contributed to the Fund was charged against this authority when the Fund became budgetary in 1981.

2. Significant accounting policies and practices

Fixed assets

Depreciation is calculated using the diminishing balance method at the following rates: automobiles (30%), office equipment (20%), furniture and fixtures (10%).

3. Fixed assets and accumulated depreciation

Fixed assets	Balance at beginning of year	Acquisition	Disposals	Balance at end of year
	$	$	$	$
Office equipment	311,361	108,375		419,736

	231,912	70,274	515	301,671

4. Employee termination benefits

Termination benefits accrue to employees over their years of service with the Government of Canada as provided for under collective agreements. The cost of these benefits is recorded in the accounts as the benefits accrue to the employees.

5. Reclassification of items in previous period financial statements

Certain 1982 figures in the Statement of Operations and the Balance Sheet have been reclassified to conform to the 1983 presentation.

Appendix 3

National Arts Centre Corporation

AUDITOR'S REPORT

THE HONOURABLE PAULINE MCGIBBON, C. C.
CHAIRMAN OF THE BOARD OF TRUSTEES
NATIONAL ARTS CENTRE CORPORATION

I have examined the balance sheet of the National Arts Centre Corporation as at August 31, 1982 and the statements of revenues and expenses, equity and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at August 31, 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied, after giving retroactive effect to the changes in accounting for parliamentary appropriations and extraordinary building repairs as explained in Note 3 to the financial statements, on a basis consistent with that of the preceding period.

NOTES TO FINANCIAL STATEMENTS AUGUST 31, 1982

1. Objectives and operations

The objectives of the Corporation are: to operate and maintain the National Arts Centre; to develop the performing arts in the National Capital Region; and to assist the Canada Council in the development of the performing arts elsewhere in Canada.

In furtherance of its objectives, the Corporation may arrange for and sponsor performing arts activities at the Centre; encourage and assist in the development of performing arts companies resident at the Centre; arrange for or sponsor radio and television broadcasts and the showing of films in the Centre; provide accommodation at the Centre, on such terms and conditions as the Corporation may fix, for national and local organizations whose objects include the development and encouragement of the performing arts in Canada; and at the request of the Government of Canada or the Canada Council, arrange for performance elsewhere in Canada by performing arts companies, whether resident or non-resident in Canada, and arrange for performances outside Canada by performing arts companies resident in Canada.

With a view to achieving the objectives, Her Majesty demised and leased the National Arts Centre building complex to the Corporation for a period of twenty years commencing June 1, 1969. Under the terms of the lease, the Corporation is responsible for maintenance and operation of the building complex, but is not required to pay for the use of the complex. Accordingly, the expenses of the Corporation do not include any charge for rent.

2. Significant accounting policies

(a) Basis of accounting

The accounts of the Corporation are maintained on an accrual basis.

Appendix 3—*Continued*

National Arts Centre Corporation—*Continued*

NOTES TO FINANCIAL STATEMENTS
AUGUST 31, 1982—*Continued*

(b) Short-term investments

Short-term investments comprising term deposits, bankers' acceptances and other temporary investments are carried at cost which approximates market value.

(c) Grants

Grants are recorded as revenue in the year in which the grantors make firm commitments to the Corporation.

(d) Costs of programmes in progress

Direct costs, including advances to performing companies and artists, incurred prior to the end of the year for programmes in progress are deferred and charged to expenses in the year in which the programmes terminate. Indirect costs and common services not attributable to particular performances are charged to general and administration expenses in the year in which they are incurred.

(e) Inventories

Inventories are valued at the lower of cost and net realizable value (restaurants) or replacement cost (production).

(f) Deferred revenues

Revenue from tickets sold prior to the end of the year for programmes in progress is deferred and credited to revenue in the year in which the programmes terminate. Deferred revenue also includes unredeemed gift certificates, exchange vouchers, credit notes and other revenue applicable to the next year. Gift certificates, exchange vouchers and credit notes not redeemed within three years of the current year are written off and credited to revenue. A percentage of those less than three years old is also credited to revenue.

(g) Operating expenses—Restaurants and garage

Operating expenses of the restaurants and garage do not include costs relating to building maintenance, utilities and capital acquisitions. These costs are included in general and administration expenses.

(h) Capital acquisitions

Capital acquisitions, including leasehold improvements, are charged to expense in the year they are acquired.

(i) Pension plan

Employees of the Corporation participate in the Public Service Superannuation plan, which is administered by the Government of Canada. Contributions to the plan are required by both the employees and the Corporation. These contributions represent the Corporation's total debt and are recorded on a current basis.

(j) Employee termination benefits

Employees of the Corporation are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees under the respective terms of employment.

(k) Parliamentary appropriations

The parliamentary appropriation for operating, received during the year ended August 31, is in respect of the Government of Canada's fiscal year ending on March 31 of the following year. Accordingly, as the amount received up to August 31 represents the total appropriation, 7/12ths is deferred to the following year and the balance, along with the amount deferred from the previous year, is credited to revenue in the current year.

The parliamentary appropriation received for extraordinary building repairs is considered as deferred revenue until used. An equal amount of the repairs incurred during the year, shown as an extraordinary item, is also transferred to revenue as an extraordinary item. Should the total cost of the repairs be less than the amount received, the balance will be returned to the Consolidated Revenue Fund.

3. Changes in accounting policies

(a) Parliamentary appropriation for operating

To better reflect the results of its operations, the Corporation, during the year, retroactively adopted the accounting policy of crediting the parliamentary appropriation for operating to revenue. Previously, this appropriation was credited to equity. As a result of this change, the excess of expenses over revenues for the year ended August 31, 1982 was reduced by $12,625,100 and $4,965,800 for the period ended August 31, 1981. There is no effect on equity as at August 31, 1982 and 1981.

(b) Extraordinary building repairs

During the year, the Corporation adopted the accounting policy of charging extraordinary building repairs to expense and crediting an equal amount of the applicable parliamentary appropriation to revenue; the excess of the parliamentary appropriation received over repairs incurred is treated as a current liability. As a result of this change, working capital and equity as at August 31, 1982 were reduced by $3,318,868 (1981—$1,979,655). There is no effect on the excess of expenses over revenues for the periods ended August 31, 1982 and 1981.

4. Short-term investments

Short-term investments include $50,000 in deposit certificates as security for the payment of fees to artists as required by a union.

National Film Board

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the National Film Board Revolving Fund as required by and in accordance with the policy of the Treasury Board on revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Fund. In order to assure maximum objectivity and freedom from bias, the financial data contained in these financial statements has been examined by the audit committee of the Board.

These financial statements were prepared in accordance with the stated accounting policies, as set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in these financial statements is based on management's best estimates and judgments and gives due consideration to materiality. To fulfill this reporting responsibility, the Fund maintains a set of accounts which provides a centralized record of the Fund's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in these financial statements, unless indicated otherwise.

The Director of Administration and Financial Services develops and disseminates financial management and accounting policies and issues specific directives which maintain standards of accounting and financial management. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities and are properly recorded to maintain accountability of Government funds and safeguard the Fund's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs where contacts are maintained between our internal auditor and staff of the Auditor General's office.

These financial statements have been examined by the Auditor General, his role being to express a judgement as to whether the financial statements present fairly the financial position and transactions, in conformity with stated accounting policies. The Auditor General's unqualified opinion is appended.

The accounting and financial reporting systems of the Board are periodically reviewed to adapt to changing conditions. As a result of an administrative efficiency study carried out last year, the Board is presently implementing new methods and procedures to improve control over purchasing and inventories. An Electronic Data Processing Master Plan, comprising a financial management information system and a statistical package on production and distribution activities, has been developed and is scheduled to be implemented over the next three years.

AUDITOR'S REPORT

THE HONOURABLE FRANCIS FOX, P.C., M.P.
MINISTER OF COMMUNICATIONS

I have examined the balance sheet of the National Film Board as at March 31, 1983 and the statements of operations, accumulated net charge against the Revolving Fund's authority, accumulated deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1983 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

KENNETH M. DYE, F.C.A.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1983—*Concluded*

The Board, through the operation of a revolving fund having a permanent continuing authority from Parliament, can make payments out of the Consolidated Revenue Fund for working capital, capital acquisitions and interim financing of accumulated operating deficits, the total of which is not to exceed $20 million at any one time.

2. Significant accounting policies

(a) Production of films and other visual material

All production costs are charged to operations in the year in which they are incurred and shown in the statement of operations as follows:

Board's program
All costs incurred for unsponsored productions and the excess of costs over the sponsor's contribution for partially-sponsored productions.

Government of Canada and outside parties
All costs incurred for fully sponsored productions and the sponsored costs of partially-sponsored productions.

Revenues from production of films and other visual material are accounted for at an amount equal to the sponsored production costs during the year in which these costs are incurred. Any profit is recognized in the year the production is completed.

(b) Film prints

The cost of prints made for sale purposes is recorded as inventory.

The cost of other prints is expensed on a current basis.

(c) Inventories

Productions in process are carried at the cumulative amount of costs incurred for each production exceeding advances invoiced, up to the amount of the sponsored unbilled balance. On the other hand, any cumulative excess of advances invoiced over costs incurred is recorded as advances on productions.

Materials and supplies are carried at the lower of the average cost and replacement value.

Film prints and other visual material held for resale are carried at the lower of the average direct cost of production and net realizable value.

(d) Fixed assets

Equipment, office equipment and furniture, motor vehicles and garage equipment are carried at cost. Depreciation is calculated on the straight line method over the estimated useful life of the assets, generally 5 to 10 years. No depreciation is provided during the year of acquisition.

Leasehold improvements are charged to operations as incurred.

The Board enters into agreements with the Department of Supply and Services to acquire the exclusive use of certain fixed assets through leasing arrangements. Rentals are charged to operations in the year to which they apply.

(e) Parliamentary appropriation

The parliamentary appropriation is recorded in the statement of accumulated deficit in the year to which it applies. Any unspent balance lapses, if not used generally in the 30 days following the end of the fiscal year.

(f) Employee termination benefits

On termination of employment, employees of the Board are entitled to certain benefits provided for under their collective agreements and their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

(g) Pension plan

Employees of the Board participate in the superannuation plan administered by the Government of Canada. The employees and the Board contribute equally to the cost of the plan. This contribution represents the total liability of the Board. Contributions in respect of current service are expensed during the year in which services are rendered. With respect to admissible past service, contributions are expensed when paid; the terms of payment are set by the applicable purchase conditions, generally over the number of years of service remaining prior to retirement.

5. Contingency

A legal action amounting to $1,606,130 has been instituted against the Board by a former employee for an alleged unjustified dismissal in 1975. This action is being contested; no provision has been made in the accounts.

6. Comparative figures

Certain figures of 1982 have been reclassified to be in accordance with the presentation of 1983.

AUDITOR'S REPORT

TO THE CHAIRMAN OF THE BOARD OF TRUSTEES
OF THE NATIONAL MUSEUMS OF CANADA

I have examined the balance sheet of the National Museums of Canada as at March 31, 1983 and the statements of operations, equity and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1983 and the results of its operations and the changes in its financial position for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements, applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1983

1. Authority, objective and operations

The National Museums of Canada was established by the National Museums Act in 1968 and is a departmental Crown corporation named in Schedule B of the Financial Administration Act.

The Corporation's objective is to demonstrate the products of nature and the works of man, with special but not exclusive reference to Canada, so as to promote interest therein throughout Canada and to disseminate knowledge thereof.

The Corporation's operations comprise the National Gallery of Canada, the National Museum of Man, the National Museum of Natural Sciences, the National Museum of Science and Technology, National Programmes, Museum Assistance Programmes and Administration.

2. Accounting policies

(a) Basis of accounting

Expenses and revenue are accounted for using the accrual basis of accounting, except for refunds of previous years' expenditure, employee termination benefits, and the trust account which are recorded on a cash basis. Parliamentary appropriations are recorded in the year to which they apply.

(b) Inventories

Inventories are valued at the lower of cost and net realizable value, except for the cost of books and pamphlets which is written down on a straight line basis over a five year period to take into account obsolescence.

(c) Fixed assets

Fixed assets are carried at cost and depreciated using the straight-line method over their estimated useful life as follows:

Equipment	5 to 12 years
Building renovations	25 years
Office furniture	8 to 10 years

(d) Collections

Objects purchased for the collections of the Corporation are recorded as expenses in the year of acquisition. Objects donated to the Corporation are not recorded.

(e) Services provided without charge

Amounts for services provided without charge by government departments are included in operating expenses.

(f) Pension plan

Employees participate in the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are made by both employees and the Corporation and are recorded on a current basis.

Social Sciences and Humanities Research Council

AUDITOR'S REPORT

TO THE SOCIAL SCIENCES AND HUMANITIES RESEARCH COUNCIL
AND
THE HONOURABLE FRANCIS FOX, P.C., M.P.
MINISTER OF COMMUNICATIONS

I have examined the statement of expenditure of the Social Sciences and Humanities Research Council for the year ended March 31, 1983. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the expenditure of the Council for the year ended March 31, 1983 in accordance with the accounting policies set out in Note 2 to the financial statement, applied on a basis consistent with that of the preceding year.

RAYMOND DUBOIS, C.A.
Deputy Auditor General

NOTES TO FINANCIAL STATEMENT
MARCH 31, 1983

1. Authority and objective

The Council was established in 1977 by the Social Sciences and Humanities Research Council Act and commenced operations on April 1, 1978. The Council is a departmental Crown corporation named in Schedule B to the Financial Administration Act (F.A.A.). The objective of the Council is to promote and assist research and scholarship in the social sciences and humanities.

2. Accounting policies

(a) Expenditure

Grants are charged to expenditure when disbursed. Operating expenditure includes the cost of work performed, goods received or services rendered prior to April 1. Acquisition of office furniture and equipment is recorded as operating expenditure in the year of purchase.

(b) Services provided without charge by government departments

Amounts for services provided without charge by government departments are included in operating expenditure (Schedule II).

(c) Employee termination benefits

Employee termination benefits are expensed in the year of payment.

(d) Pension plan

Employees participate in the Public Service Superannuation Plan administered by the Government of Canada. The employees and the Council contribute equally to the cost of the Plan. Council's contributions are charged to expenditure on a current basis.

(e) Refunds of previous years' expenditure

Refunds of previous years' expenditure are remitted to the Receiver General for Canada on a cash basis.

3. Parliamentary appropriations

Parliamentary appropriations are recorded when used and any amount not used lapses in accordance with Section 30 of the F.A.A.

Appropriations are as follows:

	Department of Communications

Standards Council of Canada

AUDITOR'S REPORT

TO THE STANDARDS COUNCIL OF CANADA
AND
THE HONOURABLE ANDRÉ OUELLET, P.C., M.P.,
MINISTER OF CONSUMER AND CORPORATE AFFAIRS

I have examined the balance sheet of the Standards Council of Canada as at March 31, 1983 and the statements of operations and surplus for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Council as at March 31, 1983 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

KENNETH M. DYE F.C.A.
Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1983

1. Operations

The Standards Council of Canada was created by Parliament as a corporation under the Standards Council of Canada Act to be the national co-ordinating body for voluntary standardization. The Council carries out its task through the National Standards System, a federation of accredited organizations concerned with standards-writing, certification and testing co-ordinated by the Council.

Among its many programs, the Council provides financial assistance to standards-writing organizations, travel assistance to Canadian delegates to international meetings, supports the program for the conversion of standards to the metric system of measurement, operates a self-funded standards sale service for Canadians for international and foreign national standards, and provides for Canadians a free national information service on standards.

2. Significant accounting policies

Statement of changes in financial position

A statement of changes in financial position has not been presented as, in the opinion of management, it would not add significantly to the information to be derived from these financial statements.

Office furniture and equipment

The costs of office furniture and equipment are charged to operations in the year of acquisition.

Foreign currency translation

Transactions in foreign currencies are translated into Canadian dollars at the exchange rate in effect at the date of the transaction. Any amounts payable or receivable in foreign currencies at the end of the year are translated into Canadian dollars at the exchange rates in effect at the balance sheet date.

Parliamentary appropriations

Parliamentary appropriations are recorded when received.

EMPLOYMENT AND IMMIGRATION

Department

Objective

DEPARTMENTAL ADMINISTRATION PROGRAM

—To ensure that federal labour market, income related and immigration policies and programs are developed and implemented in an effective manner consistent with national economic and social goals and to provide information to the public concerning these policies and programs.

Canada Employment and Immigration Commission

Objectives

ADMINISTRATION PROGRAM

—To provide efficient and timely support services to the Commission and Department.

EMPLOYMENT AND INSURANCE PROGRAM

—To further the attainment of national economic and social goals by realizing the full productive potential of Canada's human resources, while supporting the initiatives of individuals to pursue their economic needs, and, more generally, their self-fulfillment through work.

IMMIGRATION PROGRAM

—To administer the admission of immigrants and non-immigrants in accordance with the economic, social and cultural interests of Canada.

ANNUITIES PROGRAM

—To administer contracts entered into under the Government Annuities Act.

Immigration Appeal Board

Objective

—To make available to persons who have been ordered removed from Canada or to persons in Canada whose relatives have been refused admission to Canada, an independent court to which they may appeal such decisions, not only on legal grounds, but also on discretionary grounds; and to permit the redetermination of refugee claims.

ENERGY, MINES AND RESOURCES

Department

Objectives

ADMINISTRATION PROGRAM

—To ensure effective management and accountability in the federal programs of Energy, Minerals and Earth Sciences, and Administration, in the Department of Energy, Mines and Resources, and to maintain central services in support of these programs.

ENERGY PROGRAM

PROGRAM

—To establish and maintain effective policies, strategies and programs for the supply and efficient use of energy resources with due regard for other social and economic goals.

PETROLEUM COMPENSATION REVOLVING FUND*

—To provide incentives for the development of designated classes of high-cost domestic petroleum through the payment of compensation to first users of such petroleum, funded by a levy upon domestic and foreign petroleum used in Canada.

MINERALS AND EARTH SCIENCES PROGRAM

—To ensure the availability of mineral policies and strategies, and timely earth science information, technology and expertise related to the landmass of Canada and its mineral and energy resources.

Atomic Energy Control Board

Objective

—To control atomic energy in the interests of health and safety and national security.

Atomic Energy of Canada Limited

Objective

—To develop the utilization of atomic energy for peaceful purposes.

National Energy Board

Objectives

—To ensure that the best interests of Canada are served in the construction and operation of oil and gas pipelines and power lines subject to federal jurisdiction, in the exportation and importation of gas, in the exportation of electrical power, and in the exportation and importation of oil.

—To ensure the safe construction and operation of power lines and of oil and gas pipelines subject to federal jurisdiction.

—To advise on the control, supervision, conservation, use, marketing and development of energy and sources of energy.

Petro-Canada

Objective

—To increase Canada's energy supply from competitive sources.

Petro-Canada International Assistance Corporation

AUDITORS' REPORT

TO THE SHAREHOLDER

We have examined the balance sheet of Petro-Canada International Assistance Corporation, a subsidiary of Petro-Canada, as at December 31, 1982 and the statements of operations and changes in financial position for the period from the date of commencement of operations, January 25, 1982, to December 31, 1982. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1982 and the results of its operations and the changes in its financial position for the period then ended in accordance with generally accepted accounting principles.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1982

1. Incorporation

   The Corporation was incorporated by Petro-Canada under the Canada Business Corporations Act as a wholly-owned subsidiary in 1981 pursuant to directions provided by Order in Council P.C. 1981-2167 of August 5, 1981. The inaugural meeting of the Board of Directors was held on January 25, 1982 after which the Corporation commenced operations.

2. Operations

   The Corporation assists developing countries in the exploration for oil and gas and related activities in those countries in a manner consistent with the foreign aid and energy objectives and programmes of the Government of Canada. The Corporation's activities are financed by Parliamentary appropriations pursuant to Subsection 24.2 of the Petro-Canada Act. An affiliated company, Petro-Canada Exploration Inc. ("PEX"), provides technical and administrative services to the Corporation at cost. In addition, the Corporation may also borrow from PEX such funds as it may require from time to time. Advances received from PEX, which cannot exceed $50,000,000 at any time, bear interest at the cost of borrowing to PEX.

Petroleum Compensation Revolving Fund

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Petroleum Compensation Revolving Fund as required by and in accordance with the policy of the Treasury Board on revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Fund.

These financial statements were prepared in accordance with the stated accounting policies, as set out in Note 2, on a basis consistent with that of the preceding year. To fulfill this reporting responsibility, the Fund maintains a set of accounts which provides a centralized record of the Fund's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in these financial statements, unless indicated otherwise.

The departmental Financial Management Branch develops and disseminates financial management and accounting policies and issues specific directives which maintain standards of accounting and financial management. The accounting system for the Fund is operated by the Comptroller, Petroleum, of the Energy Program Finance Division. Transactions are executed in accordance with prescribed regulations, within Parliamentary authorities and are properly recorded to maintain accountability of Government funds and to safeguard the Fund's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs and frequent contacts are maintained between the staff of the Comptroller, Petroleum, and of the Auditor General's office. The Comptroller, Petroleum, in coordination with the managers of the Fund, also seeks to assure the objectivity and integrity of data in the Fund's financial statements by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

With the passage of the Energy Administration Act (Bill C-103) the provisions implementing the Petroleum Compensation Revolving Fund have been revoked.

NOTES TO FINANCIAL STATEMENTS
JULY 31, 1982

1. Authority and purpose

This account, established for the purpose of raising sufficient funds through a levy to provide for the payment of any compensation payable with respect to classes of petroleum which are designated in accordance with the provisions of Subsection 72(4) of the Petroleum Administration Act, was authorized by Vote L26a, Appropriation Act No. 3, 1978-79.

Section 3 of the Adjustment of Accounts Act, assented to July 10, 1980, deleted from the accounts of Canada the Petroleum Compensation Revolving Fund and the amount outstanding as at March 31, 1981.

Section 24 of the Adjustment of Accounts Act re-established the Revolving Fund and authorized the Minister to make expenditures up to $200 million out of the Consolidated Revenue Fund for synthetic petroleum and to spend the revenue received in respect of the petroleum compensation charge and penalty revenue.

The authority to make expenditures out of the Consolidated Revenue Fund was increased to $225 million by Appropriation Act No. 3, 1980-81, PC 1980-3423. An amount of $57,799,712 representing net assets assumed by the Fund was charged to this authority when the Fund became budgetary in 1981.

With the passage of the Energy Administration Act (Bill C-103), the provisions implementing the Petroleum Compensation Revolving Fund have been revoked. Under this Act, a statutory authority became effective at the end of July, 1982.

2. Significant accounting policies

(a) Revenue

Under Part III.1, Section 65, 12 of the Petroleum Administration Act, as amended, a levy is imposed upon (1) domestic petroleum received for processing or consumption in Canada and (2) foreign petroleum or petroleum products imported into Canada for processing, consumption, sale or other use in Canada at a rate prescribed by order of the Governor in Council.

All accrued penalties receivable at July 31, 1982 have been recorded by the departmental memorandum system of accounts receivable, upon closure of the Fund.

NOTES TO FINANCIAL STATEMENTS
JULY 31, 1982—*Concluded*

(b) Compensation payments

Under Part IV of the Petroleum Administration Act, as amended, compensation is payable to first users of designated classes of high cost domestic petroleum to reduce the cost to domestic price levels.

(c) Administration expenses

Administration expenses (exclusive of audit and collection fees) are not charged to the Revolving Fund. They are paid from the Energy Administration Vote.

In accordance with the agreement between Energy, Mines and Resources and the Department of National Revenue—Customs and Excise, audit and collection fees are not charged to the Revolving Fund.

International Development Research Centre

AUDITOR'S REPORT

TO THE INTERNATIONAL DEVELOPMENT RESEARCH CENTRE
AND
THE HONOURABLE ALLAN J. MACEACHEN, P.C., M.P.
SECRETARY OF STATE FOR EXTERNAL AFFAIRS

I have examined the balance sheet of the International Development Research Centre as at March 31, 1983 and the statements of operations, equity and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Centre as at March 31, 1983 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1983

1. Authority and objective

The International Development Research Centre, as a Corporation without share capital, was established in 1970 by the Parliament of Canada through the International Development Research Centre Act. The annual grant received from the Parliament of Canada is pursuant to External Affairs Votes 45 and 65 for the years ended March 31, 1983 and 1982 respectively.

The objective of the Centre is to initiate, encourage, support and conduct research into the problems of the developing regions of the world and into the means for applying and adapting scientific, technical and other knowledge to the economic and social advancement of those regions.

2. Significant accounting policies

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles and reflect the following policies:

Property and equipment

Property and equipment are stated at cost and are depreciated over their estimated useful lives. Leasehold improvements are amortized over the terms of the respective leases. The methods and rates used to provide for the depreciation and amortization of property and equipment are as follows:

	Method	Rate
Computer hardware and systems software	Straight line	20%
Leasehold improvements	Straight line	6⅔%-20%
Office furniture and equipment	Diminishing balance	20%
Vehicles	Diminishing balance	30%

Research expenditure

Certain expenditures for development research, research related activities and contract research are charged to the accounts at the time of disbursement and as they become due under the terms of contractual agreements. All other research expenditure is recorded on an accrual basis.

Contract research

The Centre enters into agreements to undertake contract research on behalf of various donor agencies. The Centre recognizes contract research revenue at the time the related expenditure is incurred. Funds received in excess of contract research expenditures incurred are reflected in current liabilities.

Pension costs

Employees of the Centre are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from the employees and the Centre. These contributions represent the total liability of the Centre and are recognized in the accounts on a current basis.

Income taxes

The Centre is exempt from any liability for income taxes.

Foreign currency translation

Monetary assets and liabilities are translated into Canadian dollars at the rate of exchange in effect at year-end. Non-monetary assets are translated at rates prevailing at the respective transaction dates. Foreign currency transactions are translated into Canadian dollars by the use of an average exchange rate which closely approximates the rate in effect at the transaction date. Exchange gains and losses are included in operations for the current period.

3. Investments

Investments consist of short-term notes and deposits and treasury bills held with:

	1983	1982

7. Grant from Parliament of Canada

The grant from the Parliament of Canada includes funds appropriated specifically for the following programs:

(a) Cooperative Programs

The grant includes $2,500,000 for Cooperative Programs to support research collaboration between groups in Canada and those in developing countries with the aim of enhancing their indigenous capabilities. This additional grant was accepted on the understanding that the Cooperative Programs do not divert the Centre from its own objectives, nor involve financial or staff resources beyond grant funds specifically received for such Programs.

The financial situation of these Programs is as follows:

	1983	1982
	$	$
Revenue		
Grant	2,500,000	1,000,000
Interest	117,694	53,667
	2,617,694	1,053,667
Expenditure

Allocated administration expenditures	222,565	97,204
	2,477,526	1,039,197
Excess of revenue over expenditure	140,166	14,470
Funds available at beginning of the year	14,470	
Funds available at end of the year	154,636	14,470

(b) Energy program

Pursuant to a commitment made by Canada in August 1981, at the United Nations Conference on New and Renewable Sources of Energy, additional funds of $10,000,000 are being provided to the Centre over the next four years to increase energy research in developing countries. During the year ended March 31, 1983, $2,000,000 was received and included in the grant from the Parliament of Canada to the Centre of which $100,000 has been spent during the year. The balance of $1,900,000 remained unspent thereby contributing to the increase of Equity of Canada. These funds will be expended next year on energy-related research projects approved by the Centre.

8. Operating leases

The Centre has entered into various lease arrangements for office premises, equipment and staff accommodation, in Canada and in various countries. The total liability over the next five years under such lease arrangements is as follows:

	$
1984	2,091,327
1985	1,607,187
1986	1,089,553
1987	970,049
1988	537,120
	6,295,236

9. Contractual commitments—Project grants and project development

The Centre is committed to make payments totalling $49,100,000 during the next four years subject to funds being provided by Parliament and subject to compliance by recipients with the terms of project agreements. The Centre has also submitted formal grant offers to prospective recipients totalling $7,000,000 and is awaiting acceptance of these offers.

10. Contingencies

The Centre is a defendant in actions for damages and costs allegedly sustained by the plaintiffs. Management and counsel are of the opinion that the Centre has defences against any significant claim and accordingly no provision has been made in the financial statements in respect of these claims.

Passport Office Revolving Fund

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Passport Office Revolving Fund as required by and in accordance with the policy of the Treasury Board on revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these statements rests with the management of the Fund.

The financial statements have been prepared in accordance with stated accounting policies, as set out in Note 2, on a basis consistent with that of the previous year.

The Fund maintains a system of internal accounting controls which provides management with reasonable assurance that transactions are recorded and executed in accordance with its authorizations and that its assets are safeguarded.

Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in these financial statements.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1983

1. Authority and purpose

The Passport Office Revolving Fund was established in 1969 to provide for the issue of appropriate travel documents to Canadian citizens and to certain permanent residents of Canada who are unable to obtain valid passports from their country of origin.

The Fund has a continuing non-lapsing authority from Parliament to make payments out of the Consolidated Revenue Fund for working capital, capital acquisitions and temporary financing of accumulated operating deficits, the total of which is not to exceed $4,000,000 at any time. An amount of $745,893 representing net assets assumed by the Fund and assets contributed to the Fund was charged to this authority when the Fund became budgetary in 1981.

2. Significant accounting policies

(a) Inventories

The inventory of materials and supplies is carried at cost and the inventory of passports-in-process is valued at average cost for the year.

(b) Fixed assets

Leasehold improvements are amortized on the straight line basis over the term of the appropriate lease. Other fixed assets are depreciated from the year of acquisition on the straight line basis over their estimated useful lives as follows:

Furniture	16 years
Equipment	
Electronic data processing	5 years
Other equipment	10 years

[1] Under part I of the Excise Tax Act R.S. c. E-13, 1970, a tax of 10 percent is levied on net insurance premiums paid by any resident of Canada for insurance placed with insurers not authorized under the laws of Canada or of any province thereof. A 10 percent premium tax is also levied on insurance placed with authorized insurers through brokers or agents outside Canada.

[2] Under the provisions of the Department of Insurance Act, R.S. c. I-17, 1970, the expenditure incurred by Canada during each fiscal year in connection with the administration of the Canadian and British Insurance Companies Act, the Co-operative Credit Associations Act, the Foreign Insurance Companies Act, the Loan Companies Act, and the Trust Companies Act, is assessed against the companies transacting business thereunder, in the proportion which the net receipts (as defined in the Act), or income of each in Canada bears to the total amount of such receipts or income received in Canada by all such companies during the preceding calendar year. Under the provisions of the Investment Companies Act, S.C. c. 33, 1970-71, the expenditure incurred each fiscal year in connection with the administration of the Act is assessed against investment companies in the proportion which the mean assets (as defined in the Act) of each bears to the total mean assets of all such companies.

L23b	This account was established to record loans made to the Canadian Saltfish Corporation which was established under the Saltfish Act, 1969-70, and was extended by Vote L23b, Appropriation Act No. 1, 1976 to regulate interprovincial and export trade in saltfish in order to improve the earnings of primary producers of cured cod fish. Section 17 of the Act provides that the Governor in Council may authorize the Minister of Finance on such terms and conditions as the Governor in Council may prescribe: (a) to guarantee repayment of loans, and interest thereon, made by any bank to the Corporation; and (b) to make loans to the Corporation. PC 1973-1915 July 1973, authorizes the Minister of Finance to make loans to the Canadian Saltfish Corporation to finance the acquisition of capital assets other than working capital. The maximum amount that may be borrowed from all lenders is $30,000,000 as indicated in the Act to amend the Saltfish Act, July 7, 1980. (Net)

Fisheries Prices Support Board

AUDITOR'S REPORT

TO THE FISHERIES PRICES SUPPORT BOARD
AND
THE HONOURABLE PIERRE DEBANÉ, P.C., M.P.
MINISTER OF FISHERIES AND OCEANS

I have examined the statement of operations of the Fisheries Prices Support Board for the year ended March 31, 1983. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the results of operations of the Board for the year ended March 31, 1983 in accordance with the accounting policies set out in Note 2 to the financial statement applied, after giving retroactive effect to the change in accounting for purchases and sales of fisheries products as explained in Note 5, on a basis consistent with that of the preceding year.

KENNETH M. DYE, F.C.A.
Auditor General of Canada

Ottawa, Ontario

Chairman

NOTES TO FINANCIAL STATEMENT MARCH 31, 1983

1. Authority, objectives and operations

The Board was established in 1944 under the Fisheries Prices Support Act and is a departmental Crown corporation named in Schedule B to the Financial Administration Act. As authorized by the Governor in Council, the Board is empowered to purchase fishery products for its own account and to make deficiency payments to producers of such products. The Act requires that the Board, in establishing purchase prices and in determining the rate at which deficiency payments are to be made, endeavour to secure a fair relationship between the returns from fisheries and those from other occupations. In addition, the Board acts as procurement agency for the supply of fishery products required by the Canadian International Development Agency for food-aid and development programs. The Board operates through offices of the Department of Fisheries and Oceans, with departmental staff performing certain functions of the Board.

2. Accounting policies

Sales are recorded on a cash basis and cost of goods sold includes payments up to April 30 for the cost of work performed, goods received or services rendered prior to April 1.

Administrative services provided without charge by the Department of Fisheries and Oceans are included in expenses.

3. Deficiency payments

After a complete review of the claims for assistance, the Board paid an additional $90,787 in respect of the export sales segment of the Groundfish Deficiency Payment Program of 1982. These deficiency payments were made out of Fisheries and Oceans Vote 10.

4. Administrative services provided without charge by the Department of Fisheries and Oceans

	1983	1982
	$	$
Salaries	107,612	100,640
Professional and special services	20,541	
Travel and hospitality	20,237	12,943
Other	3,102	3,582
	151,492	117,165

5. Change in accounting

In order to be consistent with the basis of accounting followed by other departmental Crown corporations, the Board changed its accounting for purchases and sales of fisheries products from the accrual to the modified cash basis described in Note 2. Accordingly, a balance sheet is no longer presented and the statement of operations for 1982 has been restated.

The effect of this change is to increase the previously reported loss from trading operations for 1982 by $294,105. Had this change in accounting policy not been adopted, profit from trading operations for 1983 would have been decreased by $886,237, representing the realization of accounts receivable and inventory of fish products as at March 31, 1982.

INDIAN AFFAIRS AND NORTHERN DEVELOPMENT

Department

Objectives

ADMINISTRATION PROGRAM

—To provide overall policy direction and central advisory and administrative services to Departmental Programs.

INDIAN AND INUIT AFFAIRS PROGRAM

—In keeping with the principles of self-development, access of opportunity, responsibility and joint participation within Canadian society, to assist and support Indians and Inuit in achieving their cultural, social and economic needs and aspirations, and to ensure that Canada's constitutional and statutory obligations and responsibilities to the Indian and Inuit peoples are fulfilled.

NORTHERN AFFAIRS PROGRAM*

—To advance the social, cultural, political and economic development of the Yukon and Northwest Territories, in conjunction with the Territorial Governments and through co-ordination of activities of the federal departments and agencies, with special emphasis on the needs of native northerners and the protection of the northern environment.

NATIVE CLAIMS PROGRAM

—To enable native claimants to research, develop and negotiate claims and to achieve land claims resolution.

Northern Canada Power Commission

Objective

—To provide public utilities and distribution systems on a self-sustaining basis in the Northwest Territories, the Yukon Territory and at certain other locations in Canada.

* During the year, duties of the Department of Regional Economic Expansion, under certain agreements, were transferred to this department.

Canadian Centre for Occupational Health and Safety

AUDITOR'S REPORT

TO THE COUNCIL OF THE CANADIAN CENTRE FOR OCCUPATIONAL HEALTH AND SAFETY
AND
THE HONOURABLE CHARLES C. CACCIA, P.C., M.P.
MINISTER OF LABOUR

I have examined the balance sheet of the Canadian Centre for Occupational Health and Safety as at December 31, 1982 and the statements of operations and equity and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Centre as at December 31, 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

KENNETH M. DYE, F.C.A.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1982

1. Authority and objectives

The Centre was established on October 1, 1978 by the Canadian Centre for Occupational Health and Safety Act. The objectives of the Centre are to promote the right of Canadians to a healthy and safe working environment and to enhance the physical and mental health of workers.

2. Significant accounting policies

Parliamentary grant

The Centre operates on a calendar year and receives an operating grant from Parliament on an April 1 to March 31 basis to coincide with the fiscal year of the Government. Accordingly, a quarter of the grant received in respect of the current fiscal year of the Government is deferred.

Fixed assets

Fixed assets are recorded at cost. Office furniture and all equipment are depreciated over their estimated useful lives of five years using the straight line method. Leasehold improvements are amortized over the term of the lease.

Vacation pay

Earned vacation not taken at the end of the year is accounted for on the accrual basis.

3. Fixed assets

[1] Treasury Board Vote 5 government contingencies.
Treasury Board Vote 10 student summer and youth employment.
Treasury Board Vote 30 (Comptroller General) implementation of plans to improve management practices and controls.

[2] Last year's figures have been adjusted to reflect the transfer of regional personnel resources from the client branches to Departmental Administration Program.

[3] The breakdown of Old Age Security Act payments into old age security, guaranteed income supplement and spouse's allowance are estimates. Nevertheless, the total of these three amounts represents the actual expenditures.

[4] Reserved allotment established to provide payment authority for the overexpenditure of the previous year's appropriation which resulted from Payables at Year End (PAYE).

Board of Trustees of the Queen Elizabeth II Canadian Fund to Aid in Research on the Diseases of Children

AUDITOR'S REPORT

TO THE BOARD OF TRUSTEES
AND
THE HONOURABLE MONIQUE BÉGIN, P.C., M.P.
MINISTER OF NATIONAL HEALTH AND WELFARE

I have examined the balance sheet of the Board of Trustees of the Queen Elizabeth II Canadian Fund to Aid in Research on the Diseases of Children as at March 31, 1983 and the statement of operations and balance of fund for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1983 and the results of its operations for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements, applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1983

1 Authority and objectives

The Queen Elizabeth II Canadian Fund to Aid in Research on the Diseases of Children was established by the Queen Elizabeth II Canadian Research Fund Act in 1959 to assist individuals or organizations to undertake or carry on research into the diseases of children, and the causes, prevention and treatment of such diseases. The Board of Trustees, consisting of a Chairman and six other trustees appointed by Her Majesty by commission under the Great Seal, was also established by the Act to manage and administer the Fund in accordance with and subject to the Act.

2 Accounting policies

Investment in Canada bonds

The investment in Canada bonds is recorded at cost. All gains or losses, including any premium or discount on acquisition, are recognized when the bonds are sold. Interest income is recorded on an accrual basis.

Scientist awards

Scientist awards are provided for in the year the awards are approved. Any subsequent increases and decreases to existing awards are accounted for in the year these increases or decreases are approved. Any awards cancelled subsequent to the year of approval are recognized as revenue in the year of cancellation. Refunds of unspent awards are recorded as revenue when received.

Services provided without charge

The Medical Research Council provides to the Board without charge such secretarial and other administrative and technical services and facilities as are required for the purposes of the Act.

NOTES TO FINANCIAL STATEMENT
MARCH 31, 1983

1. Authority and objective

The Council was established in 1969 by the Medical Research Council Act and is a departmental Crown corporation named in Schedule B to the Financial Administration Act. The objective of the Council is to help attain the quality and scale of research in the health sciences essential to the maintenance and improvement of health services.

2. Accounting policies

Grants and scholarships

Grants and scholarships are charged to expenditure when disbursed.

Administration expenditure

Administration expenditure includes the cost of work performed, goods received or services rendered prior to April 1.

Employee termination benefits and vacation pay are charged to administration expenditure when disbursed.

Purchases of furniture and equipment are recorded as administration expenditure in the year of acquisition.

Amounts for services provided without charge by government departments are included in administration expenditure.

3. Parliamentary appropriations

Unused parliamentary appropriations, which lapsed, amounted to $24 in respect of Vote 45 and $106,781 in respect of Vote 40.

During the year ended March 31, 1982, the Council expended $58,602 in excess of the parliamentary appropriation for operating expenditures due solely to the inclusion of debts which had been incurred, but unpaid, as at that date. Under Treasury Board directions for Payables At Year End, a reserved allotment was established for the year ended March 31, 1983 from that year's appropriation which was used for the sole purpose of providing payment authority for the expenditure in excess of the 1982 appropriation.

4. Refunds of previous years' expenditure

Refunds of previous years' expenditure amounting to $91,310 (1982—$70,953) were remitted to the Receiver General for Canada and are not included in the statement of expenditure.

5. Commitments

The Council is committed to disburse grants and scholarships, subject to the provision of funds by Parliament, as follows:

	1983	1982
	(in thousands of dollars)	
1982-83		108,262
1983-84	113,972	58,015

1987-88	11,493	3,040
1988-89	4,037	
	263,637	204,792

6. Trust funds

In 1974, the Council received $75,000 from an anonymous donor to establish a fund. The interest received is used for the payment of grants for research in the fields of Dyskinesia and Torticollis. Other donations have been received but were not earmarked for specific projects. The donations and interest received and grants paid are not included in the statement of expenditure. The transactions in these funds for the year ended March 31 were as follows:

	1983	1982

Economic Council of Canada

AUDITOR'S REPORT

TO THE ECONOMIC COUNCIL OF CANADA
AND
THE RIGHT HONOURABLE PIERRE ELLIOTT TRUDEAU, P.C., Q.C., M.P.
PRIME MINISTER OF CANADA

I have examined the statement of expenditure of the Economic Council of Canada for the year ended March 31, 1983. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the expenditure of the Council for the year ended March 31, 1983, in accordance with the accounting policies set out in Note 2 to the financial statement, applied on a basis consistent with that of the preceding year.

KENNETH M. DYE, F.C.A.

NOTES TO FINANCIAL STATEMENT MARCH 31, 1983

1. Authority and objective

The Council was established in 1963 by the Economic Council of Canada Act and is a departmental Crown corporation named in Schedule B to the Financial Administration Act.

The objective of the Council is to advise and recommend to the Prime Minister how Canada can achieve the highest possible levels of employment and efficient production in order that the country may enjoy a high and consistent rate of economic growth and that all Canadians may share in rising living standards.

2. Accounting policies

Expenditure includes the cost of work performed, goods received or services rendered prior to April 1.

Purchases of office furniture and equipment are recorded as expenditure when acquired.

Expenditure includes costs for services provided without charge by government departments.

Employees participate in the Public Service Superannuation Plan administered by the Government of Canada. The employees and the Council contribute equally to the cost of the Plan and contributions are charged to expenditure when paid.

Refunds of previous years' expenditure are recorded as revenue of the Government of Canada when received and are not deducted from the expenditure of the Council.

Construction Services Revolving Fund

MANAGEMENT REPORT

We have prepared the financial statements of the Construction Services Revolving Fund in accordance with Treasury Board policy and the reporting requirements of the Receiver General for Canada.

These financial statements were prepared with objective data and in conformity to the "consistency" principle. The management of the Fund is effected through the maintenance of accounts which provide a centralized record of the Fund's transactions. It is further managed and controlled through procedure manuals, instructions and directives. Transactions are executed in accordance with the regulations contained in the Guide on Financial Administration and the Financial Administration Act in order to maintain accountability and exercise internal control.

The transactions of the Fund have been subjected to audit by the Auditor General's department as part of their review of internal control and the examination of the books, records and financial statements of the department.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1983

1. Authority and purpose

The Construction Services Working Capital Advance was replaced by the Construction Services Revolving Fund as at April 1, 1980. The purpose of the Fund is to provide construction services to other federal departments and agencies, to other governments or to private sector tenants of federal property; to provide, on a cost recovery basis, interim financing and financial control, construction supervision and other related services on federal and non-federal projects undertaken on behalf of federal departments and agencies, other governments or private sector tenants of federal property.

The Adjustment of Accounts Act, S.C. 1980, c. 17 authorized the operation of the Construction Services Revolving Fund in the current and subsequent years with a statutory authority limit of $55 million.

2. Significant accounting policy

Payments, charges and recoveries

The Construction Services Revolving Fund provides interim financing on a cost recovery basis. The gross recoveries are always equal to the payments and charges since revenue is recognized at billing point, hence no profit is realized.

Natural Sciences and Engineering Research Council

AUDITOR'S REPORT

TO THE NATURAL SCIENCES AND ENGINEERING RESEARCH COUNCIL
AND
THE HONOURABLE DONALD J. JOHNSTON, P.C., M.P.
MINISTER OF STATE FOR SCIENCE AND TECHNOLOGY

I have examined the statement of expenditure of the Natural Sciences and Engineering Research Council for the year ended March 31, 1983. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the expenditure of the Council for the year ended March 31, 1983 in accordance with the accounting policies set out in Note 2 to the financial statement, applied on a basis consistent with that of the preceding year.

RAYMOND DUBOIS, C.A.
Deputy Auditor General
for the Auditor General of Canada

Ottawa, Ontario

NOTES TO FINANCIAL STATEMENT
MARCH 31, 1983

1. Authority and objective

The Council was established in 1978 by the Natural Sciences and Engineering Research Council Act, and is designated as a departmental Crown corporation within the meaning and purpose of the Financial Administration Act. Its objective is to promote and support the development and maintenance of research and the provision of highly qualified manpower in the natural sciences and engineering.

2. Accounting policies

Grants and scholarships are charged to expenditure as disbursed.

Operating expenditure includes the cost of work performed, goods received or services rendered prior to April 1.

Acquisitions of office furniture and equipment are charged to operating expenditure in the year of acquisition.

Council employees participate in the superannuation plan administered by the Government of Canada and contribute equally with the Council to the cost of the plan. Contributions by the Council are charged to operating expenditure when paid.

Estimated amounts for services provided without charge by government departments and agencies are included in operating expenditure.

3. Parliamentary appropriations

$135,860 (1982—$354,521) lapsed in respect of Science and Technology Votes 25 and 25c and $1 (1982—$3,470) in respect of Science and Technology Votes 30 and 30c.

4. Refunds of prior years' expenditure

During the year, the Council recovered previous years' expenditure amounting to $485,988 (1982—$401,958) in respect of grants and scholarships no longer required for approved research. These funds were remitted to the Receiver General for Canada and are not reflected in the statement of expenditure.

5. Commitments

The Council had the following commitments in respect of grants and scholarships which have been approved for payment in future years, subject to the provision of funds by Parliament and final approval by the Council:

	Commitments as at March 31	
	1983	1982
Year of payment	(in millions of dollars)	
1982-83		188.3
1983-84	207.6	87.8
1984-85	109.9	45.5
1985-86	51.7	6.3
1986-87	0.9	
	370.1	327.9

6. Grants and scholarships administered for government departments, agencies and other organizations outside the government

Grants and scholarships administered and disbursed by the Council on behalf of government departments, agencies and organizations outside the government which are not included in the statement of expenditure, are detailed in Schedule II. Most of these disbursements are made by the Council from lapsing funds entrusted to it by government departments and agencies.

At March 31, 1983, the Council held in trust for two organizations outside the government grants and scholarships funds amounting to $185,997 (1982—$126,893).

7. Donation Trust Fund

Donations totalling $1,050 were received by the Council during the year ended March 31, 1983 (1982—Nil) under section 39 of the Natural Sciences and Engineering Research Council Act. There was no expenditure from the fund during the year ended March 31, 1983 (1982—Nil). At March 31, 1983, the Council held funds in trust amounting to $1,050 (1982—Nil).

Science Council of Canada

AUDITOR'S REPORT

TO THE SCIENCE COUNCIL OF CANADA
AND
THE HONOURABLE DONALD J. JOHNSTON, P.C., M.P.
MINISTER OF STATE FOR SCIENCE AND TECHNOLOGY

I have examined the statement of expenditure of the Science Council of Canada for the year ended March 31, 1983. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the expenditure of the Council for the year ended March 31, 1983 in accordance with the accounting policies set out in Note 2 to the financial statement, applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENT
MARCH 31, 1983

1. Authority and objective

The Council, established in 1966 by the Science Council of Canada Act, is a departmental Crown corporation named in Schedule B of the Financial Administration Act.

The objective of the Council is to assess Canada's scientific and technological requirements, to increase public awareness of these requirements and of the interdependence of various groups in society in the development and use of science and technology, and to advise the Government on the best use of science and technology.

2. Accounting policies

Operating expenditure includes the cost of work performed, goods received or services rendered prior to April 1.

Acquisitions of furniture and equipment are charged to operating expenditure in the year of purchase.

Council employees participate in the superannuation plan administered by the Government of Canada and contribute equally with the Council to the cost of the plan. Contributions by the Council are charged to operating expenditure when paid.

Estimated amounts for services provided without charge by government departments are included in operating expenditure.

3. Parliamentary appropriation

$73,079 (1982—$59,322) lapsed in respect of Vote 35.

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Staff Development and Training Revolving Fund as required by and in accordance with the policy of the Treasury Board on revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Fund.

Except for the accounting for fixed assets which is detailed in Note 2(a), these financial statements are prepared in accordance with the above accounting policies, requirements and standards on a basis consistent with that of the preceding year. Some of these policies are further explained in the notes which form part of these statements. To fulfill this reporting responsibility, the Fund maintains a set of accounts which provides a centralized record of the Fund's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with the information presented in these financial statements, unless indicated otherwise.

The Finance Directorate and the Fund's Comptroller, who reports functionally to the senior full-time financial officer, develop and disseminate financial management and accounting policies, and issue specific directives which maintain standards of accounting and financial management. Systems of financial management and internal control are maintained for the Fund at appropriate cost. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of government funds and safeguard the Fund's assets. Financial management and internal control systems are augmented by the activities of internal audit and by on-going monitoring activities by the Fund's Comptroller, financial services officers and by the Finance Directorate. The Fund also seeks to assure the objectivity and integrity of data in its financial statements by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

During 1982-83 the Fund was able to respond to government as well as to voluntary restraint measures and this has resulted in significant reductions of costs related to salaries, travel and professional services when compared to operational levels of previous years. During the year, a complete review of the rate structures was conducted which allowed the Fund to voluntarily limit rate increases to 6% for the year 1983-84 and thereby assist user departments to operate within the government spending restraints. An annual review is to be conducted each year as part of the budgetary process.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1983

1. Authority and purpose

The Staff Development and Training Revolving Fund was established by Vote L120, Appropriation Act No. 3, 1971 for the purpose of providing training and development to the Public Service.

The Fund has a continuing non-lapsing authority under the Adjustment of Accounts Act, S.C. 1980, c. 17 to make payments out of the Consolidated Revenue Fund for working capital and temporary financing of accumulated operating deficits, the total of which is not to exceed $4,500,000 at any time.

In accordance with Vote 115a (1980-81) and Vote 35c (1981-82), accumulated deficits of $4,573,071 have been deleted from the accounts. An amount of $1,915,571 representing net liabilities assumed by the Fund was charged to this authority when the Fund became budgetary in 1981.

2. Significant accounting policies and practices

(a) Fixed assets

Fixed assets, valued at $1,510,606 charged to the appropriation of the Public Service Commission and to the Staff Development and Training Revolving Fund in 1982-83 and previous years, are not capitalized in the accounts of the Fund. The use of the assets purchased by the appropriation is provided without charge to the Fund. Minor acquisitions of $55,161 in 1982-83 have been charged directly to operations.

(b) Rates

The fee schedule for the courses and other services did not include any provision for depreciation.

3. Comparative figures

(a) Appropriation funds in the amount of $2,810,796 were paid to the Staff Development and Training Revolving Fund for 1982-83. These funds were approved to cover the cost of the ongoing operations which are not cost recoverable. The comparative figure for 1981-82 is $3,307,232.

(b) Administrative and financial services in the amount of $426,327 were paid to the appropriation for corporate services. In accordance with Treasury Board Minute 774422, the Staff Development and Training Revolving Fund was exempted from this charge for 1981-82.

(c) Since the accumulated net charge against the Fund's authority account was in a deposit position for the fiscal year, no interest was required during 1982-83. Interest expense for 1981-82 amounted to $107,813.

(d) The prior years adjustments of $1,032,244 made in 1981-82 is comprised mainly of adjustments relating to the adoption of the accounting policy establishing liabilities for employee termination benefits and unused vacation leave.

SUPPLY AND SERVICES

Department

Objectives

SERVICES PROGRAM

—To fulfill the responsibilities of the Receiver General, and to provide in an economic and efficient manner a broad range of administrative, management and advisory services as required by the government and as requested by client departments and agencies.

SUPPLY PROGRAM

PROGRAM

—To encourage research and development in the private sector which contributes to departmental programs and to provide free and subsidized distribution of saleable government publications in accordance with established policies. To fund certain costs incurred on government contracts resulting from the use of those contracts to support industrial research or industrial development objectives in Canada.

SUPPLY REVOLVING FUND

—To acquire and provide in the most economical manner goods and services required by departments and agencies, taking into account the contribution of procurement to the realization of national objectives.

DEFENCE PRODUCTION REVOLVING FUND

—To acquire, store, maintain, transport and dispose of stocks of defence supplies or other designated materials pursuant to the Defence Production Act.

Royal Canadian Mint

Objectives

—To produce and arrange for the production and supply of coins of the currency of Canada;

—To produce coins of the currency of countries other than Canada;

—To melt, assay, refine, buy and sell gold, silver and other metals for the account of Canada; and

—To make medals, plaques and other things as are incidental to the powers of the Mint.

Statistics Canada

Objective

—To collect and provide statistical information needed for understanding the Canadian economy and Canadian institutions and for the development of economic and social policies and programs; to collaborate with other departments and agencies of the federal government, provincial and municipal governments and with businesses and individuals on the development of methodology and its application and on the production of new and expanded statistical information to meet their particular requirements.

Defence Production Revolving Fund

MANAGEMENT REPORT

The accompanying financial statements of the Defence Production Revolving Fund have been prepared by the Supply Administration in accordance with Receiver General for Canada Directives, Treasury Board Policies, the Defence Production Act and accounting policies and practices of the Government of Canada which have been applied on a basis consistent with that of the preceding year. Information contained herein is consistent with that presented elsewhere in the Public Accounts and departmental statements.

The primary responsibility for the integrity and objectivity of these statements rests with the Supply Administration. This responsibility is discharged through a system of internal control designed to indicate accountability, provide assurance that assets are safeguarded and that reliable financial records are maintained. Significant accounting policies used in the preparation of the financial statements as well as the purpose and authority of the Fund are included in the Notes to Financial Statements.

Defence Production Revolving Fund—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1983

1. Authority and purpose

The Defence Production Revolving Fund has been authorized by Section 15 of the Defence Production Act. It was established in 1951 for the purpose of:

(a) financing the stockpiling of defence supplies or strategic materials;

(b) making loans or advances to aid in defence procurement such as working capital loans, eg. advance payments on contracts, but not including loans or advance payments for capital purposes; and

(c) permitting initial payments for defence supplies which can be promptly billed to a government department, agency or an associated government in advance of delivery of goods.

The Adjustment of Accounts Act (S.C. 1980, C. 17) had the effect of creating a separate Defence Production Loan Account for loans or advances authorized under Defence Production Act, item (b) above.

The Fund and the Defence Production Loan Account have a continuing non-lapsing authority from the Adjustment of Accounts Act to make payments out of the Consolidated Revenue Fund, the total of which is not to exceed at any time by more than $100 million the aggregate of amounts received on these two accounts. An amount of $15,408,997 representing net assets assumed by the Fund was charged to this authority when the Fund became budgetary in 1981.

2. Significant accounting policies

(a) Progress payments to suppliers

Progress payments and accrued liabilities to suppliers for defence supplies requisitioned by government departments and agencies and/or for stockpiled inventories, which are in progress and located on the supplier's premises, are recorded as progress payments to suppliers. Under the terms of the contracts, the suppliers are liable to the Fund until delivery takes place.

(b) Progress billings to customers

Billings to customers for defence supplies requisitioned which have not yet been delivered to customers are recorded in the accounts as progress billings to customers.

3. Long-term receivable

In accordance with the terms of an agreement, collection of the long-term receivable is dependent on the recipient's ability to make sales. Should the sales be insufficient to retire the debt, any balance owing will be recovered from the Department of National Defence.

Supply Revolving Fund

MANAGEMENT REPORT

The accompanying financial statements of the Supply Revolving Fund have been prepared by the Supply Administration in accordance with the Treasury Board Policies, and reporting requirements and standards of the Receiver General for Canada with the exception of the inclusion of deferred acquisition fees on the Balance Sheet, rather than as a note, for added disclosure.

The statements have been prepared on a basis consistent with that of the preceding year and are consistent with information presented elsewhere in the Public Accounts and with departmental reports. Significant accounting policies used in the preparation of the financial statements are included in the Notes to Financial Statements.

The primary responsibility for integrity and objectivity of these statements rests with the Supply Administration. This responsibility is discharged through a system of internal control designed to indicate accountability, provides assurance that assets are safeguarded and that reliable financial records are maintained.

Supply Revolving Fund—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1983

1. Authority and purpose

The objective of the Fund is to acquire and provide in the most economical manner goods and services required by departments and agencies taking into account the contribution of procurement to the realization of national objectives.

The Supply Revolving Fund was authorized by Supply and Services Vote L6, Appropriation Act No. 1, 1975. Amendments to the appropriation authorized that the operations of the Supply Revolving Fund be combined with the operations of the Printing Revolving Fund effective April 1, 1975, with the Publishing Revolving Fund effective April 1, 1976 and with the Expositions Revolving Fund effective April 1, 1977.

The authorized working capital limit of the Supply Revolving Fund was increased from $150,000,000 to $200,000,000 during 1981-82 through Appropriation Act No. 4, 1981-82. An amount of $44,171,345 representing net assets assumed by the Fund and assets contributed to the Fund was charged to this authority when the Fund became budgetary in 1981. Accumulated surplus of $3,256,386 was transferred to the Fund's authority during 1982-83 pursuant to standing Treasury Board authority.

2. Significant accounting policies

(a) Revenue and expenses
Revenue and expenses are recorded on the accrual basis of accounting with the following variations:

(i) The accrual policy for recording certain revenue in the Science and Engineering Procurement Service is based on detailed and validated statistical analysis of the procurement workload. This policy was implemented to avoid expensive record keeping while respecting the need for adherence to the generally accepted accounting principle of matching cost and revenue. Contracts ranging in value from $200,000 to $1,000,000 require 18 months on average to complete and revenue is recorded evenly over 18 months commencing the month the contract is awarded. Contracts with a value in excess of $1,000,000 require 36 months on average to complete and revenue is recorded evenly over 36 months commencing the month the contract is awarded. Certain other large contracts are administered on a project management basis and the actual cost of the project is recorded as revenue in each accounting period over the entire life of the project. Management recognizes that some revenue is earned prior to contract award date but is of the opinion that the accounting principle of matching cost and revenue is not seriously violated since on average, revenue will be accruing on other contracts that have been completed.

(ii) Employee benefits (termination benefits and vacation pay) are expensed in the period in which the payments are made. The unaccrued liability at March 31, 1983 has been estimated at $31,965,944 ($27,831,974 at March 31, 1982).

(b) Depreciation
Depreciation is calculated on a straight-line basis over the estimated useful life of the fixed assets, generally 5 to 10 years.

(c) Direct financing leases—EDP equipment
The Treasury Board, on March 2, 1976, authorized the Supply Revolving Fund to purchase designated EDP equipment approved by Treasury Board for client departments. The capital, interest and any other costs are recoverable from departments over a one to five year period under direct financing leasing agreements. The original cost of the equipment including unearned financing income and net repayments to date is shown as direct financing leases—EDP equipment on the Balance Sheet. Title to the equipment remains with the Supply Revolving Fund. Payments by the client departments for the long-term direct financing leases are due—$466,462 in 1984-85, $389,935 in 1985-86, $209,217 in 1986-87 and $84,222 in 1987-88.

3. Inventories

4. Sales and cost of sales

For consolidation purposes, sales and cost of sales in the amount of $37,428,057 ($39,368,083 in 1982) have been eliminated.

5. Insurance

The Supply Revolving Fund does not carry insurance on either its own property or the property of others held in its warehousing operations. This is in accordance with the Government's policy of self insurance.

6. Fixed assets and accumulated depreciation

Depreciation in the amount of $1,009,446 has been included in the cost of sales in the Statement of Operations.

Self-supporting Airports and Associated Ground Services Revolving Fund

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Self-supporting Airports and Associated Ground Services Revolving Fund in accordance with the Treasury Board policy governing revolving funds and the reporting requirements and standards of the Receiver General for Canada. The responsibility for the integrity and objectivity of the data in these financial statements rests with management.

The financial statements are prepared in accordance with the stated accounting policies, as set out in Note 2, on a basis consistent with that of the prior year. Some of the information included in these financial statements is based on management's best estimates and judgements, which give due consideration to materiality. To meet the reporting requirements, separate accounts are maintained on a decentralized basis for each of the 23 airports funded by the Revolving Fund, under the functional authority of six Regional Financial Officers and the Director General, Finance, Air and are submitted to Ottawa Headquarters for review and consolidation.

Those airports in the Fund are subject to the departmental systems of financial management and internal control and such additional policies, practices and procedures as are necessary to facilitate financial reporting for the Revolving Fund, in accordance with the requirements of the Treasury Board and Receiver General for Canada. Transactions are executed in accordance with prescribed regulations, within Parliamentary authorities, and are recorded to maintain accountability of government funds and to safeguard the assets of the Revolving Fund.

Management seeks to assure the objectivity and integrity of data in its financial statements by selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization. In addition, the financial management and internal control systems are augmented by the maintenance of internal audit programs.

The accounting and financial statements of the Fund have evolved over time in conjunction with changing conditions, the evolvement of financial reporting in Canada, and, more recently, in response to the reporting requirements of Treasury Board and the Receiver General for Canada.

The 23 airports in the Revolving Fund are operated and maintained in accordance with nationally promulgated policies, standards and procedures, on a cost-recoverable basis, so as to provide safe and efficient facilities and services consistent with the protection of the environment. Certain essential services to aviation provided by the Telecommunications and Air Traffic Control Branches of the Canadian Air Transportation Administration are charged to the airports in the Fund, however, the related assets are not included in the accounts of the airports.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 1983

1. Authority and purpose

The Airports Revolving Fund was established in 1969 and authorized by vote L160, Appropriation Act, No. 3, 1969, 1968-69, c. 36 for the purpose of financing the operation and development of certain airports. As at March 31, 1979, the Fund included the accounts of the international airports at Dorval, Mirabel, Toronto and Vancouver and the land which was acquired at Pickering, Ontario, for the purpose of constructing an airport.

Effective April 1, 1979, Treasury Board approved an expansion of the Fund to include the operations of five additional international airports and fourteen national airports. At that same date, the Department of Transport commenced to recover from the Fund the costs of providing certain essential operating support, including air traffic control and telecommunication and electronic services.

Effective April 1, 1980, Parliament through the passage of the "Adjustment of Accounts Act" repealed all votes in respect of the accounts of the Airports Revolving Fund. Section 31 of the Act established the Self-supporting Airports and Associated Ground Services Revolving Fund as a budgetary entity with a statutory drawing authority of $80 million.

Effective March 31, 1981, the land which was acquired at Pickering, Ontario for the purpose of constructing an airport, was transferred to the Department of Transport.

The balance in the accumulated net charge against the Fund's authority account at the end of the year represents the net accumulation of all cash transactions made through the Consolidated Revenue Fund and is shown as part of the Equity of Canada.

The Consolidated Revenue Fund is the central account through which all government receipts and disbursements flow. All cash transactions of the Fund are therefore made through the Consolidated Revenue Fund. By virtue of the Fund's mandate, it receives credit for all revenues generated and is empowered to draw funds under statutory authority from the Consolidated Revenue Fund for any revenue shortfalls.

An accumulated excess of cash receipts over cash disbursements (debit balance) represents an addition to the drawing authority of the Fund.

2. Significant accounting policies

(a) Inventory

Inventory of materials and supplies, maintained for repair and maintenance purposes at the airports, is carried at the lower of cost or replacement value.

(b) Fixed assets

Fixed assets purchased by the Fund are recorded at cost. Fixed assets transferred to the Fund prior to April 1, 1979 are recorded at appraisal values as established by the Department of Transport in accordance with Treasury Board Circular 1970-7 of January 8, 1970. Fixed assets transferred to the Fund as at April 1, 1979 in connection with the addition of nineteen airports (Note 1) are recorded at their depreciated value at that date. Subsequently, all transfers of fixed assets to or from Canada are recorded at net book value at the date of transfer.

000440

Self-supporting Airports and Associated Ground Services Revolving Fund—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 1983—*Concluded*

Project administration costs, including interest incurred during the construction of new airports, are capitalized and included in airport development costs to the extent that these costs are not readily identifiable with specific fixed assets. Additions, renewals and betterments which extend the economic lives of the assets are capitalized. Maintenance and repairs are charged to operations.

(c) Depreciation

Depreciation is charged, on a straight-line method, based on the estimated useful life of the asset. Depreciation on additions, renewals and betterments to an asset is calculated using the rate initially determined for the asset.
The depreciation rates used within the major classes of assets are as follows:

Terminals and facilities	2.5% to 5.0%
Waiting room furniture and fixtures	20.0%
Runways and other paved surfaces	3.3% to 5.5%
Machinery	3.3% to 5.0%
Equipment	
Static	5.0% to 9.0%
Mobile	6.0% to 18.0%
Amortization of airport development costs (excluding interest)	10.0%
Amortization of capitalized interest	4.2% (average rate)

(d) Contributed capital

Amounts representing working capital advances, the values assigned to assets transferred to the Fund and deletion of loans from Canada, are shown as contributed capital.
The values of assets transferred between the Fund and Canada are shown as additions or reductions to contributed capital.

(e) Air transportation tax

Air transportation tax is levied and collected under the Excise Tax Act, Part II by the Minister of National Revenue. By authority of Appropriation Acts, tax received during the year is remitted to the Department of Transport and the applicable amount is credited to the Fund.

(f) Headquarters and regional overhead

Headquarters and regional overhead reflects the charges by the Canadian Air Transportation Administration for providing technical and administrative services to the Fund. Since expenditures are not readily identifiable with specific services, these charges are a percentage of direct operating and maintenance expenses of the Fund.

(g) Grants in lieu of taxes

Grants in lieu of taxes, imposed on airports of the Fund, are accrued based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid by the Department of Public Works and recovered from the Fund. The grants are not finalized until they have been audited by the Department of Public Works, often several years in arrears. Any normal adjustments upon finalization are reflected in the accounts in the year of settlement.

(h) Pension plan

Employees of the Canadian Air Transportation Administration operating the airports of the Fund are covered by the Public Service Superannuation Act and the Supplementary Retirement Benefits Act. The Government of Canada's portion of the pension cost is included in the employee fringe benefit charge assessed against the Fund. The actual payment of the pension is made from the Public Service Superannuation Retirement Benefits Account.

(i) Employee termination benefits

Termination benefits accrue to employees of the Canadian Air Transportation Administration operating airports of the Fund. Payment of these benefits is made to employees on separation or retirement. The cost of these benefits is expensed in the year in which they are earned.

4. Payment of provincial sales taxes

The Department of Finance makes certain payments on behalf of the Fund to participating provinces in lieu of the payment of sales taxes. These payments, estimated at $1.8 million in 1983 (1982—$1.8 million), are currently not recovered from the Fund and no provision has been made in the accounts for these payments.

5. Related party transactions

The Department of Transport officials who have the authority and responsibility for planning, directing and controlling the activities of the Air Transportation Program, are responsible for the operations of the Fund.

Airports of the Fund provide certain accommodation facilities without charge to the Department of Transport, Air Transportation Program. These accommodation facilities are used to provide hangers to service government owned aircraft, to perform air safety and other related tests and to provide certain essential operating support services. An estimate of the cost of these facilities has not been determined at this time.

6. Contractual obligations

As at March 31, 1983, the Fund was committed to expenditures totalling approximately $48 million under fixed asset construction and maintenance contracts.

Stores Revolving Fund

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Transport Canada Stores Revolving Fund as authorized by Treasury Board and in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Fund.

These financial statements were prepared in accordance with the stated accounting policies, as set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in these financial statements is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill this reporting responsibility, the Fund maintains a set of accounts which provides a centralized record of the Fund's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in these financial statements, unless indicated otherwise.

The operation of the Transport Canada Stores Revolving Fund is primarily designed to provide for the acquisition of recurring requirements of material and insurance spares in support of the operations of the Air, Marine, Surface and Departmental (Headquarters) Administrations across Canada. The cost of operating, administering and controlling the supply activities associated with the Fund is shared jointly by the operating Administrations and Headquarters corporate management under the direct guidance of the Director, Materiel and Contracting Services and the Assistant Deputy Minister, Finance.

The ADM Finance develops and disseminates financial management and accounting policies, and issues specific directives which maintain standards of accounting and financial management. The Fund maintains systems of financial management and internal control at appropriate cost. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of government funds and safeguard the Fund's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs and contacts are maintained between staffs responsible for the operation of the Revolving Fund and of the Auditor General's office.

The Fund also seeks to assure the objectivity and integrity of data in its financial statements by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 1983

1. Authority and purpose

   The objective of the Fund is to establish an effective central control and accountability over the purchasing, stocking and issuing of expendable items, controllable items and initial sparing for depot stocks required by the Department.

   The Transport Stores Revolving Fund was authorized by the Adjustment of Accounts Act—Statutes of Canada, Chap. C-17, with an authorized working capital limit of $30,000,000, which was increased to $35,700,000 by Appropriation Act No. 4, 1981-82. An amount of $25,489,058, representing the net assets of the "Stores Working Capital Advance", was assumed by the Fund and charged against the authority when the Fund became budgetary in 1981.

2. Significant accounting policy

   Sales prices

   Selling prices to consumers are on the basis of acquisition costs.

Objectives

CENTRAL ADMINISTRATION OF THE PUBLIC SERVICE PROGRAM

—In accordance with the responsibility delegated by the Privy Council as set out in the Financial Administration Act:

—the selection of programs and projects that will achieve the objectives of the Government in the most effective manner and in accordance with its priorities and the efficient use of person-years and material resources by departments and agencies in the operation of their programs and projects.

GOVERNMENT CONTINGENCIES AND CENTRALLY FINANCED PROGRAMS

—To provide for unforeseen and urgent expenditures which arise after the Main Estimates have been tabled; to provide funds for centrally managed programs.

EMPLOYER CONTRIBUTIONS TO INSURANCE PLANS PROGRAM

—Provision of the Government's contribution, as the employer, to employee insurance plans and for payments made under certain residual pension plans.

TEMPORARY ASSIGNMENTS PROGRAM

—To provide, in response to departmental and agency demands, executives and senior officers to carry out high priority temporary assignments in policy, planning, program evaluation, operational and administrative activities.

Comptroller General

Objectives

MANAGEMENT PRACTICES AND CONTROLS PROGRAM

—To see to the establishment of sound management practices in the federal government by developing policies and standards for financial and operational planning, reporting and controls, and by promoting and monitoring improvements in the practice of financial and operational management, in departments and agencies.

IMPLEMENTATION ASSISTANCE PROGRAM

—To accelerate improvements in management practices and controls in federal departments and agencies.

Deletions from accounts receivable during 1982-83	31.7

000465

The Government generally reports revenue in the year in which it is received. Therefore, amounts for accounts receivable are not accrued in the Statement of Assets and Liabilities.

Accounts receivable represent financial claims not recorded in the accounts of Canada or reported on the Statement of Assets and Liabilities. They result from revenue due but not collected, expenditure overpayments, goods delivered or services rendered by the Government prior to the accounting date, and interest capitalized, deferred, due and accrued.

[1] Under Section 13 of the Income War Tax Act 1943-44, c.14, taxes which were assessed need not be paid until death of the taxpayer.
[2] An amount of $108,409,222 representing 4,564 uncollectables for the fiscal years 1980-81, 1981-82 and 1982-83 for deletion from the accounts is included as Parliamentary approval to delete these debts has not been granted.
[3] Funds are remitted by taxpayers without the provision of specific taxpayer identification. These funds, therefore, are placed in suspense accounts. Since assessed taxes form a part of these accounts, the accounts receivable are overstated by an amount which is not determinable. The total amount of these suspense accounts as at March 31, 1983 is $12,353,534 consisting of 9,229 accounts.
